Address a Postal Card to

C. B. SCANTLEBURY,
Belleville,
The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir,— 189
Please send me samples of Wall Paper suitable for (mention rooms) and not to exceed (mention price) per single roll. I saw your advertisement in (mention paper).
Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for any kind of a home, and which we positively guarantee better, and lower in price than any other house in Canada. The samples will be large and in sets containing Wall Paper and Border, and will enable you to make a selection for an entire house as you sit by your own fireside and with your friends to assist in the selection.
You have absolutely no responsibility in the matter—you simply write the postal as above and we do the rest—send you samples enclosing order blanks, a quote of "How to Paper or Economy in House Decoration," showing how to estimate the quantities required for the different rooms, and directions for ordering, etc., in fact we entirely relieve you of the trouble and anxiety of Wall Paper shopping. We positively guarantee Satisfaction. Can we say more?
Our Mail Order Department reaches throughout the Dominion. We pay the express charges on all orders of a reasonable size. Full instructions with samples.

NORTH MARYSBURGH.

Miss Cregan, of Kingston, is visiting her brother the Rev. Mr. Cregan.
Tom Slater and wife have returned home.
Capt. H. Holmes, of the Gbala, is home.
George Vanlack and wife have returned from their wedding tour.
Mrs. Ira Storme is dangerously ill.
The Thanksgiving service in St. John's church on the 20th inst. was well attended. The church was beautifully decorated.
The house of Irvine Harrison, Cressy, was burned last Friday.

TYENDINAGA RESERVE.

The Mohawk Brass Band concert held in the Council House on Tuesday evening was well attended. The several performers did their part admirably and financial results were good. Samuel Lewis made a first class chairman; his unique way of announcing the pieces brought down the house frequently.
The old pipe organ played in the church over forty three years ago, is being thorough repaired by Mr. Greenwood, organ builder. It will be ready for use on Sunday next as good as new.
Several white fish have been caught in the seines last few days.

MELROSE.

Wm. Mandell attended the demonstration in Kingston on the 23rd inst. in connection with the unveiling of the Statue of Sir John A. Macdonald.

The Rev. Mr. McArthur is holding a series of evening meetings in Shannonville this week.
The Melrose cheese factory shut down for this season last Saturday.

A number of our young people spent a pleasant time last Friday evening as the guests of Mrs. J. Beatty.
On Monday, at St. Mary's church, by the Rev. Father Quinn, Mr. Thos. Callaghan was united in marriage with Miss Frankie Dryden, eldest daughter of Mr. Jas. Dryden, Esq. After the ceremony the wedding party drove to the residence of the bride's father to partake of the sumptuous wedding dinner and to otherwise celebrate the occasion.
Miss Lillie Dryden acted as bridesmaid and Mr. Wm. Callaghan performed the duties of best man. We unite with their many friends in extending congratulations to the happy couple.

MARYSVILLE.

St. Mary's church was the scene of a very pretty wedding on Monday morning, Oct. 25th. The contracting parties were Mr. Thos. Callaghan and Miss Frankie Dryden, daughter of Mr. James Dryden, of Melrose. The marriage ceremony was performed by Rev. Father Quinn in the presence of a few immediate friends. The bride was tastefully dressed in a travelling suit of brown tweed with hat to match. Miss Frankie Dryden, sister of the bride, acted as bridesmaid and the groom was ably supported by his brother Mr. Wm. Callaghan. After the nuptial Mass, the bridal party drove to the residence of the bride's father, where a wedding breakfast was served. Mr. and Mrs. Callaghan have the best wishes of their many friends in Marysville for a long and happy life.

Messrs. Killoren, of Ennisville, were the guests of Mr. J. McAlpine for a few days last week.
On last Friday evening, Mr. and Mrs. Thos. McGurn entertained a number of their young friends and all report having had a good time.

Miss Copeland returned to her home in Belleville on Saturday.
Messrs. J. and M. McAlpine, J. Drumme and H. Ryan spent Sunday in Read.

NAPANEE MILLS.

The cement works have over one hundred men on the pay roll and are pushing each department to its full capacity running time and a half. The output of Portland cement this season has been enormous yet not sufficient to meet the demand. They have been compelled to refuse many orders including those from American cities which have Portland cement plants almost within their limits. Evidently the Star Portland cement does not belie its appellation. The works will run all winter in order to supply next season's demand.

Messrs. Christie and Crabtree's paper mill is suffering from low water. Arrangements are being made however to recover what has hitherto been waste water, similar to the scheme employed by the Cement Company.

The fever is very prevalent here and we suppose always will be as long as the inhabitants remain dead to all matters of reform and stick to the conservative custom of using the clear, cold, sparkling water as a daily beverage. The correspondent has warned the good people repeatedly but there are none so deaf as those that will not hear, and refuse to believe that a variegated and sparkling attack of the delirium tremens is more desirable, at least not so monotonous, as the deadly typhoid.

The Shannon, Baldwin contest on Saturday evening resulted in a draw. The fight took place on the triangle and the result would have been different perhaps had the two men arrived when the Shannon and philanthropist conductor, Mr. Parks, persuaded the belligerent contestants to desist. Conductor Parks is ever ready to lend a helping hand and sometimes a helping foot. He is very kind to assist the old and decrepit when their business demands a railroad journey. He has also been known to assist alcoholized men when their memory had not prompted them to purchase a ticket. Neither is he adverse to making it pleasant for the young and beautiful but rather all a matter of duty don't you know.

Dr. Rattan Baldwin scrap was not pulled off on account of arrangements not being made with the management of the triangle. John Christie is expected to visit to Watertown N. Y., this week.

Mrs. W. G. Weir is slowly recovering from a severe attack of fever.
Misses Caracul and daughter Ida are also getting around after having a pleasant time of it.

Dr. Brennan seems to be coping with the disease very successfully.

Wm. Shannon has opened a butcher stall and is doing well on Bridge street. Go it Bill, you are doing well.
Mr. Browne and family, of Bridgewater, have moved to this village.

DISTRICT ITEMS.

Rev. Dean Murray, of Trenton, has been seriously ill.
The school children of Marmora gave an entertainment which realized \$45.

Belleville is talking of the erection of a much needed high school building.
Wm. McDonald, of Alexandria, was accidentally killed by a log falling upon him.

Wm. Helm and wife, Peterboro, have celebrated the fifteenth anniversary of their wedding.

Brookville has fallen into line and will convert its mechanics' institute into a free public library.

Mr. & Mrs. Elias Ketcheson, of Avondale, Sidney township, have just celebrated their golden wedding.

W. E. Dooze, Napanee, is very low. A surgical operation was performed, but the result is doubtful.

John J. Hall, collector of customs, Peterboro, fell down stairs and is in a critical condition as a result of his injuries.

R. A. Bush, engineer at Brockville asylum, was seriously injured by the accidental discharge of a revolver which was in his breast pocket.

James Broun, Springbrook, Hastings county, has been arrested for murder. He and a constable had a fight with a young English emigrant named Barber at a hawking box, and the treatment caused the lad's death.

D. Andrews, engineer; Geo. Haines, fireman; and Geo. Brown, brakeman, on the passenger train which fell through the bridge at Peterboro, have been discharged, as they were considered responsible for the accident.

CANADIANS IN INDIA.

Capt. Herbert Nanton, son of an old Torontoian, and Capt. George Mowat, both of Lieut. Col. Duff, Kingston, and nephew of Sir Oliver Mowat, and both graduates of the Royal military college, have been selected out of forty-five officers who accompanied the British expedition to take charge of the fortified forts of Chakdara and Malakand, on the English frontier and have been left in entire charge of the works at these points. Capt. Duff used to visit Deseronto quite frequently before he entered the Imperial service. His friends here will be glad to hear of his advancement.

HIGH CLASS GOODS.

Persons in want of extra fine clothing, gent's furnishings, hats, etc., should not fail to call at Gough's big new store. In our large stock we carry a large line of special fine suitings, ranging in price from \$10.00 to \$18.00 and the same in overcoats. These goods cannot be duplicated in any ready-made clothing store in Canada as we have them specially made for our own trade. We are showing a range of silk umbrellas from \$2.00 to \$6.00 each, also a fine range of fur goods, and a choice selection of fine gloves bought specially for fine trade. Mothers would also do well to call at Gough's as we carry the best at the lowest price. At Gough's only. Belleville Ont.

NEWS OF THE DAY.

A little rebellion is reported in Hyatt.
The Ontario W. C. T. U. convention opened at Hamilton.
Mrs. F. J. Davis of Uxbridge Township was burned to death.
Capt. Reynolds of the steamer Golden City was drowned near Buckhorn.

The Norwegian ship Reciprocity is wrecked on the New Brunswick coast.
Two electric cars collided at Hamilton. A motorman was badly injured.
J. S. Wilk's farewell address to the Cardwell electors has been issued.

William Wainwright will sever his connection with Grand Trunk in March.
The King of Korea has chosen another Queen to replace his deceased one.

Two American schooners have been seized at Cape Breton for violating the fishing laws.

Sir Mackenzie Bowell and Sir C. H. Tupper called on President Cleveland at Washington.

The ex Queen of Hawaii is reported to have purchased winter and summer residences in Italy.

Holmes is conducting his own defence at Philadelphia, the lawyers having withdrawn from the case.

Representatives of the British colonies met in Sir Charles Tupper's office in London to discuss the Pacific cable.

The St. Lawrence at Montreal is at the lowest point ever known—three feet one inch below average low water mark.

The British Foreign Office pronounces the *Zhu* report on the Chinese treaty to be without foundation.

The Prince and Princess of Wales have received congratulations on the betrothal of Princess Maud to Prince Charles of Denmark.

It is understood that Premier Bowen, Sir Adolpho Coran and Messrs. Foster, Hoggart and Montague will campaign Oats in next month.

Travelers arriving at New York report that all is quiet in Venezuela, and the feeling is that the boundary dispute will be settled without trouble.

The Governor of Georgia recommends a law by which the family of a prisoner taken from an officer and lynched can sue the country for the value of his life.
It is understood that the Bank of England will this week hand over to Japan the first \$5,000,000 of the indemnity to be paid by China on account of the recent war.
In a speech at Dublin Mr. Wm. Redmond said the Irish question would never be settled until England was unable to ignore it. England's danger is Ireland's opportunity.

PLACES TO LOOK FOR DANGER.

The following is a list of specific insensatory and dangerous defects in dwelling houses: Common brick or stone built drains under basements.

Large built drains under or near dwellings.

Pipe drains of larger diameter than actual pipe necessary.

Pipe drains broken or with leaking joints, saturating the subsoil with sewage.

Pipe drains with built or imperfect junctions.

Pipe drains under dwelling without sufficient fall.

Pipe drains with fall in the wrong direction.

Drains of any kind without proper intercepting traps.

Drains of any kind without constant free current of air throughout.

Drains without easy means of inspection.

Drains carried from public sewer direct into the house, up steps and under scullery floor instead of across open area.

Rat burrows from built drains undermining floors.

Rat burrows from public sewer worked along outside pipe drains into houses.

Defective connections between soil pipes and drains.

Soil pipes inside houses under almost any circumstances.

Soil pipes inside or outside without any or ample ventilation.

Soil pipes through pantries, larders or stores.

Defective, badly placed, or ill constructed water closet apparatus and slopinks.

Water closet cisterns with overflows joined to soil pipes or drains.

Safe trays under water closets joined to soil pipes or drains.

Two or more water closets or sinks on one soil pipe, trapping each other when used.

Overflow pipes connected to soil pipes liable to become untrapped, all very dangerous.

Water pipes over troughs taken from water closets or other contaminated drains, and liable to be used by careless servants to fill bedroom carafes for drinking.

Traps for supplying bedroom water fixed over slopinks, liable to be polluted by splash from slops emptying.

Traps for supplying, with overflows, joined to soil pipes or drains.

Traps of every kind, without ample ventilation to guard them.

Scullery sinks connected direct to drains, admitting foul air not only through traps, but joints of brick work and plaster all round.

Hot traps, with loose covers on scullery sinks.

Gullies or traps in floors of sculleries, laundries, larders or basement, etc., connected to drain, and usually dry and untrapped or foul deposit.

Ventilating floor air shafts, discharging near chimneys or windows or ventilating pipes.

Rain pipes used as ventilator for drains, discharging foul air near bedroom windows or under roof eaves.

Using pipes under, or connected to soil pipes, likely to freeze soil pipes solid in severe winter.

Rain passing down centre of houses connected to soil pipes.

Open rain course from valley gutters, passing under floors to outside down pipes connected to drain.

Asphalts connected near larder, pantry or dormer.

Asphalts liable to let moisture soak into house.

Asphalts capable of retaining moisture, or preventing drainage.

Rat burrows from defective drains in neighboring premises.

Defective drainage or fittings in neighboring premises.

Any direct communication with drains of neighboring premises.

Untrapped drains, near asphalts or sculleries, or with any connection of overflow to drains.

Bath waste or overflow pipes connected to soil pipes or drains.

Wash hand basin waste or overflows connected to soil pipes or drains.

DOUGLAS' EGYPTIAN LINIMENT

WHAT THE RABBIT CO. SAY.

Douglas Bro. & Co., Napanee, Ont.
Dear Sirs—We have pleasure in stating that we have used a quantity of Douglas's Liniment for some time on our horses, with every satisfaction, and cordially recommend it to others. Yours truly,
J. H. RABBIT CO.
Deseronto, 1st Nov., 1891.

FIRST IN CANADA.

It is Belleville's proud boast that one of her sons is the first in Canada—the Hon. Sir Mackenzie Bowell. It is also her proud boast that she possesses the premier clothing store in Canada. Yes, Gough's is a busy store, because of the extraordinary saving in prices. There are no embezzlements to proclaim his leadership. His van of enterprise is loaded with crushing speed. Quantities, quality, style and high-grade goods at prices 33 1/3 percent less than you have to pay elsewhere in the fortress of his success. His business is built on the firm foundation of rock-bottom prices to all classes and "Always good at Gough's" is fast becoming a household word.

PUT MONEY IN THY PURSE.

Put your money back. You need only pay half the price now. High prices are no more. In spite of the contrast, a good article can be had at a cheap rate. Since the Bordeaux Cigaret Co. came into the field with their cheap wares, imported directly from the makers of France, the price of long pipes. People want this cheap pipe at \$3 and \$4 per dozen. It hardly seems possible—for here has been associated with long pipes, and all but two enormous sales at cheap rates make profits, too. And this is the position:—The people have won, wholesale, strong evidence which they can use freely without being impoverished at nominal prices. Address—Bordeaux Cigaret Co., 30 Hospital Street, Montreal.

RAN INTO A CULVERT.

South Bend, Ind., Oct. 26.—The east-bound Chicago and Grand Trunk passenger train, due here at one o'clock this afternoon, was wrecked at a culvert on the Kankakee branch, several miles west of here, shortly after noon. The train was on fire and the train rushed full speed into a burning culvert which the engineer did not see on account of dense smoke. The engine left the track, and the train, consisting of mail, baggage, express car and four coaches, was telescoped and the train wrecked. The loss to the railway company is probably \$30,000.

Exposure to cold, damp winds, may result in pneumonia unless the system is kept invigorated with Hood's Sarsaparilla.

TWO GREAT ARMIES.

The knowledge that France would fight at Germany's throat, as it were, as it seemed to do so has been a permanent factor in all international bargaining and controversies. The terror that some of the great powers of the world have always threatened conflict, even against the desires and best judgment of the combatants, has never been so great as it is now. It is a prolonged anxiety has strained the nerves of nations, what must have been the tension upon the people directly concerned. Statistics afford some slight conception of the material burdens which they have been forced to bear. When the war ended, for instance, the Germans had 375,000 troops of all arms on French territory.

To-day the peace footing of the regular French army, without counting gendarmes or reserves, actually exceeds by 30,000 that total muster of the German at the time of their triumph. The present standing army of the Empire, being formed on the theory of a defensive force, is a trifle smaller. It has only 585,000 men under arms. These figures are to be compared with the 800,000 men of the German army. It is a little clearer by saying that the French and German people together have now some 1,385,000 men under arms. It is a little clearer by saying that the French and German people together have now some 1,385,000 men under arms. It is a little clearer by saying that the French and German people together have now some 1,385,000 men under arms.

SURROGATE CROWN.

Samuel Krato, late of the City of Belleville, Krato was granted a Surrogate's Certificate, Estate \$1,200, W. J. Diamond, solicitor.
Henry Vivian, late of the township of Thelwell, Estate \$1,200, W. J. Diamond, solicitor.
Milton McLaughlin, late of the village of Shannonville, Estate \$1,200, W. J. Diamond, solicitor.
Archibald D. Walker, executor and executor of the Estate of \$20,000, Northrup & Roberts, solicitors.

Karl's Clover Root, the great blood purifier, gives freshness and clearness to the complexion and cures constipation, 25 cts. per bottle. W. G. Eggar.

Weak and Nervous

Whenever the body has been weakened by disease, it should be built up by Hood's Sarsaparilla. Read this: "About two years ago, I suffered with a very severe attack of inflammation of the bowels. When I began to recover I was in a very weak and nervous condition, and suffered intensely with neuralgia pains in my head, which caused loss of sleep, and having no appetite."

Became Very Thin
and weak. Fortunately a friend who had used Hood's Sarsaparilla with great benefit, kindly recommended me to try it. I did so and a perfect cure has been effected. I am now as well as I ever was, and I would not be without Hood's Sarsaparilla in my house for anything." Mrs. G. KERN, 245 Manning Ave., Toronto, Ont.

Hood's Sarsaparilla

Is the Only

True Blood Purifier

Prominently in the public eye today.

Hood's Pills easy to buy, easy to take, easy in effect.

Always Good at GOUGH'S

GOUGH! The Big Clothier

318 and 320 FRONT STREET.

Fine Dressers.

The Most Particular Men

—Men who understand that "not to be conspicuous is to be well dressed"—men who are recognized for their fine judgment and good taste, as well as by their faultless-fitting garments—

DO YOU KNOW

That in our New Store we have all the latest styles of Fashionable Clothing now in vogue for fall and winter wear.

Fully represented in our stock are the Newest and Most Expensive Suitings and Pantings, such as French Worsteds, English Venetians, West of England Cloths, Serges, Scotch and Canadian Tweeds, as well as the leading lines of Overcoatings, such as Beavers, Meltons, Cheviots, etc. There is nothing missing—not a style of cut, pattern, desirable make or fabric, that the most fastidious dresser longs for, but what is here—consistent with the demands of the season of 1895.

Overcoats \$2.00 up. Suits \$1.50 up. Trousers \$1.00 up.

While we can afford to dwell largely on the values we offer at the above figures, we want to impress upon you the fact that we make a specialty of HIGHER GRADE OVERCOATS and SUITS—ranging from \$10.00 to \$18—equal in every respect to the garments you have to pay \$18.00 and \$25 in every Merchant Tailoring Store in town.

Small Profits.—We're believers in small profits; the more we sell the less need be the profit on a single article. Why? Because the quality of our goods turns out brings the material down to the lowest notch and the cost of running our establishment down to a minimum.

Besides we're making and selling Clothing alongside of a large trade in Fashionable Hats and Caps, Gentlemen's Furnishings, etc.—hence the advantages to be derived in the way of saving money at our new store are positively unobtainable from other mercantile tailors.

NECKWEAR.—See them in our window and make a selection while our range is complete. Ties in any style you wish.

ENGLISH COLLARS AND CUFFS.—A complete range of sizes, heights and patterns in well known brands.

50 dozen celebrated 4-ply English Collars and Cuffs, in all the latest shapes, 20c. each or \$2.25 per dozen. Have you seen the new stand-up turn-down collar? We have it.

UMBRELLAS.—Stock complete, including Austria Gloria and Silk Tops, with Natural Sticks, Nickel and Japanese Steel Rods, stylish handles.

GOUGH, The Wonderful Cheap Man, Belleville.

CRIPPLED BY RHEUMATISM.

PLEASANT AS SYRUP.

Mr. Douglas Ford, Toronto, Ont., states that Milburn's Cod Liver Oil Emulsion with Wild Cherry Dose is free from objectionable taste, being almost as pleasant as syrup.

While for coughs and colds it gives complete satisfaction, acting promptly even in obstinate cases.

CONTRACT FOR IRON.

It seems to be pretty well understood that the Carnegie company has obtained a contract to provide armor for a number of Russian warships. Labor is higher in Russia than in this country, and the freight from the United States to Russia will be a much heavier item than from any of the European countries named. The iron is of special class, it is true, for which the Carnegie works have been adapted, but it is of an advanced type of product and among the costliest of the heavy products of the forge. Its manufacture shows that the United States iron industry has reached the highest standard of achievement. It is a pity that the Carnegie works are not in the way to compete with all rivals.

ORILLIA'S PROMINENT FURNITURE DEALER GIVES FACTS.

Orillia, Feb. 10th, 1894. EDMANSON, BATES & CO. Gentlemen.—About three or four weeks ago I had an order for a new sofa. According to the different remedies recommended by druggists as "the best and only cure," etc., but got no relief. About the time I was beginning to despair of finding any relief, with some slight misgivings I bought a box of your pile cure, which I am pleased to say gave me almost instant relief. I am now as well as I ever was, and I am pleased to say that I can recommend your product to all who suffer from piles. I am, Sir, very respectfully, ALF. J. DEAN.

WHAT A MARBLEHEAD CAT DID.

Some years since a Boston pilot boat went into Marblehead harbor, and one of the pilots going ashore mentioned that his boat was infested with rats; a lady, hearing this remark, said she had a splendid "mouse" she would give him, and he was to be found. The following day, at noon, Stump appeared as usual at his old haunts in Marblehead, and was immediately recognized by his former owner, Boston Transcript.

LADIES OF DESERONTO.

Our assortment of ladies' oxford shoes, in tan color and black, are much superior to any we have ever had. We have taken special care in selecting goods for this department. Call and inspect them when in Napawa or Belleville. Price range from \$6.00 upwards, an extra quality shoe for \$10.00. Haines & Lockett, 4 big stores.

2 NEGLECTS AND THE RESULT.

Neglect cold in the head and you will surely have catarrh. Neglect nasal catarrh and you will surely incur pulmonary troubles. Neglect the stomach with its disgusting attendants, foul breath, hawking, spitting, blowing C. Stop it all by using Dr. Chase

Rape. Millet. Hungarian.

Do not let your fallow lay idle. Sow Rape, and you will have a crop of excellent fodder for Sheep and young Stock. No better soiling crop grown.

CORN.

Fodder for Planting. Full lines still in stock, and anything you want in late Vegetable and Turnip Seeds.

FLOUR.

Our Brands still retain their lead. Always Good and sold at cheap prices. Bran, Shorts and all kinds of ground Feed always in stock.

The Tribune.

FRIDAY, NOVEMBER 1, 1895

DISTRICT ITEMS.

Daniel McMillan, of Chenoa, is dead. Romanville is agitating for a job in market.

Deseronto has more than its share of social amusements.

Six new dwelling houses have been started at Whitney.

Mrs. Jacob Thompson, B. Belleville, died on Oct. 24th, aged 74.

There has been a heavy apple crop in the vicinity of Cobourg.

The store of H. H. Hughes, Hecleston, was burglarized last week.

The late S. G. Emerson, of Tweed, B. longed to the A. O. U. W.

The mills at Fall River, Mass., are injured on account of low water.

J. S. Nelson's store at Stella was injured by fire one day last week.

On one day 1,700 boxes of these were shipped from the Tweed station.

J. C. Gray, Belleville, and Gay Marshall, Troyon, were married on Oct. 21.

Mrs. Dungenfield, the oldest resident of Kempsville, died last week, aged 94.

John McKinnon and Mrs. Ballen, both of Belleville, were married on Oct. 25th.

Rev. Mr. Sager has purchased the property in Yarker known as the Methodist parsonage.

Jas. Bowers, Tweed, has purchased the farm of S. J. Bull on the Old Road settlement.

Sidney McKenna, of Beaverton, planted a single bean and harvested 1419 beans as a return.

Joseph Morgan, son of Edward Morgan, Flint, had his jaw broken from the kick of a horse.

Henry Mathew, Brockville, and Maggie Beaudin, Howe Island, were married on the 21st ult.

Napanee has been in darkness, a leak having occurred in the engine of the electric light works.

Henry Moon, carpenter, living near Thomasburg, has been stricken with paralysis and will not recover.

M. S. Macle's hardware store in Napanee had a narrow escape from fire a tank of gasoline having exploded.

George Shipman, for stealing and killing a steer at Landanville, was sentenced to three years in the penitentiary.

At Stratton W. Scott, Jr., was elected councillor by acclamation to fill the unexpired term of Mr. McGill, deceased.

Dr. Jeff. Quackenbush, and H. C. Pearson, Deseronto, have passed the final examinations of the College of Physicians Surgeons, of Ontario.

A farmer near Oshtawa had sheep killed by dogs. He put poison on a carcass with the result that a large number of canines came to their death.

Mrs. Be, a young woman residing at Port Hope while visiting in this district, caused by a pin left in the garment coming in contact with the organ.

Mrs. Walter S. Shuffelbotham, aged 57, died in Kingston last Saturday. Mr. John S. Smeaton in the same city, last Friday, aged 40; Miss Rose McKenty, 24th, aged 17.

There is a big shortage of these this season over the whole district, caused by the cold dry summer. Shipments have fallen far below what they were in former years.

At Baltimore circuit last week, Amos Campbell could not be paid off \$500 of the debt remaining, and they did so and contributed \$200 over and above the amount required.

Cobourg newspapers complain that the farmers bring too much on their boots when they come to town. After the last court one acre of soil was removed from the court-house building.

Dr. James Schofield came to Canada in 1795 and shortly after his arrival built an iron forge at Furnace Falls, now Lyndhurst, where he manufactured the first iron made in Upper Canada.

An old man aged 92, was buried in Kingston, without burial service by a clergyman, eight having refused to attend because they wished to be present at the unveiling of the monument in the park.

James Moore brought 17 loads of buck wheat, making 340 bushels, in three hours and fifteen minutes, the crop of 11 acres on G. C. Lowe's farm, Athol. Big threshing.

The crop on the 38 acres, under grain on this farm was this year 1100 bushels. A good crop for the year. The failure of the 8 acres in early June lowered the average much. On the same farm 25 tons of hay was cut off 18 acres. A big yield all the way through for a dry season.

PROSTRATED FOR TWO YEARS WITH LIVER COMPLAINT.

RESTORED TO PERFECT HEALTH BY SOUTH AMERICAN NERVE WINE. MR. W. J. HILL, OF BRACKENRIDGE, ONT.

When men and women can be got away from their depressing, with disease there will be less disease in the world. The immediate matter, it is natural, to relieve the present trouble. But how often is it forgotten that any cure that is also a tonic, if we may use the expression, cannot be lasting. It will certainly turn up again.

This is the case with Mr. W. J. Hill, the well known ballist of Brackenridge, Ont. He had suffered from severe liver trouble and nervous prostration for nearly three years. During this time he had tried all the usual remedies, but to no avail. He was occasionally relieved, but the trouble would come back again and after the charm of the cure had been exhausted.

He entered upon the use of South American Nerve Wine, with little hope that it would be any better than the medicine he had taken. But he soon discovered the mistake. Where doctors said he must die, this medicine gave him life. He persevered with it, and today he is in possession of robust health. The secret is this: South American Nerve Wine treats with the nerve centers, from which flows the life blood which keeps the system in perfect health. Where the nerve centers are kept healthy, neither liver complaint nor other trouble will worry one. Mr. Hill's cure was fitting for his case. Any one who uses Nerve Wine will experience same results.

The salvage from the wrecked steamer Africa is held by Joseph Bradley, who demands \$200 for it. Constables from Warton attempted to arrest him, but he barricaded the door to his hut. They then tried to reach his place on a tug, but after trying out for three days, they returned to Warton "for further instructions."

Norway Pine Syrup cures Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, and all the ailments of the throat.

THE LOSS OF

THE ENEMY'S FAVORITE

The Enemy's Favorite Season.

Victims of Rheumatism Taken Off Every Day.

Paine's Celery Compound a Perfect Cure for Rheumatism.

Are you numbered in the vast army of rheumatism? As you are, be warned in time. This is the season most fatal to all who suffer from rheumatism. Already, alarm and consternation is spreading in the ranks of the suffering and disabled. To-day, sunshine cheers you to merriment and succeeding days, cold, damp, chilling and piercing winds may bring you to the verge of despair, from agonies and excruciating pains.

Can you afford to go on bearing agonies that may prove fatal to your health? Can you afford to experiment with useless medicines when you know of Paine's Celery Compound, and the wonders it has done for others? If you do not, you are unwise.

A stout proof is the best thing to pack the butter in, and each churning should be packed firmly into the pot. Dissolve as much salt as possible in water and add this to the butter. Stir the butter to each gallon of brine. Boil this until everything is dissolved. Strain it through a cloth and let it stand for a few hours, then skim off the scum on top and pour off the liquid carefully, leaving the sediment in the bottom of the pail.

Put the butter in a crock, and pour over the butter in the crock. Each time a new quantity of butter is to be packed, pour off the brine and put the butter in a crock, and pour over the butter in the crock. In this way butter can be kept sweet and clean for a long time.

The above system of preserving butter in brine is the best, although we suspect that our dairymen will not subscribe to all the details, including crocks and salt-petre.

Rapid Churning.
The butter-making content of an English show has brought out the fact that speedy churns make a high rate of butter that took prizes. Speaking of one of the spurs churns our English exchange says:

"The former gained six, firsts, six seconds, and three third prizes altogether. The butter-making content of an English show has brought out the fact that speedy churns make a high rate of butter that took prizes. Speaking of one of the spurs churns our English exchange says:

THE BUTTER

PACKING DAIRY BUTTER.

The German Town Telegraph writes in the interest of farmers holding a few cows who, it says, practice packing butter in crocks. It can be held in crocks until the price begins to advance in the fall. Poor butter should not be sold, as it will deteriorate more quickly than good butter. But for a few held should be made from cream kept but a day or two and not held for a week as many do. It should be drawn at three days even for the most skillful butter-makers. Every time that cream is added the old butter should be stirred evenly to prevent its settling in layers.

Below we quote:

First, wash a piece of salt-petre in water and mix this with the first cream put into the pot. Then by stirring up the cream in this time additional cream is put in the salt-petre goes into every part of the cream and helps to preserve it. The stone pot for the cream naturally keeps in a very cool place; in the larder if one keeps ice, or in a cold cellar. The night before churning, take it out and stand in an ordinary warm room. In the morning get the temperature of the cream down to 58 degrees or 60 degrees. If handled in this way the butter will not then require to be so long in the crock. When the butter is in small granules draw off the buttermilk. Wash the butter with clean water and the cold water runs off clear. Work the salt carefully into the butter and let it stand until the next day.

Early in the afternoon of the following day rework the butter with the hands until the salt is thoroughly dissolved and overdone. It is then ready to be put in a little buttermilk left in the butter will be sufficient to taint the whole pot full and eventually spoil it.

A stout proof is the best thing to pack the butter in, and each churning should be packed firmly into the pot. Dissolve as much salt as possible in water and add this to the butter. Stir the butter to each gallon of brine. Boil this until everything is dissolved. Strain it through a cloth and let it stand for a few hours, then skim off the scum on top and pour off the liquid carefully, leaving the sediment in the bottom of the pail.

Put the butter in a crock, and pour over the butter in the crock. Each time a new quantity of butter is to be packed, pour off the brine and put the butter in a crock, and pour over the butter in the crock. In this way butter can be kept sweet and clean for a long time.

The above system of preserving butter in brine is the best, although we suspect that our dairymen will not subscribe to all the details, including crocks and salt-petre.

Rapid Churning.
The butter-making content of an English show has brought out the fact that speedy churns make a high rate of butter that took prizes. Speaking of one of the spurs churns our English exchange says:

"The former gained six, firsts, six seconds, and three third prizes altogether. The butter-making content of an English show has brought out the fact that speedy churns make a high rate of butter that took prizes. Speaking of one of the spurs churns our English exchange says:

The Tribune.

FRIDAY, NOVEMBER 1, 1895.

LOCAL NOTICES.

L. Hopkins, issuer of marriage licenses. All business strictly confidential.

A fine line of envelopes at THE TRIBUNE bookstore at half the ordinary prices.

"Next!"—Satisfaction given to all patrons at E. Hunt's barber shop, Geddis block, near the Empress Hotel.

Visitors to Kingston will note that the Junior Hotel is the headquarters of the stage line. Deseronto, Napanee and Bath visitors will receive special attention.

Mrs. T. S. Hawkins, Chattanooga, Tenn., says, "Shiloh's Vitalizer saved my life. I consider it the best remedy for a debilitated system I ever used." For Dyspepsia, liver and kidney trouble it excels. Price 75 cts. Sold by W. G. Egar.

LOCAL ITEMS.

The bicycle will soon go into winter quarters.

The bay fishermen will be allowed to fish herring gill nets during November.

The winter tariff of freight rates on the different railways goes into force to-day.

The New York Sun estimates the slaughter of deer in the Adirondacks at 300 per day.

Bay fishermen have been making fair hauls of whitefish and herring during the past two weeks.

The Mission Band of the Presbyterian church will hold an entertainment on Friday, Nov. 15th.

The Hero could not make her trip to Kingston on Monday, the sea running too high on the lake. She returned to Pictou.

Mr. & Mrs. James A. Wight have the sympathy of all in the sad bereavement which they sustained this week in the death of their only child.

The careful reader of the local newspaper can save many times its price in the course of a year by carefully reading the advertisements of live business men.

Miss Wilkie, of Nobleton, will teach the private kindergarten school. A house on Maple avenue has been secured for the purpose.

James Macaulay is collector of taxes in Ward 3, Township of Tyndinaga. There are about \$4,500 of taxes to be collected in that ward. He is getting on well as in three days he collected \$500.

P. Slaven & Co. have taken possession of their new premises on St. George street and the shop already presents an attractive appearance. They will be pleased to meet their patrons in the new quarters.

The prices on Belleville market last Saturday were: butter 20 to 22c, eggs 10 to 18c, chickens 35 to 50c pair, ducks 50 to 75c pair, geese 50c, turkeys 75c, onions 90c, pigs, apples 50 to 60c bag, potatoes 40c.

Frank Madill, M. P. for North Ontario, died on Oct. 25th. He represented the constituency in the commons since 1887. There are now three Ontario constituencies vacant, West Huron, Cardwell and North Ontario.

One teacher has been wearing a very black dress since her excursion to Belleville last Friday evening. Another member of the party lost a hat, and one did not reach home at all. Minister Ross should institute an investigation.

Mayor Rathbun left on Monday for London, England, on some important business. He sailed from New York on Wednesday on the S. S. Teutonia. He will be absent five or six weeks. All will unite in wishing him a pleasant voyage.

R. J. Phillips, writing to THE TRIBUNE, states that he saw a turnip two feet and two and three quarters inches in circumference weighing ten and three quarters pounds taken up on the farm of J. Dawson, Harris township, in the Lake Timiskaming country. It shows the great fertility of the soil in that district.

A prominent city doctor strongly protests against the burning of tree leaves and other garbage at this season of the year. He asserts that the practice is the direct cause of bronchitis, coughs and lung maladies.

A far better way of disposing of the refuse would be to have it used as a fertilizer for gardens or fields. Thus the public health would not be menaced, and the soil would be benefited.

Major Rathbun left on Monday for London, England, on some important business. He sailed from New York on Wednesday on the S. S. Teutonia. He will be absent five or six weeks. All will unite in wishing him a pleasant voyage.

It is reported that John Taylor will be appointed postmaster of Belleville.

Local business men are looking forward to an improvement in trade next summer.

J. L. Haycock, leader of the Patrons, shows two carrots grown on his farm weighing 10 pounds 2 ounces.

As our message boy is on the sick list this week, we hope our town subscribers will overlook any errors in delivery and report at this office.

The camp of the American Canoe Association will be held next year at the foot of Grindstone Island, the spot occupied by it six years ago.

Times are hard and money is scarce, hence the necessity of studying more carefully than ever the advertising columns of THE TRIBUNE.

A Lake Shore and Michigan Southern train ran from Chicago to Buffalo at a rate of 63.6 miles per hour, thus beating all previous railway records for fast time.

The total foreign trade of Canada for the nine months ending Sept. 30 was \$154,502,000 and for the corresponding period in 1894 it was \$154,412,000, not much difference between the two periods.

Those Lindsay, the man who was severely burned at the Loom Lake fire is on the road to recovery. The doctors do not think his face will be scarred. His hands and body were very seriously burned.

Dr. A. D. Walker, of Belleville, intends leaving for California for the winter, his health requiring a change of residence. All his friends in the district will unite in hoping that he may find the change beneficial.

The total receipts of the Canadian Pacific and Grand Trunk railways for the nine months ending Sept. 30 amounted to \$25,675,192 as compared with 26,099,632 for the corresponding period in 1894, a decline of \$424,440.

Fred Knight and J. K. Clark wheeled down to Kingston last Saturday and witnessed the great game of football between the teams representing Queen's University and Osgoode Hall. The Queen's men were victorious by a score of 22 to 5.

The teachers of both schools went up to Belleville on the Sixties last Friday evening to hear the Minister of Education give an address on education. They enjoyed the sail and visit to Belleville. The address by the minister was not a very brilliant effort.

The largest moose ever killed in the Moosehead Lake region of Maine in several years was shot last week by an Englishman, who came across the Atlantic solely to hunt, and who is naturally greatly excited over his luck. The antlers had a spread of within a few inches of six feet.

The charivari which occurred last evening was a discredit to the town and its authorities. Such events are frequently attended with tragic results and would not be tolerated in any other town in the province. The most humble citizen is entitled to protection from this or any other annoyance.

About seventy vessels of the largest class of lake craft have been forced to come to anchor in Lake St. Clair, during the past few days, the prevailing winds having caused the water to recede so low that they cannot pass Gros Point Bar. The loss caused by this detention at this time of year cannot be estimated.

The trial of Holmes, the murderer of the Pitzel family and probably some twenty more victims, is now in progress at Philadelphia. The accused manifests the greatest composure. He conducted his own case for a day or two but has again engaged counsel. The people of a whole continent are impatiently awaiting his conviction.

Brussels, Belgium, is to have a ship canal that will bring vessels of 2,000 tons burden to its wharves, and the cost will be only \$1,000,000. One of the modern wonders of engineering, says the St. Louis Globe-Democrat, "is the tremendous machinery used for excavating. It goes through solid rock and earth with almost equal rapidity."

W. C. B. Rathbun has been spending a day in town, having just returned home from California. He looks very hale and hearty, having gained about two or three pounds during his stay in the west. He intends spending a couple of months in Toronto and Deseronto after which he will remove with his family to California where he will make his permanent residence.

It is obvious to any person walking along the streets these days that a great number of children attend no school. Their parents appear to be indifferent and there is evidently no method adopted by the school authorities to carry out the truancy clause of the education act. The community cannot afford to allow any child to grow up in ignorance.

The French government felt itself secure against all combinations as a result of its subjugation of Madagascar. It was, now, over, defeated by an adverse vote in the chamber of deputies because it did not prosecute certain high personages implicated in railway scandals. The love of military glory is on the wane in France, the voters having learned at last that he has to pay dearly, whoever may win.

Rev. G. A. Anderson, M. A., has placed on our desk a copy of a newspaper which he lately received from his nephew, Rev. P. W. Kennedy, who is a missionary of the Church of England in Japan. It is full of interesting Japanese characters and it is therefore impossible to give extracts. We observe that there are cuts of hats, caps, millinery, musical instruments, drugs and medicines, etc., showing that Japanese business, as might be expected by the recent exploits of their countrymen, are widely awake and appreciate the value of printer's ink.

There will be a meeting of the Indian Council next Wednesday.

The Ladies' Literary Club recently resumed their Tuesday meetings.

E. S. Westmorland makes another big shipment of cattle and sheep to-morrow.

Services in the West End Mission next Sunday at the usual hours. All cordially invited.

Collector Gunyon reports payments of taxes up to date to be about the same as at this time last year.

Miss Macdonald, of the Public school, has been suffering again from a sprained ankle. Miss Jean Elliott took charge of her department in her absence.

The steady exodus of Canadians to the United States during the past three months is the best index that there is a marked improvement in trade in the great republic. Canadians who have gone over write to friends to "come on" assuring them of work, and so the movement continues. With improved business in the States, the prospect of better times in Canada naturally brightens.

Newspaper correspondents worked up a war scare in Europe, by stating that Russia and China had entered into a treaty which gave commercial advantages to the former country to the detriment of England. The Russian authorities deny that such a treaty has been negotiated. There appears to be no chance of a war between Great Britain and Russia, the risk is too great. They have to satisfy themselves by pounding small uninvited states.

Masonic.

At the next regular meeting of Craig Lodge, No. 102, A. F. & A. M., which will be held on the last Friday in the month the officers for 1896 will be elected.

A Good Cow.

One of the grade Ayrshire cows on the Rathbun Company's farm has during the past season given 7,450 lbs. of milk testing 47 per cent. butter fat. That is a splendid record.

Church Parade at Lonsdale.

The lodge of Chosen Friends at Lonsdale will attend divine service in the Methodist church in that village, Sunday, Nov. 10th.

Rev. R. Taylor, of Deseronto, will be the preacher on the occasion.

Daughters of Rehoboth.

It is hoped there will be a large attendance at the members of Aberdeen Lodge, No. 30, Daughters of Rehoboth, regular meeting, Friday, 8th inst., as there will be several interesting initiations, and other business.

Police Court.

W. Barney Martin, who assaulted Joseph Marlow last May but has been out of reach ever since was arrested on Wednesday, and appeared before Commissioner McCullough who fined him ten dollars and costs, or twenty days in jail.

Salvation Army.

A special temperance meeting will be held in the barracks on Saturday evening. On Tuesday, Nov. 5th, Adjutant Magee will give a stirring and startling address on the work of the Salvation Army, illustrated by a beautiful magic lantern. Admission only 5 cents. All welcome.

Church Parade.

The members of the local lodge of Orange-emen, "Prestio Boys and Sons of England" will attend divine service in the Methodist church on the evening of Tuesday, 5th inst., at 7:30 o'clock. Rev. R. Taylor, pastor of the church, will conduct the services on the occasion. All are cordially invited to attend.

Night Service Ceases.

The steamer Ella Ross, Capt. Christie, will continue her night service between Deseronto and Pictou. This service has been greatly appreciated by commercial travellers and business men of the district. The trips were made with the regularity of clock work.

Deseronto Branch Bible Society.

The annual meeting of the Deseronto Branch of the Upper Canada Bible Society will be held in Union Hall on the evening of Wednesday, 13th inst., at 7:30 o'clock. Rev. E. A. Tonkin, the agent, will deliver an address and other speakers will also take part. All are cordially invited to attend this important meeting.

The Weather.

The weather has generally been boisterous during the past week, high winds being general. On Friday there was a brisk gale from the west. Saturday hazy. Sunday, almost a day in summer, the mercury registering 65.8 in the shade. Rain set in in the evening. Bursts of snow on Tuesday, the ground being white. Rain set in yesterday afternoon.

Last Evening At The Opera House.

The J. L. Clarke Company, which has engaged the opera house for the week, excelled itself last evening in the presentation of "Our Strategists," an intensely funny comedy, in which Mr. J. L. Clarke took the part of Major Howard and kept his audience in roar of laughter during the entire evening. Miss Ella Cameron as Nellie Howard acquitted herself to perfection, as did George Heath as Jack Rutledge. The company is indeed deserving of a large patronage. —Petersboro Examiner.

District Executive.

A meeting of the Executive committee of the Bay of Quinte District Union of Societies of Christian Endeavor and Epworth Leagues of Christian Endeavor will be held in the lecture room of the Presbyterian church, on the evening of Saturday, Nov. 2nd. The following president: D. A. Shaw, vice-president: Miss Leonard, secretary: J. Matheson, treasurer: J. W. McDermid, Rev. G. McConnell, Miss Suberland, Miss Hopkins, and H. Owen.

There were a great many Halloween parties last night and fifty girls saw their future husbands in the mirror.

Alfred, son of Thomas Agur, died yesterday. The funeral takes place at 2 p. m. to-day at St. Vincent de Paul Cemetery.

At Oswego Mrs. Keller was convicted of murder in the second degree and was sentenced for life to Auburn prison.

Harry W. Woodall has so far recovered from his recent accident that he expects to go to work next Monday. The wound has healed in a remarkably short time.

Mr. & Mrs. J. O. Lowery entertained a large party of friends at the O'Connor house last evening. Dancing was enjoyed and all report having a pleasant time.

The members of the Golden Rule Mission Band of the Wesleyan church have forwarded a handsome quilt to Belleville hospital. Each block contains a number of appropriate verses of Scripture.

Mr. Hyman, superintendent of the Terra Cotta Works, has some intelligent young ladies employed in the new department recently opened. All appear to be very much interested in their work.

Three exciting games of football were played last Saturday between teams of the public and high schools. The public school boys were victorious. The first game was a tie, the second 1 to 0, and the third 3 to 0, in favor of the public school.

J. G. Hampton and J. Allum Jr., left the other day on a hunting trip away back on the line of the K. & N. Railway where game is abundant. The return of two mighty hunters is impatiently awaited by a host of friends to whom they promised up donations of duck, partridge and venison.

Died in Minnesota.

Intelligence was received this week of the death at Brainerd, Minnesota of Joseph Martin, son of John Martin, Lonsdale. Deceased, who was about 40 yrs. of age, had met with a railway accident in the spring by which he lost a foot, he would climb did not heal and an amputation was necessary. This rendered him very weak and no doubt hastened his death, of which full particulars have not come to hand. The remains were interred at Lapere, Mich., last Saturday. Deceased was a brother of Wm. Martin, George, and also of Philip Martin, clerk in the Rathbun Company's lumber operations. He is survived by his wife, but no family.

Cheap Cigars—John Hart, owner St. George and Edmund streets, has seven choice cigars for 25 cents, viz. a bunch of the following varieties: Big Top, Tuberosa, Bouquet, Trilby, Purify, Rob. Burns, Cat, and Marlborough. Give a call.

ST. MARK'S CHURCH NEWS.

"To-day, Friday, is All Saints' Day. There will be service at 7:30, with a sermon on the festival of the unity of Christ's gifts of all ages, countries, and races in Christ and the perfection of that unity in the blessed heaven. It is the heart of the most important of Saints' days, and we hope for a good attendance to-night."

Next Sunday being the first day in the month of November, a Communion service will be celebrated at 11 o'clock service.

We note with pleasure the increased attendance at Sunday school. The rate can do much for the church's work, by endeavoring to make their attendance regular.

The Curate's Bible Class for boys and young men will be held in the future hall on Sunday afternoon.

The other Bible Class continues next on Tuesday evening at eight o'clock, young men and women are welcome.

Mr. Arthur Morrison, who attended the Provincial Convention of the Brotherhood of St. Andrew held in Toronto last week, will report on the meeting of the next meeting of St. Mark's Chapter, next Wednesday evening.

"Hospital Sunday" was observed in St. Mark's church last Sunday, and although the service was not large, yet the service was able to contribute our "mite" to funds of the Kingston General Hospital.

Geo. Ritchie & Co.,

Importers,
BELLEVILLE.

There is a heavy freight business on the Grand Trunk Railway at present.

Furniture for sale—apply at residence of Mrs. Alice Hunt, Mill street.

The steamer Owen Sound, owned by Leslie Bros., of Kingston, is ashore on the Georgian Bay.

The Quinns Club has closed its doors and is numbered in the long list of defunct institutions.

Woodcock and other game birds are reported to be very scarce, on account of the dryness of the season.

Richard Hayes has made many improvements on his house on Thomas street and it now presents a very attractive appearance.

The representatives of the different insurance companies interested were in town the other day and satisfactorily adjusted the losses which Mr. Egar sustained by the late fire.

H. B. Rathbun has rented the new house built by Mr. Pringle on the corner of Bridge and George streets, Belleville, the residence which he has been occupying having been sold.

Large hauls of whitefish have been made during the past week along the bay. There were many on the market yesterday, the price ranging from one dollar to two dollars per hundred.

Rev. G. A. Anderson received by the last mail a photograph of a group in which were his sister, also Rev. F. W. Kennedy and his wife and child, together with two Japanese catechists and two native servants, etc.

Rev. Wm. Briden, for forty years a Methodist clergyman and chiefly located at Central Ontario points, died at Kingston last Saturday, aged 68. He was superannuated by the Montreal conference last year.

The young people of the Mission Band will have a fine assortment of home made candy for sale at their entertainment in Union Hall, on the evening of Friday, 14th inst. They promise a very good programme and invite a liberal patronage.

George Smith, an Englishman, was arrested at Belleville on Tuesday on a charge of forging a cheque on the Bank of Montreal.

He had registered himself at the Hotel Quinns as W. H. Smythe, of Deseronto, in order to secure a reputation for respectability.

T. Butler states that work is progressing very favorably in the lumber operations of the Rathbun Company. He has now two hundred and thirty men at work in the shanties on the Moira River division. The men are principally from the surrounding district of country.

At Belleville market last Saturday morning, the following prices obtained:—

Butter 15 to 20c, chickens 35 to 50c per pair; eggs 15 to 18c, ducks 50 to 70c per pair; geese 50 to 60c, turkeys 50 to 75c, best 30 to 40c, lamb 5 to 6c, apples 40 to 50c bag, potatoes 35 to 40c bag.

War has been declared between the *World* and *Mail and Empire* newspapers of Toronto. The latter paper is now selling at one cent per day in Toronto, the object being to drive out the *World* if possible. It will be a bitter struggle, but the *World* will not be crushed out of existence.

J. G. Hampton and I. Allum greatly enjoyed their hunting expedition out at Lavant on the K. & P. Ry. They bagged something less than a carload of game. Both were struck with the mountainous character of the country and the colossal appetites created by the bracing air of that region.

About fifty people have stopped up to inquire when that long promised lamp will be erected on the corner of Dundas and Prince streets. It is a very dark corner and it is a miracle that horses have not been broken by falls from the boardwalk. Wake up, gentlemen of the street, market and gas committee.

E. S. Westmoreland went down to Montreal last Saturday with twenty-nine head of fat cattle. Yesterday he loaded a large car with sheep purchased in this district, and he is in Montreal to-day playing them on the Beaver Line boat for shipment to Bristol, England. He had strong inducements held out by Montreal shippers to take charge of a large cargo of cattle and sheep to Bristol.

Thos. W. Gaylord, accompanied by his aunt Mrs. George Beach, of New York City, has been visiting his mother and other relatives in town during the past week.

Mr. Gaylord, who is a graduate of the Deseronto high school, has now an excellent position as classical teacher in a large private school in New York City. He is well pleased with the great metropolis and intends to make it his home. He will probably take a course in medicine in one of the colleges of that city.

A couple of ingenious swindlers are doing the western towns. They do not travel together but divide each day's proceeds. Both are well dressed and young. Going to a house they produce a pair of spectacles having no case, and say they found the eyeglasses in some other city, and will sell for \$1.50. The frames appear to be gold, and some fine work is shown on them. Victims come easily, sales generally being made at 75c.

The spectacles turn out to be worthless after a short time, and are purchased by the swindlers at \$2.50 a dozen.

Rev. G. A. Anderson told us on Tuesday that the Fifth of November, forty-four years ago, was just such a beautiful day as last Tuesday. He remembers having driven out on that day to Lonsdale where he preached to a large congregation of assembled Orangemen. On the 14th of November winter set in with a big snow storm. Mr. Anderson drove down to Kingston to meet a friend who was coming down from Toronto on the boat. He had hard work to get his buggy through the drifts on the return trip. There was no break in the weather until the arrival of the January thaw.

The S. S. Teutonic, by which Mayor Rathbun sailed, arrived in England on Tuesday.

Wm. Stoddard was in Napane on Monday attending the funeral of the late W. S. Dosses.

James A. Wilson, who was laid up with a relapse of remittent fever, is able to be about again.

F. S. Rathbun's conservatory will be open to any visitors who wish to see the fine exhibit of chrysantheums.

The Hero ran aground near Telegraph Island during the very dense fog which prevailed on Tuesday morning.

Two large parties drove out to Newburgh on Napane respectively on Tuesday evening. All report a pleasant time.

The railway transfer barge Otis's has been busy carrying apples to Deseronto for shipment over the Bay of Quinte Railway.

Very Rev. Dean Smith and Mrs. Smith, of Kingston, were guests of Rural Dean Stanton and Mrs. Stanton on Tuesday.

A recent mail brought to Ottawa \$7,000 of customs duties paid in the Yukon district. Of this amount \$2,000 was in gold dust.

The boilers in the office of the *Journal*, Detroit, Mich., exploded on Tuesday morning and it is supposed that fifty people were killed.

The jewellers for jewellery houses consider Mr. Snider's shop as one of the best appointed and most attractive of the kind in Eastern Ontario.

The Independent Oddfellows are busy preparing for the dedication of their new hall. The event will probably take place after New Year's.

Rev. W. S. McTavish, B. D., will be one of the speakers at the conference to be held in connection with the next regular meeting of Kingston Presbytery which will be held at Belleville, Dec. 17th.

The authorities regret that the public have missed the new hydrant at the corner of Edmund and Centre streets. The repairs have cost a large sum and people in the locality have also been annoyed.

Godfrey Colp will probably at an early day remodel the building between his brick block and Slater's store. It is a splendid business stand and three or four more shops would rapidly find occupants.

Mrs. Hare, widow of the late Daniel Hare, passed away on Sunday. The funeral, which was under the direction of Mr. Dart, took place on Tuesday, the remains being removed to Cherry Valley for interment.

The weather during the past week has been superb. Indian summer has been here in earnest. The mercury has been in the fifties every day since Sunday and yesterday it climbed to 63.2, a summer temperature.

The flies are again showing up, and yesterday they were swarming, wasps buzzing, hornets promiscuous as in July.

On Saturday John Loe's horse made a wild runaway along Main street. One wheel dropped off the vehicle opposite Central Park, and with the rest of the vehicle the animal careered along Main street, breaking some glass on the lamp post opposite the Deseronto house, and taking the bark of some shade trees. The horse was caught, nothing the worse for his hilarious flight.

Chas. Adams, of Flint, treasurer of the Lindsay family of Flint, in acknowledging the receipt of \$2.25 from the Methodist congregation of Emory Hill, thanks the friends who so generously contributed that amount.

He further states that Mr. Lindsay returned from the Kingston hospital last Monday. His face is almost well but his hands will be useless this winter and, it is feared, for life. However, they hope for the best.

On Wednesday, Wm. Martin, Green street, received a telegram from his son Richard, Mering, Ill., conveying the intelligence of the death of his son Sidney. Up to the time of going to press no further particulars had been received. Deceased was twenty-five years of age, was well loved and popular young man, and has been of late cook on one of the Upper lake steamers. He left Deseronto four years ago last July. The remains will be interred at Meringo. The family have the sympathy of all in this bereavement.

Max O'Rell's "A Cat's Paw" was presented at the Grand Opera House last night. The comedy deals with the adventures of a retired American glue merchant, in Europe, and is an adaptation of "Le Voyage de la Perichon." The dialog is breezy, and after the first act, which is rather slow, the action is light and quick. The interest is cumulative, and sustained to the end of the piece, which is in three acts. Max O'Rell's genius is wholly that of a broad artist. His hit on the types he has written in "Jonathan and his Continent" are clever, and in Mr. Samuel Edwards, the comedian who plays the role of the glue merchant, who spells sea "see," he has an able and untutored interpreter, —Toronto *World*.

English newspapers complain of the absence which prevails in adopting new methods of transit, lighting, etc., in the cities of Great Britain. There are said to be more telephones in New York City than in the whole of Great Britain. Little towns in America and the continent of Europe are ablaze with electric light while great parts of London are still in the gloom of gas lamps.

People in the cities of the continent of Europe and America are carried rapidly in roamy street cars driven by electricity, while citizens of London, Glasgow, etc., move along in tram cars of ancient date. The opening of five miles of electric railway in Bristol was hailed as a wonderful feat while in America there are 9,000 miles of such railways. Now that the English press has taken the subject, municipalities will wake up and new methods of travel be adopted.

Entertainment.

The Mission Band of the Presbyterian Church will give an entertainment in Union Hall next Friday evening, 15th inst. The programme will be very attractive. Admission 10 cents.

Quick Trip.

Capt. Daly made a quick trip with the steamer Nile. He left Deseronto with a load of lumber on Friday and reaching Montreal discharged his cargo, reloaded with lumber and was back again in Deseronto on the following Friday.

Casualties.

Last Friday Andrew Post had a large slice cut off his forefinger, necessitating the services of Dr. Vandervoort. E. Cuts had two fingers crushed by the fall of a stick of wood. Dr. Vandervoort attended to his injuries.

Bible Society.

The annual meeting of the Deseronto Branch of the Upper Canada Bible Society will be held in Union Hall at 7.30 o'clock on the evening of Wednesday, 13th inst. Rev. E. A. Tuckwell will deliver an address and other clergymen will also speak on the work of the society. A large attendance is requested. A collection will be taken.

A Great Record.

The Ayrshire cow No. 21, of the Rathbun Company's farm, gave 9,160 lbs. of milk in the period beginning with Nov. 17th, 1894, and ending with Oct. 26th, 1895, both dates included. This is a magnificent record.

Visitors to the farm are always struck with the appearance of this fine animal. J. J. Keator, the superintendent of the farm, is justly proud of this fine record.

"At Home".

On account of the unavoidable absence of several of its members, the Citizens' Band have postponed their "at home" to the evening of Tuesday, 19th inst. The event will be patronized by the citizens generally, as the programme will be composed of selections of high class music. The band have practised faithfully so as to give satisfaction. During an intermission cake and coffee will be served.

Trinity Church, Shannville.

Trinity Church, Shannville, which has been closed the last two or three Sundays for repairs and a general cleaning up, will be re-opened bright and cheery, on Sunday, Nov. 17th. When Rev. Canon Burke will preach. The funds at the disposal of the committee were limited but a marked improvement has been made under the superintendence of the worthy Rector who is very clever in church ornamentation.

Visitors From Toronto.

Prof. Wright, of the School of Practical Science, Toronto, with a number of the students of that institution, will pay a visit to the Terra Cotta and Cement works of the Rathbun Company this week. They will visit the cement works at Napane Mills to-day and the terra cotta works to-morrow.

The reputation of both these works is now wide-spread and scientific visitors are daily arriving to view the process of manufacture, etc.

Going to Belleville.

Dr. Yeomans has purchased the practice and residence of Dr. A. D. Walker, of Belleville, who accounts of Mr. Walker, is compelled to remove to San Diego, California. Dr. Yeomans leaves in the course of a day or two for Belleville. Dr. Walker, it will be remembered, succeeded Dr. Wilson, one of the most eminent medical practitioners in this district. Dr. Yeomans has, during his six years' stay in Deseronto, worked up a large practice and we have no doubt of his success in the wider sphere in which he will now be called upon to practice his profession.

Another Record Broken.

One would have thought on Wednesday that a bar room had been opened behind the place of justice north of the saw factory on Mill street. Indians in large numbers could be seen in groups slipping into the convenient little nook and the gurgling sound of disappearing firewater could be heard by the passers by. Bottles were emptied in quick order. Many assure us that Wednesday was probably a record breaking day in the consumption of firewater by the warriors of the reserve. No arrests. The constable for the reserve will draw his salary all the same.

Thanksgiving Day.

The 21st of Nov. 21st, is Thanksgiving Day. This day is now more observed in Canada than in former years, and, as is the case in the United States, it will soon rank as the great holiday of the year. It will, no doubt, be joyfully observed in Deseronto, by the closing of the shops, offices and other places of business. Shops can remain open on Wednesday evening so that all purchases may be made on the previous day. The 21st is the date of the meeting of the town Council, but that patriotic body will probably postpone its meeting until the Thursday following.

A Military Visitor.

Capt. Blair, of the famous Border regiment which played such a conspicuous part in the recent Chitral campaign, is at present the guest of Mr. & Mrs. E. Walter Rathbun at Bay View Ranch, Deseronto, the gallant officer being a brother of Mrs. Rathbun.

Capt. Blair, whose battalion is now stationed at York, England, has seen active service, having distinguished himself in the late Boer campaign. He has, since his arrival in Deseronto, received a cablegram informing him that he had passed very well on the list of candidates in the recent examinations for the staff college, the most difficult of army examinations. His success in this respect fits him for all high class military appointments. There were 175 candidates and only ten vacancies. While in Quebec, where he spent a few weeks visiting friends, he went out on a hunting expedition and succeeded in shooting two fine caribou deer.

PERSONALS.

Mrs. Ormbyhask attended the L. O. P. convention in Kingston last week.

Alex. Presar is now an assistant in Hawley's barber shop in Hawley.

Duncan Fraser and family have moved from Arden to Deseronto.

Mrs. Melmond, of Pictou, attended the district convention of Epworth League and Christian Endeavor societies and spent Sunday in town.

T. J. Naylor and Geo. W. Ross were registered at Hotel Quinns, Belleville, on Monday.

John Pringle, of Pringle's Cove, was in town on Tuesday.

Jas. English, of Melrose, formerly of the Deseronto high school, has a lucrative position in a commercial house in New York City.

Mrs. Alice Gault, of Napane, has been visiting friends in town this week.

Mrs. T. Delaney, of Watertown, is the guest of Mrs. Alice Wilson, Dundas street.

Guest Mrs. Thomas Lavigne has been visiting friends in Camden East during the past week.

Rev. Canon Burke, of Belleville, was the guest of Rural Dean Stanton on Monday.

Michael Burns has entered upon duties in the ledger department of the general offices.

Mrs. James Fairbairn has returned home from a pleasant visit to friends in Camden East.

Mrs. Clarkson, of Toronto, is the guest of Mrs. W. W. Rathbun.

Mrs. Wm. Nettleton and her sister, Miss Redmond, of Pictou, spent Sunday in town, the guests of Mrs. Wm. Saunders, Thomas Street.

Capt. Vandervoort, of Toronto, is the guest of his son, Dr. Vandervoort.

The Misses Davis spent Thursday in Belleville.

Thomas N. Carter, of Trenton, has been seen only ill. His brother George and sisters, Mrs. McMaster and Mrs. Woodcock, were up to see him. Late reports state that he is somewhat better.

John Johnston, Inspector of Schools, was in town on Wednesday.

D. A. Cole has returned home from Toronto.

Teja match race for \$500 at Sanguis, Mass., on Tuesday, between Lady Watson, owned by Wm. McNeil, of Toronto, formerly of Deseronto, and a بنتon M., Lady Watson took the 1st heat in 2:13, the second heat being won by بنتon J. in 2:12. The race was to be finished yesterday.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by W. G. Egar.

Church Parade.

The members of the lodges of the Orange order, Presbytery Boys and Sons of England, headed by the Citizens' Band, marched in procession to the Methodist Church last Tuesday evening. There were nearly sixty men in line. Rev. R. Taylor conducted the service, preaching an able and appropriate sermon.

A ploughing match took place yesterday at the farm of James McAuley, near Lonsdale, a large number of farmers from the surrounding district being present. Henry Kimmery, of Lonsdale, took first prize; Daniel Murphy, of Lonsdale, 2nd; James McAuliffe, 3rd, and James McAuley, 4th. Judges—Thomas Doyle, Frank Welsh and W. R. Penny.

Don't forget that Max O'Rell and his clever company appear here on Wednesday evening, Nov. 13th, in the funny comedy "A Cat's Paw." Look at the Toronto papers and you will find that all this for nothing. Grand Opera house all this for nothing. Shake hands with Manager Naylor when you meet him as he has an attraction that is without doubt the best ever here.

Presentation.

While the banquet was in progress last evening Mesdames M. Marrigan, John McFaul, E. J. Mallen, and Miss Tait, waited on Mrs. Yeomans, and on behalf of several ladies of all classes and creeds, presented her with an elegant silver pitcher and goblet, accompanying the gift with a neat speech expressing the pleasure all felt in giving this expression of regard. Mrs. Yeomans expressed her gratitude for such an unexpected present. The silverware was purchased from G. E. Snider and was greatly admired.

MISS CAMERON AT THE OPERA HOUSE.

The week's engagement of this refined company is one that will not be forgotten by the friends of the dramatic art in Deseronto, and the appreciation of their merit is apprehended by increased audiences nightly. On Monday night was presented "The States of New York" which, it is difficult to say, made the necessary impression as we notice the same smiling faces night after night. On Tuesday night "Eagle Nest" which drew such a large number of people as to make Monday night. Wednesday night "Our Strategists" held the boards, and it is necessary to say that Mrs. Cameron is a most successful actress, and as an emotional actress she has no equal. Her performance as a man which secures for her the title of "the people's favorite" while her support, Mr. J. G. Clark, is all that can be wished for, as he keeps his audience in a state of applause throughout the different roles, and it would be partially to single out any other member of the company as all deserving of praise, but we cannot but record the imperfections by Geo. Heath (Jack Rutledge) of "Major Howard" and "Mr. Rutledge" being so complete as at times to bother the audience to realize which was which. Miss Cameron was pleased to see the male contingent of the local office there on Monday. "Our Strategists" will be presented at the matinee on Saturday afternoon. Those who have not seen this comedy will do well to attend on the above date.

Norway Pine Syrup Coughs, Colds, Hoarseness, Sore Throat, Asthma, Bronchitis.

Sold by all dealers and sent postpaid at 50 cents a box, or 6 boxes for \$2.50. By addressing the Dr. Williams' Medicine Co., Brockville, Ont. or Schenectady, N.Y. See that the registered trademark is on all packages—Charlotte town, Ontario.

H. FOWELL, Belleville.

P.S.—Two buggies and 1 grain second hand, cheap. Wood, hay, oats and other grain taken in exchange. A Type writer for sale, price \$45.

CONSUMPTION CONQUERED.

A. F. E. ISLAND LADY RESTORED TO HEALTH.

ATTACKED WITH A HACKING COUGH, LOSS OF APPETITE AND GENERAL WEAKNESS OF LUNGS. THE PINK PILLS RESTORED HER HEALTH AFTER SEVERAL YEARS.

Times without number have we read of the wonderful cures effected by Dr. Williams' Pink Pills, but generally the testimonials telling the tale have been in some of the other provinces. This time, however, the tale is brought directly home, and the testimony comes from a most respected and well known person. Mrs. Sarah Strickland, now residing in the suburbs of Charlotte town, has been married many years, and blessed with a large family and although never enjoying a robust constitution had, until a year ago, been in comparatively good health. About that time she began to feel "run down," her blood became thin and a general feeling of lassitude took possession of her. At first she attributed this to the development of her illness, and when a cough constant, especially at night—doctors were summoned and everything that loving tender care and medical skill could do was resorted to in order to save the affectionate wife and mother, whose days appeared to be numbered. Her appetite was almost gone, and Mrs. Strickland was unable to do even the ordinary lighter work of the household. She became greatly emaciated and in order to keep her strength up she resorted to stimulants. Then the most delicate nourishment a stimulant had at first to be administered. While this gloom hung over her mind and the mother sorrowfully thought of how soon she would have to say farewell to her family, she was induced by a friend to try Dr. Williams' Pink Pills. Through the use of these pills, and almost against all expectation, she yielded more and more to a friendly way than a hopeful spirit. After taking the pills for a short time a gleam of hope, a wish to try the pills took possession of her and the treatment was cheerfully continued. It was no false feeling but a genuine effort to make a new start. A few days before making a new start she and her family were joking their mother on her flight, her disappearing cough and the fact that she was no longer a patient. The use of the Pink Pills was continued for some time longer and now Mrs. Strickland's elastic step to us imagine that you were gaining upon a different woman, not the one who had been snatched from the very jaws of death. She was never in better health, and she is now no matter what other ailments she has, she believes that Pink Pills saved her life and restored her to her wanted health and strength.

Dr. Williams' Pink Pills are an unfailing cure for all troubles resulting from poverty of the blood or shattered nerves, or when given a fair trial they never fail in cases like that above related. Sold by all dealers and sent postpaid at 50 cents a box, or 6 boxes for \$2.50. By addressing the Dr. Williams' Medicine Co., Brockville, Ont. or Schenectady, N.Y. See that the registered trademark is on all packages—Charlotte town, Ontario.

LUNGS CLOSED UP.

GENTS.—In the early part of the winter I caught a bad cold, followed by a severe cough. I could not sleep as my lungs seemed closed up. I could walk only a few yards without stopping to get my breath. I sent for Milburn's Cod Liver Oil Emulsion, and before I had finished the third bottle the cough was gone—I could breathe freely and felt like a new man. I advise all sufferers from coughs, colds or asthma, to give Milburn's Cod Liver Oil Emulsion a trial.

CHURCH OF THE REDEEMER.

Rev. W. S. McTavish, B.D., preached a very large congregation last Sunday. There were several additions to the pastor's Bible class, which is held in the lecture room of the church. All are welcome. There was a large attendance of teachers and scholars at the Sunday school. At the close of the proceedings Rev. W. S. McTavish gave a brief but interesting account of the Provincial Sabbath school Convention. The Y. P. S. C. Endeavor meeting was well attended. Messrs. Shaw and Owen, of Kingston, were welcome visitors. The pastor addressed a missionary meeting in the Presbyterian Church, Gananoque, on Wednesday evening. Services next Sunday at the usual hours. Strangers cordially welcomed.

Spider Farming.

A singular French industry has been imported into this country. A few miles outside of Philadelphia, a Frenchman has established a spider farm, where the insects are bred and furnished at so much per 100 for distribution in the wine vats of merchants, and the cellars of private consumers who set at much store by the external evidences of age borne by the bottle as the date of vintage. A batch of these spiders is a fine investment for the wholesale merchant who has newly stocked his cellar. In three months the new, shining, freshly-labeled bottles are so veiled with filmy cobwebs that the appearance of twenty years' storage is gained and the effect on the customer is impressive. It would be very easy to cover the bins with dust, but it would give no such conclusive results as the rare device of dressing the bottles with naturally spun cobwebs, that drape the necks like delicate lace. When the proprietor of the farm has an order from a wine merchant, he places the spiders in small paper boxes, one pair in each box, and ships them in crates, with plenty of holes for the ingress of air. The price asked, \$10 a hundred, is satisfactory to both buyer and seller. The farmer is paid well for his product, and the wine merchant, at an expenditure of \$10 or \$20, may add a thousand or more dollars to the price at which he would have sold his stock of wine had it not been covered with its lacelike drapery. It is not all kinds of spiders that weave the particular web most desired. The pattern should be large and circular, and this is only given by two special varieties of spiders. The stock of the farm comprises 10,000 spiders, old and young, the eggs of some of which, the choicest, are obtained from France. The mother spiders, in laying her eggs, makes a small web in a broad circle, and lays about fifty eggs, which she covers with a soft silk. In two weeks or longer (in winter) the eggs begin to hatch, an operation which takes one or two days. The egg shells crack off in flakes, and the young spiders have to fight their way out. Although they begin to grow at once, it is a week before they look like spiders. They often moult, and shed their skin like snakes. The brood have to be separated, or they would devour each other, until but one was left.

ENTERTAINING ROYALTY.

How the Prince of Wales broke a Long-standing Custom.

Many people are not aware what a business entertaining royalty is, how they are hedged off by a hundred little observances from ordinary mortals and treated as if they were of a different order of beings entirely. If anyone, for instance, is honored by being allowed to entertain a prince and princess at dinner, all the other guests invited to meet them are royal highnesses asked for a quarter of an hour before the meal, so that there may be no chance of the illustrious guests being late.

One very curious rule is that at dinner none but the royal guests must have finger glasses put before them. The origin of this rather uncomfortable restriction is interesting. At a time when Jacobites were more common than they are now, and when the chances of a rising in favor of the Stuart pretenders to the throne were not altogether remote, certain high-born rebels were invited to drink to the king, holding their glasses over the water in the finger glasses. And so, while apparently drinking with an ordinary match, they were really drinking to "the king over the water."

When the ladies have left the dining-room a cigarette at the dinner table is an invariable custom. The prince, who may be a non-smoker, must not be asked to light his cigarette with an ordinary match, but has a little spirit lighter handed him for his sole use.

Upon one occasion, when the Prince of Wales was dining in the Hall of Trinity College, Cambridge, in which this consideration is a sort of sacrilege to the students, the prince, who was a non-smoker, was asked to light his cigarette with an ordinary match, but has a little spirit lighter handed him for his sole use.

But nature prevailed, and his royal highness, after a long case and lit up, an example which was gratefully followed by many of the other guests. And so, probably for the first time since it was built by its royal ancestor, Henry VIII, the noble old hall was filled with tobacco smoke.

Perils of Thought.

A German author is said to have made a collection of mixed metaphors, which he calls "Perils of Thought." Some of them are worth quoting, if only as a warning to high flown orators not to allow their eloquence to fly away with them altogether.

"We will," cried an inspired democrat, "burn all our ships, and with every sail unfurled, sail boldly out into the ocean of freedom!"

Even that flight is surpassed by an effort of Justice Minister Hryn, who, in 1848, in a speech to the Vienna assembly, expressly declared, "The charter of the revolution is rolling along and crashing its teeth."

A Pan-Germanist mayor of a Rhineland corporation rose still higher in an address to the Emperor. He said, "No Austria, no Prussia, no only Germany, we have the world's month of your imperial majesty has always had in its eye." We have heard of the month having an eye, but never before of the month's eye.

But there are even literary men who cannot open their mouths "without putting their foot in it." Fred Johannes Schlegel is an example of such. In a criticism on Lenan's lyrics he writes, "Out of the dark regions of philosophical problems the poet suddenly swarms of songs die up, carrying far-flashing pearls of thought in their beaks."

Songs and books are certainly related to one another, but never seen in that incongruous connection before. A German preacher, speaking of a repentant girl, said, "She knelt in the temple of interior and prayed fervently—a feat no India rubber doll could imitate."

The German (alliteration) century of the present century made many curious metaphors; but one must suffice. Count Zerkenberg is the author of it. A few years ago he pointed out to his countrymen the "Perils of Thought." "Leading the stream of time by the forelock."

None of these pearls of thought and expression surpasses the speech of the immortal Joseph Pruthi on the occasion of his visit to the National Guard of France. "Gentlemen," said he, "this sword is the brightest day of my life."

Consider the Thumb.

A certain class of philosophers asserts that character may be determined by the thumb's shape. A vain person is said to fold the thumb under, if it is too long for beauty. A grasping person has a long thumb that turns backward like a hook. A good-natured person has a short thumb. The artist's hand is a long, delicate one, and the thumb is in keeping. An artisan's is short, thick and stumpy, usually with broken nails, so that to some extent the thumb is an index to the character. At present it is the only one of the fingers except from ring wearing except by eccentric actors, but for many centuries it was decorated in this manner. Kings were especially given to wearing "thumb rings," and they were in use at the time of Henry IV., both for ornament and as a "sign manual." The setting was usually a jewel cut in some distinctive design, like a family crest, from which is derived the word "seal ring."

There is an old superstition concerning a woman's thumb. If in closing the hand the thumb folds out of the fingers she will rule her husband. If under, she will be ruled by him. It is hinted that the majority of them fold out.

In grasping the thumb is opposed to four fingers and exerts just four times as much strength. If you doubt it, try to hang to a turning post without using the thumb. At an examination of the muscles will show that they are the largest and strongest in the hand. Injury to a member sets at rest any attempt to its sovereignty over the other fingers. Tie it up in a rag and you will be convinced.

Let the Woman Oracle Speak.

She has now reached a point where there is no parting of the ways, and the world is very much like to know which she intends to take. The atmosphere of the women's clubs is now so unimpassioned, and consequently many of us feel inclined to murmur with the poet, "It is clever, but we don't know what it means." Unrestrained nervous activity easily becomes social affectation or tomfoolery. In the absence of a controlling aim or purpose, the exhaustless vitality of the individual, culture or freedom, may not land one in an insane asylum, but it is about as valuable as a society, as an educating force, as the revolutions of the hands of a frozen when the clock is off, an valuable to the production of less than even "The Case of Woman," by Robert Grant, in the October Scribner's.

DEATHS.

MARTIN—At 500 Heron St., Toronto, on Sunday, Nov. 2nd, the wife of C. A. Martin, of a daughter.

PERCY—At Deseronto, on Wednesday, Nov. 6th, the wife of W. D. Percy, of a daughter.

HUFF—At Deseronto, on the 3rd inst., the wife of W. J. Huff, of a daughter.

MARRIAGES.

SMART—LAWREN—At Christ Church, Tyndal, on Thursday, Nov. 7th, 1895, by Rev. G. A. Anderson, M. A., Peter Smart to Margaret, third daughter of William Lawson, all of the Reserve.

GERDING—At Deseronto, on Oct. 24th, 1895, by Rev. David Mills, Jr., pastor of Grace Presbyterian church, William Geddies, of Rochester, N. Y., and Miss Rena M. Robinson, of Perth, Ont. DISTRICT ITEMS.

Cows still roam the streets of Kingston. Van Moore, of North Elmley, is dead, aged 79.

Patrick Milroy has left Tweed for Brockville. E. Beupre is tax collector of Portsmouth this year.

A canvas factory will be erected forthwith in Perth. Dugald Sinclair, Jr., of Scotch Crocers, died on Oct. 29.

A petrifid potato was found in a horse's stall at Keokuk. Carl Fraleigh, of Wellington, died very suddenly on Oct. 19.

Fred J. Robin, of Pictou, getting out of a buggy, broke his left leg. Wm. Martin has purchased the Ingram farm in South Varsityburg.

There is a great rush of business at the Newburgh carriage factory. Cops Vincent water bands were sold at a premium which realized \$265.

Ottawa may vote \$10,000 to improve the exhibition grounds in that city. Helen Estimer, Gananoque, will take a course in a New York hospital.

Peter Richardson, Gananoque, is recovering from an attack of paralysis. Robert Young, of Trenton, has won a \$70 scholarship at Queen's College.

Josh. Currie and Miss Vanbuskirk, of Tweed, were married at Kingston. Albert Geru has sold out his business at Sydney and moved to Hawkesbury.

Wall street Methodist church, Kingston, will be remodelled at a cost of \$20,000. R. L. Way, Bloomfield, has an apple of the Ox variety which weighs 22 ounces.

John Stevens, a well known veterinary surgeon at Oxford Mills, died on Oct. 31. Chas. Perrot, who left Napanee, has secured a lucrative position at Rochester.

Clarence Malkins, Ottawa, and Bertha Moles, Arnprior, were married on Oct. 30. J. S. Anable and family, of Carleton Place, have removed to Vancouver, B. C.

Capt. Wycoff, Pictou, has accepted a situation in a military college in New York. Edward Quinn and Jennie Cotte were married at Belleville on Tuesday morning.

The new Gananoque hotel company has been formed with a capital stock of \$100,000. John Kelly, Hungerford, and Minnie Rashotte, of Tweed, were married last week.

Smith's Falls will be entitled to a third representative in the county council next year. The Presbyterian church at Kara having been thoroughly renovated will be reopened next Sunday.

Mrs. J. H. Allan, Pictou, has chrysanthemums that contain 1,416 buds and blossoms—just one year's growth. Orin Williams, of Bloomfield, who sustained such frightful injuries by a threshing machine accident, is steadily recovering.

Mrs. Andrew Foley, of Bedford Mills, was probably fatally injured, her clothing having caught fire while she was filling a lighted lamp.

John Vazco who on his way to Loos has with hay fire in lumber camp, fell on a stake which pierced his leg right through above the knee.

Alex Wilson and Bessie Johnson, of Pictou, were nearly drowned in Hay Bay, their craft having capsized. They were in the water an hour.

Bertie E. Thorn, formerly of Prince Edward, daughter of the late Wm. E. Thorn, was married Oct. 16th to Spencer Stickle, of Michigan.

John Miller, aged 69, of Lanark, while burning brush was seized with a paralytic fit, and when found was so badly burned that he died next day.

The prizes won at the athletic sports were presented to the pupils of Napanee high school last Monday evening in the presence of a large number of citizens.

Diphtheria has again broken out in Bancroft and Hermon, North Hastings, and schools have been closed. Dr. T. Bowman, of Napanee, is in charge of the patients.

Sarah Vanbancroft, Pictou, has a postage stamp of the French republic bearing date 1895, which was placed on a letter from Napoleon Bonaparte to a gentleman in Boston.

The people of Port Mifflin mourn for the old and days when plenty of vessels could be seen in South Bay. Now a vessel is a great curiosity and the customs officer has moved two miles from the port.

The citizens of Brockville presented Thos. Southworth, clerk of forestry, with an address and a handsome gold watch, fob and chain for himself and a pair of pretty opera glasses for Mrs. Southworth.

An amusing incident occurred in Brockville. A young gentleman attempted to go home with his best girl, but the family dog was along and would not allow it. The more he tried to make friends with the irate canine the more enraged it became and asserted its guardianship to such an extent that it compelled the poor fellow to retire in dismay.

Charles Wright, of South Fredericksburg, who fell from an apple tree about two weeks ago and was rendered unconscious, is now an inmate of the general hospital, Kingston, and in a dangerous condition. The skull was fractured. On Sunday he underwent a trepanning operation. He still remains in a semi-conscious condition, though this morning there was some slight improvement. Mr. Wright is about thirty eight years of age and popularly regarded in Prince Edward county.

BANQUET TO DR. YEOMANS.

The Banquet tendered to H. A. Yeomans, M. D., by the Reform Association of Deseronto came off last evening and proved a most successful and enjoyable event. The committee had made elaborate arrangements and everything passed off in a manner creditable to all concerned. The O'Connor House was the scene of the evening's festivities. After an hour or two passed in pleasant conversation and fraternal socializing, the guests were adjourned to the spacious dining-room. About forty gentlemen sat down to the feast which included a most excellent dinner. The guests, John Dalton, President of the Deseronto Reform Association, occupied the chair with Dr. Yeomans, the guest of honor, on his right and Wm. Stoddart, President of the East Hastings Association, on his left. The vice-presidents were filled by A. S. Vallan and L. W. Hopkins, vice-president and secretary respectively of the Deseronto Association. The dainty dinner was for an hour the subject of discussion and consideration. At last it was laid aside and the chairman proceeded to propose some of the toasts.

The loyal toasts of "Our Guests" and "Governor-General" having been proposed were drunk, the company singing "God Save the Queen" with much fervor. "Our Guest" was most enthusiastically received, the chairman in a brief speech having first voiced the general regret which all felt at Dr. Yeomans' recent departure from Deseronto. W. D. McEae also spoke in the same strain. Although there was much characteristic humor in his address, there was also a genuine expression of sorrow at the idea of parting with such an excellent friend. He hoped that the doctor would bear with him kindly remembrances of this gathering of friends.

Dr. Yeomans replied in a short address. He assured all that he appreciated the kindness which prompted such an expression of regret. He thought that the Executive Committee had taken advantage of him by inviting him to a small Reform communion. He had expected to meet a little caucus of seven or eight of the old guard, and was greatly surprised to find so many friends present. He felt at home to him, yet he felt now that in leaving Deseronto he was leaving home. He thanked all for their kind wishes. "Our Guest" was the next toast. It is unnecessary to state that this toast was received with unbounded enthusiasm, the whole company rising and giving three cheers for their great chief.

The name of A. S. Vallan being connected with the toast, that gentleman arose and spoke in a happy and humorous manner. He stated, by his character, courtesy and integrity was well constituted to be the leader of a great party. His very cordial and pleasant manner, and his sense of men. At the great convention at Ottawa the speaker had told Mr. Laurier that there were a number of good Reformers in Deseronto. He thought the young men to put their shoulders to the wheel as Dr. Yeomans had done and aid in placing Mr. Laurier in power. He regretted the removal of Dr. Yeomans to Belleville. He was sure his talents would cause him to be appreciated in that city.

"The Reform Association of Deseronto," drew forth a nice speech from L. W. Hopkins, who said that many doubted the existence of such an association in Deseronto, or even that there were any Reformers in the town. He presented assembly dispelled such doubts. He read Dr. Yeomans' reply to their invitation as a very good evidence of the existence of the association and of the sentiment of its members.

"The East Hastings Reform Association" elicited a speech from its president, Wm. Stoddart, who said that from what he could learn from a very recent visit to Belleville, the prospects of Dr. Yeomans in that city were exceedingly bright. He himself had always found him a good friend and a kind neighbor. As for the Reform Association of the East Riding, it had done good work many a time in the past, and he hoped that in a few months it would also win its title by returning a supporter of Mr. Laurier.

"The Business Men of Deseronto," drew forth eloquent addresses from E. W. Scott, Robt. Adams, P. Wm. E. Monahan, and Mr. Maundy, of Kingston, the latter gentleman complimenting the Reform Association on having so many respectable business men in its ranks. Wm. Stoddart closed his speech with wishing the doctor "beneath lath."

"The Press" called forth flights of eloquence from Mr. Jarrett, of the Belleville Sun, and Mr. Edwards, of The Tribune.

"The Ladies" found gallant and ready champions in John Walsh, Chas. A. Crawford, L. E. Benth, A. G. Bogart, M. J. Lyne, and others.

"Our Host and Hostess" was received in a manner which showed that their efforts were appreciated.

The toast list being completed, the party adjourned to the parlor, where a further time of social enjoyment continued. The affair was well managed, and was conspicuous for the good fellowship which marked all the proceedings.

The Chairman performed his duties with admirable tact. There was a total absence of anything savoring of political rivalry. It was in this respect a model assembly.

The room was neatly decorated, and the spread was a credit to Mr. Lowery and to the staff of the O'Connor house.

ST. MARK'S CHURCH NOTES.

The offerings of the congregation to the funds of St. Mark's General Hospital on Oct. 27th, have since been augmented by private subscriptions to an amount slightly in advance that contributed last year.

The Curate's Bible class for boys and young men is now held in the afternoon, and is cordially invited the attendance of all. There will be a series of lessons on "Men of the Bible." To ensure the best results regularity of attendance is almost indispensable. Our Friday evening services last week were well attended, it being the evening of All Saints Day. Why cannot there be many or more on every Friday evening?

Services on Sunday, Holy Communion, 8 a. m., morning prayer, 11 a. m., evening prayer, 7 p. m.

METHODIST CHURCH.

The Sacrament of the Lord's Supper was observed last Sunday forenoon. The pastor preached to a very large congregation in the evening.

The Sabbath School will hold their annual Christmas entertainment on Christmas eve.

Messrs. Luck, Wright and Ferguson are the new members of the board of stewards. The quarterly bazaar have been held Sunday, 17th inst., for the annual collection of coal for the church. About \$30 will be required, and the amount will be forthcoming.

HEARD EIGHTEEN MILES.

The Longest Distance the Human Voice Has Ever Carried. Eighteen miles is the longest distance on record at which a man's voice has been heard. This record is in the Grand Canyon of the Colorado, where one man shouting the name of "Baby" at one end, his voice was plainly heard at the other end, which is eighteen miles away. Lieutenant Foster, on Peary's third Arctic expedition, found he could converse with a man across the harbor of Port Bowen, a distance of 6,000 feet, or about one mile and a quarter; and Sir George Franklin has been heard at a distance of ten miles. Sound has remarkable force in water. Collected by experiments made in the Lake of Geneva, estimated that a bell submerged in the sea might be heard at a distance of more than sixty miles. Franklin says that he heard the striking together of two stones in the water half a mile away. Over water or a surface of ice sound is propagated with great clearness and strength. Dr. Hutton relates that on a quiet part of the Thames, near Chelsea, he could hear a person read distinctly at the distance of 160 feet while on the land the same could only be heard at 70 feet. Professor Tyndall, when on Mont Blanc, found the report of a pistol shot no louder than the pop of a champagne bottle. Persons in a balloon can hear voices from the earth at a long time, estimated that a bell submerged in the sea might be heard at a distance of more than sixty miles. Franklin says that he heard the striking together of two stones in the water half a mile away. Over water or a surface of ice sound is propagated with great clearness and strength. Dr. Hutton relates that on a quiet part of the Thames, near Chelsea, he could hear a person read distinctly at the distance of 160 feet while on the land the same could only be heard at 70 feet. Touching Up this Territory Territory Territory

Touching It up for all it is Worth!

COVERING bigger and better values than ever in the annals of the Clothing trade of the country. Wake up and walk up. Here we are opening the fall trade in Clothing, Hats and Caps. We are 18 years on deck and have seen many a sail go down on the business horizon. We are now on our 18th annual trip, better than ever prepared to bring bargains to your doors, to clothe the poor man with the rich man's dress, and to lodge the trade has grown, and our ability to supply your wants. Not only are our stores the known and recognized headquarters for the clothing trade of Canada, but one of the distinguished attractions of every town we do business in. Far and near our fame has spread until our names as traders are as familiar in the homes of the County as a red wagon on the township concession lines.

The owners of the missing British ship "The Scotia" have been notified by the British ship Prince Oscar on July 15th last, and she also went to the bottom.

and in his praise of Pink Pills. All who know Mr. Frost know that his word is as good as his bond. Yesterday we said to him, "Now, do you really feel that you are cured of rheumatism? Do you feel any traces of the old trouble at all?" He replied, "I am cured. The Pink Pills have thoroughly routed the disease out of my system and I feel a new man. The use of the pills has given me new life and I am telling everyone I meet about the cure. Such is the case, and having known Mr. Frost for years the sufferer he was, and seeing him now active, and almost youthful again, the rapid change from suffering to health seems to me a miracle. However we are not at all surprised, for on all sides we hear of cures effected by the use of Pink Pills. The druggists receive their rapid sale and the satisfaction they give their customers."—Trenton Advocate.

NOVEMBER.

The old year's withered face is here again. The twilight look, the look of reverie, the look of the old year's withered face is here again.

The full-blown robin-haunted June remain through devastating wind and ruinous rain. A form that moves a little wearily.

As one who reads the page of memory beneath a long year's load of stress and strain.

Good night! good-night the dew is thick and damp.

Yet still she bubbles on, as loath to go, Of apple buds and blossoms that used to

Till Indian summer brings the bedtime lamp, And underneath a covering of snow.

She dreams again of April eaves, —Ethelwyn Wetherald, in Harper's Weekly.

Burdock Pills do not grip or sicken. They cure Constipation and Sick Headach.

AN EXCELLENT NUMBER.

The Nov. issue of Business, the new Canadian Office Paper, published by The J. S. Robertson Company, Toronto, shows many signs of progress. The number is increased in size by four pages, and as with the first issue is a model in typographical beauty.

These were the reasons in which Mr. J. S. Robertson, the well-known Socialist and labor leader, summed up the record of his paper, the United States and Canada, which commenced in Chicago on Labor Day.

"I find," he continued, "that the movement towards Socialism is spreading. We are growing stronger all over the world, and although the friends of Socialism may be under a disadvantage in different countries, they are all ready to stand shoulder to shoulder when the time comes. In England we have no representatives in Parliament, although we have many sympathizers, but throughout the country we have over four hundred official representatives on the local, municipal and county councils. To give you an instance of how every one is joining us, I might tell you that the United States and Canada Labor organization in the University of Oxford, and many of the professors at that seat of learning are being won over by us."

"I generally make it a point to address the young men of the University twice a year, and on the last occasion I had the honor to be taken by one of the leading professors of the University."

"We are now allowed to address meetings in the University, which is merely a concession to public opinion which I suppose

A St. John's, N.H., despatch says that a conspiracy has existed there for several years to scuttle vessels and defraud the insurance companies. A number of prominent business men of the city are involved in such a plot.

A Kansas witness testifying in a liquor case was ordered by the judge to drink a glass of liquor for the purpose of stating his mind. He refused, and was sent to jail for contempt of court.

CANADIANS IN CHICAGO.

In point of numbers and standing the British Canadian population of Chicago takes first rank before the colonies of that nationality in other cities. No other place in this country contains 55,000 British Canadians, as Chicago does, a large number of the Chicago Journal, among the newspaper men of Chicago, meaning by that all Canadians who are not French Canadians. The English Canadians who have been successful business men are legion. It will be impossible to recount them. In the newspaper, banking and railway fields, and on the Board of Trade, they have become very prominent. Among the newspaper men of English Canadian origin are Messrs. Joseph Madill, of the Tribune, Geo. Sutherland, the secretary and treasurer, and John Jamieson, the managing director of the British American, the leading paper of the British people in the West. Mr. A. Gordon Murray, so prominent in the Canadian press, is a Scotchman. Mr. David F. Bremner, the wealthy cricketer, came from the same place. Mr. R. A. Davis, the wealthy capitalist of South Chicago, who has been here since 1857, is from the province of Manitoba. Mr. Robert Harvey, the aged lawyer, was once the mayor of Ottawa. Mr. Joel Bigelow, a Prairie avenue millionaire, left Canada, thirty years ago. Mr. Robert G. Givens, the real estate agent comes from Toronto.

The English Labor leader gives his views.

"I think that taking everything into consideration, the rate of wages in the United States is no better than that given in the Old Country, and in Montreal I should think that it was even lower. I learn that the unskilled labor which is being taken on by the Canadian Pacific Railway is being paid only ten cents an hour, while the skilled workmen, who are the very lowest class of laborers in London, are paid sixpence (12s), and are not under so much expense for the accretion of their families."

These were the reasons in which Mr. J. S. Robertson, the well-known Socialist and labor leader, summed up the record of his paper, the United States and Canada, which commenced in Chicago on Labor Day.

"I find," he continued, "that the movement towards Socialism is spreading. We are growing stronger all over the world, and although the friends of Socialism may be under a disadvantage in different countries, they are all ready to stand shoulder to shoulder when the time comes. In England we have no representatives in Parliament, although we have many sympathizers, but throughout the country we have over four hundred official representatives on the local, municipal and county councils. To give you an instance of how every one is joining us, I might tell you that the United States and Canada Labor organization in the University of Oxford, and many of the professors at that seat of learning are being won over by us."

"I generally make it a point to address the young men of the University twice a year, and on the last occasion I had the honor to be taken by one of the leading professors of the University."

"We are now allowed to address meetings in the University, which is merely a concession to public opinion which I suppose

NECESSARY. The outlook is brightening in England.

In many ways there may be trouble very soon. The Socialists have a large wing in the Parliament there, and are endeavoring to forward their cause in a constitutional and legitimate manner, but everything that they say and do is twisted and contorted or declared to be illegal, so that they can do nothing which does not conflict with the wishes of the majority of the Emperor and his toadies. That cannot go on for ever, and if the unconstitutional methods are allowed to be used by those in authority, they must expect the workers to retaliate. They would not be men if they were struck at and did not strike back, although of course, we would rather make ourselves felt by means of united and constitutional agitation."

Mr. Keir Hardie believes that in England the cause must be helped by electing Socialist members of Parliament, and believes that the day will come—and is not so very far off—when the labor element will have a majority in the Legislative Assembly at Westminster. He addresses the oratory of John Burns, who he describes as a "wise speaker and a great leader."

The ex-M.P. himself is a shrewd Scotchman, with a pair of piercing eyes deeply set, and a fresh, healthy complexion.

When one, however, can receive fifty-two dividends in a year upon an investment of only three dollars, the matter deserves very serious consideration.

The Independent of New York for forty-seven years has held the first position among the great religious literary and family weeklies of the world. It presents features for the coming year in advance of any hitherto offered. It has the leading contributors of the world, it prints the best poetry, it has twenty-one departments, edited by specialists, devoted to Fine Arts, Science, Insurance, Finance, Biblical Science, and the like. The Independent is particularly fitted for intelligent people, whether professional men, business men, farmers, or laborers. It costs but six cents a week, and gives a great deal for the money. A subscriber receives fifty-two dividends a year. The subscription price of The Independent is only three dollars a year, or at that rate for any part of a year, and a sample copy will be sent to any person free by addressing The Independent, New York City.

Chief Hansen, of the secret service, has been informed that his officers in Chicago have captured 30,000 counterfeit United States stamps and the plates from which they were printed. The stamps were made by the Mac, Mack gang, nearly all of whom are now in custody.

FIFTY-TWO DIVIDENDS.

As a general thing investors are pleased to receive only two dividends a year, and if they are paid with regularity are fully satisfied. When one, however, can receive fifty-two dividends in a year upon an investment of only three dollars, the matter deserves very serious consideration.

THE CULTURE.

ALFALFA, A FORAGE PLANT.

The extent to which alfalfa, known, or as it is called in California, Chilian clover, is now being grown in the United States and many parts of Canada is truly wonderful. It was introduced into this country about twenty years ago.

This valuable forage plant was scarcely known outside of California. Even there, that time, its limitations were limited to certain sections of the state, and its excellent qualities were very little known.

Its growth in California began in 1854, and the first seed was brought from Chili.

The U. S. Agricultural Department recently published in its "Farmers' Bulletin" series an exceedingly valuable and instructive paper on the cultivation of alfalfa, from which it is learned that the plant is now quite extensively grown in every part of the United States. It does well in the Eastern States, but thrives much better in the West and Southwest.

The great advantages of alfalfa as a forage plant are numerous. It is good for two or even three crops of hay in a season, and in California it is pastured almost any soil below 7,000 feet above sea level.

The limit of altitude is attained in the foothills and mountain valleys of California and Colorado. Alfalfa does not seem to be influenced so much by the altitude as by such conditions as the drainage, the soil, the water, the light, the air, the temperature, and the physical character of the soil. It grows best in a light and sandy rich loam, and is best adapted to the soil of the West and Southwest.

Alfalfa does not seem to be influenced so much by the altitude as by such conditions as the drainage, the soil, the water, the light, the air, the temperature, and the physical character of the soil. It grows best in a light and sandy rich loam, and is best adapted to the soil of the West and Southwest.

The great advantages of alfalfa as a forage plant are numerous. It is good for two or even three crops of hay in a season, and in California it is pastured almost any soil below 7,000 feet above sea level.

The limit of altitude is attained in the foothills and mountain valleys of California and Colorado. Alfalfa does not seem to be influenced so much by the altitude as by such conditions as the drainage, the soil, the water, the light, the air, the temperature, and the physical character of the soil. DISTRICT ITEMS.

Mrs. Andrew Cook, of Brockville, is dead, aged 76.

Coon hunting is the latest excitement in Belknapville.

A library and reading room will be opened in Timmerli.

Robert Grant, principal of the Brockville public school, has resigned.

A large new summer hotel will be built on Stanley Island near Gravel.

W. H. Raymore, formerly of Ganacque, died at Toronto of typhoid fever.

Mr. Belyon, of Trenton, has purchased the Brinkman farm at Albany, Amherstburg.

The Methodists of Fredericton, closed \$43 by a tea meeting held in the Lutheran church.

Mrs. Clarke and Wm. Robinson, of Vanhook Hill, have started on a trip around the world.

Mrs. Storms, wife of J. Storms, chief of police at Napanee, died last Saturday, aged seventy years.

John Macpherson, of Summersdown, while at work on a house at Cornwall, fell and broke his thigh.

Isaac H. Radford, formerly of Wolfe Island and Kingston, died at Reading, Pa., aged ninety years.

An old man named Koblitz was killed at the C. P. R. crossing in the outskirts of Renfrew last Tuesday.

Alexander's ratepayers will vote on a by-law to raise \$5,000 to cover the expense of electric light put in this fall.

Mr. Close, Violet, and another gentleman are building a mill for cracking feed at Bath. The site is D. W. Mill's old mill site.

At Maxville, Miss Mary Macleod, died suddenly from heart disease while getting out of her carriage at the church door.

The fine brick residence of Alfred Marshall, of Matilda township, was recently burned, the family had a narrow escape.

A young son of G. Moore, Hawkebury, had one foot terribly shattered by the accidental discharge of a gun in the hand of another boy.

On Sunday morning a fire was discovered in the basement of the English church, Napanee. It was extinguished before much damage was done.

At Brockville, Master Paul Hayward, only nine years old, was presented with a Royal Humane Society medal, for gallantly rescuing a young lad named Curran, fourteen years of age, from drowning.

Shiloh's Cure is sold on a guarantee. It cures incipient consumption. It is the best Cough Cure. Only one cent a dose, 25 cts, 50 cts, and \$1.00. W. G. Eggar's

NEWS OF THE DAY.

New York coach drivers are on strike.

The report that the Czarina of Russia was dying is denied.

George King was thrown out of a buggy at London and killed.

The English mission near Jerusalem was attacked by a mob. The missionaries escaped, but some of the servants were killed.

Mr. Gladstone is preparing a series of articles for "The North American Review" on the Future State and the Condition of Man in It.

Mrs. Shortis has gone to Ottawa to petition the Minister of Justice for clemency in the case of her son, now under sentence for the Volstead violation.

J. A. Desautels, member of the Quebec Legislative Assembly, will resign and contest Jacques Cartier in the Conservative interest for the Commons.

It is announced that Premier Whiteway of Newfoundland will shortly visit Ottawa, and the presumption is that his mission is to reopen the negotiations for confederation.

Five steamships have gone on the rocks this season in the Lower St. Lawrence: the Diadema, the Mariposa, the Mexico, the Brazilian and the Canada.

It is stated that the publication of The Northwest Official Gazette in both French and English has been discontinued, and that the last issue was printed in English only.

C. O. Leslie, the managing member of the Defender syndicate, went to fight a duel with Lord Dunsany over the latter's statements in connection with the America Cup race.

Dr. Basil Norris, U. S. A. retired, died at Occidental Hotel in San Francisco Monday night from apoplexy. He was for twenty one years attending surgeon at the White House in Washington.

Mrs. Mary E. Baxter, widow of Gen. H. Baxter, is dead at Rutland, Vt., as the result of a surgical operation. Mr. Baxter founded the H. H. Baxter Memorial Library in that city at a cost of over \$100,000. It is considered the best library of reference in New England. Her wealth is estimated at \$5,000,000.

Mayor Pingree, of Detroit, has sent a long communication to the council favoring the abrogation of that portion of the Treaty between Great Britain and the United States, which prevents the building of war ships on the lakes.

The Lord Mayor's show, on the occasion of the inauguration of the new Lord Mayor, Lieut. Col. Sir Walter Willes, took place on Saturday afternoon. The procession was over a mile long and traversed the principal streets of the city. Lord Salisbury spoke at the banquet in the evening and discussed questions of foreign policy at considerable length.

Karl's Clover Root, the great blood purifier, gives freshness and clearness to the complexion and cures constipation, 25 cts, 50 cts, \$1.00. W. G. Eggar's

A SKILLFUL OPTICIAN.

N. S. Morden, Optician, will be at Malley's Drug store, Deseronto, Monday and Tuesday next to examine eyes and fit spectacles and eye-glasses. Come and have your eyes tested and see whether you need them as no charge is made for testing.

THE MODERN MARTYR.

As soon as teacher leaves the house I sit down an' looks
At yellow and as a sarsa does in great big picture books;
I'm always fixed up pretty, an' my dresses are so neat
That I'd be mo' sure to spoil 'em if I went out on the street
My ma is a sarsa, an' though the weather's warm,
I don't play out doors, becuz it Ain't Good Form.

I think that poor folks' children have an awful hard time.
When I see them from the window—how they run an' jump an' climb!
An' the tear their clothes just frightful, an' they never seem to care.
I wish that I was with them as I watch them playing there.
But I'm mother's little lady, an' I know that she would storm
If I went out on the sidewalk, cos it Ain't Good Form.

SAWING EXTRAORDINARY.

A correspondent writing to a Signal paper gives an account of a great cut in a band saw at Bay Mills, Mich. He says "The largest cut ever made on one band saw in the big mill out over 70,000 feet and at Bay Mills, where 123,106 feet of lumber was cut in the following size, in the Hall & Munson Co's big mill in 101 hours: 35,740 feet of one inch, 23,200 feet of one and a half inch, 10,400 feet of two inch, 48,655 feet of two and a half inch and four inch, making a total of 123,106 feet, some time ago Gen. Sapt. A. Scantlan had the lumber measured over the trimmers in order to test the cutting capacity of the mill. The band saw in the big mill cut over 70,000 feet and a little mill 64,000 feet, from logs not sorted, but just as they came from a boom containing 3,600,000 feet. Shortly after the cut was measured, John Adamson, the head sawyer in the big mill, was heard to say that he could cut over 100,000 feet in one day if the logs were sorted for him. Mr. Scantlan hearing this determined to give the boys an opportunity to make a big day's cut. So he accordingly gave the boom man instructions to sort day's cutting of the largest and best logs in the boom, informing Chas. R. VanHorn, the head fier and millwright, of his intentions. Mr. VanHorn immediately had the saw put in the most perfect cutting condition, having a more than ordinary interest in making a big cut. The saw was started at 6 a. m. and the lumber was cut straight and well manufactured. This cut was made on an R. P. Allen mill with 14 guage, nine-inch saws of E. C. Allen's make that had been used all summer and were ten inches wide when new. The cut was measured by George Bridge.

MISTAKEN FOR A BURGLAR.

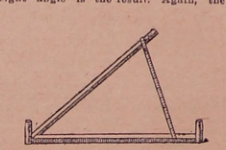

Wm. Martin, Green street, has received further particulars of the death of his son Sidney, from which it appears that the unfortunate young man was shot by a neighbor who had mistaken him for a burglar. H. F. Martin, brother of the deceased, writing to his father from Marengo, Ill., under date of Nov. 7th, gives the following statement of the sad affair which occurred at the village of May Fair, Illinois, On Sunday night, 2nd inst., some one entered the basement window of Mr. Wheeler's house, and falling among some coal made a great deal of noise, but managed, however, to make his escape. Mrs. Wheeler, who was in the house alone, related the story to a neighbor Mr. Strichter. On the Monday evening following this episode Sidney Martin started to Mr. Wheeler's house with the intention of filing a saw for Henry Thorne. It is supposed that he had heard the village talk of the attempt to enter Wheeler's house, he went to the basement window to examine it out of curiosity. Mr. Strichter, who was in the house, saw him approaching the window Sidney went up the back stairs and hid in the room. He saw Mr. Thorne was there as he usually went there of an evening. Not seeing him there he went down stairs, and as Strichter says, again looked in the window. The doctor did not think that Strichter knew him. Strichter who had a gun in his hand, and evidently on the look out to give the burglar a warm reception should he return. Strichter alleges that he kept looking at Sidney as he approached him and he did not fire until he had approached within four feet. Strichter, who is a German and was much excited over the burglar story, was all too late he found out his great mistake, was completely broken up and did all in his power to assist the injured. The doctor did not at first think that there was danger of a fatal termination and the wounded man did not consider his situation so grave as it really was. However, Mr. Wheeler insisting, a telegram was sent to his brother at Marengo, Ill., informing him that Sidney was hurt. The patient did not suffer any pain but on Tuesday at 4 p. m. an unfavorable change set in and death followed with great rapidity. He called for his Sabbath school teacher but who could not reach him until a few minutes after death. His brother could not reach him in time to see him before he died. The clergyman assured him, however, that Sidney was fully prepared for his end. An inquest was subsequently held and the jury exonerated Strichter who had evidently in his excitement mistaken Sidney Martin for a burglar. The remains were interred at May Fair, his brother purchasing a lot and making all the arrangements for the funeral. It was quite curious that Sidney's death was the cause of the people of the village and all united in regretting that he should have been the unfortunate victim of such a serious mistake. Friends in Deseronto will unite in extending their sympathy to the family thus bereaved of a beloved son and brother.

Barn Door Fastening.

A device for fastening a barn-door is illustrated herewith. It consists of a

USES FOR A TEN-FOOT ROD.

Among the things which are found convenient in every farmer's workshop is a ten-foot pole, made thus: A piece of wood, one and a quarter inches square and ten feet long, is nicely smoothed with the plane and then marked as follows: One end has a mark every three feet, to indicate yards; another side is marked every two feet; the third side is marked every foot while the fourth side has feet, inches, and half-inches, the pocket-hole furnishing the smaller sub-divisions of an inch. This measure will be found useful in many places. For instance, when a small building is being started, stakes are set in the ground at each corner. The proper angle of the site may be found by measuring eight feet on one end, and six on the other. Bring them together until the ten-foot pole just reaches both marks, as in the engraving, and a right angle is the result. Again, the

proper length for a post, to support a low pole, is quickly measured with such a pole. A corn-crisp is being built, six feet wide at the bottom, seven at the top, and nine feet high, the proper length of the various scantling is readily measured. Many other uses will be suggested when this simple implement is at hand.

Preventing The Ravages of Hog Cholera.

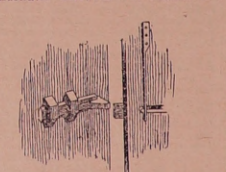

Very much has been written on the subject of hog cholera. The matter has been studied by Government commissions, by veterinarians, by swine-growers and by others generally interested, yet the results of their studies are of little practical value in the way of a remedy or remedies. The writer is one who is very firmly of the opinion that preventive methods are the only ones entitled to serious consideration. The foolishness and unscientific methods of growers are, and have been, largely, if not exclusively, responsible for the ravages of this disease in the swine herds of the West and South. Exclusive corn feeding and unsanitary surroundings have made our swine peculiarly susceptible to disease. We believe it is impossible to keep a fatten a hog on an exclusive corn diet and have him healthy. Then again, the breeder has thus given us an animal which is not robust, or in a condition to resist disease. He is simply a mass of obesity lacking in muscular development and a constitutional vigor—a ready prey for any contagion to which he may be exposed. If this low price of wheat and the comparatively high price of corn will continue a year, thus stimulating the practice of feeding more wheat and less corn, it will be a blessing in disguise to the swine grower. We believe that it is an easy problem to solve—that of avoiding the disease—if preventive hygienic methods are used. Give hogs range in summer, grass and water, more wheat and less corn, and the disease, and we shall in one or two generations of hog life have practically wiped out this scourge. The normal condition of our domestic animals is health, and if we feed and care for them in a proper manner they will not get sick; but it is useless to violate nature's laws and hope to escape the penalty.

The Value of Wheat Feeding for Hogs.

From many parts of the West we hear of successful results of feeding wheat to domestic animals. Its use as a food for cattle and horses, whether the whole grain is fed or its by-products, has long been well known, and the present experience has confirmed that knowledge. But the greatest good likely to result from the corn crop failure of 1894, and the consequent use of wheat in its place, will be the feeding of wheat to swine. Its value here, when the price makes it practicable, is incalculable. We have fed too much corn. We have for many years made this cereal the almost exclusive food of swine, and we have thus brought on severe punishment. Exclusive corn feeding for hogs has given us a race of domestic animals which are debilitated at birth. No animal can be fed on such a highly carbonaceous food as corn without becoming physically debilitated. We do not think first-class pork was ever made on such a diet. Swine thus fed are not robust, and are consequently less inclined to resist disease, and are more liable to be killed by the disease of swine. With the range of hog pasture for the swine, and some wheat in the grain ration, this pest would soon cease to be formidable.

Barn Door Fastening.

A device for fastening a barn-door is illustrated herewith. It consists of a

wooden bolt, playing loosely in two wooden guides. A pin of tough hardwood, not over half three inches long, is firmly driven into the bolt, and extends through a transverse slot in the door to the inside of the door is fastened a spring of ash or hickory, with its free end resting against the pin. As the door is closed, the bolt catches on the wooden fastening, driven into the opposite door-post, and is held thereby by the spring inside of the door. This is a very simple contrivance, but is none the less valuable. A bolt on the barn doors is always in place. Even where honesty is the rule, it is better to lock the door before the horse is stabled.

Work-horses do better on a peck of carrots and a peck of oats than they do on two pecks of oats.

FALL AND WINTER

1895.

We would respectfully call the attention of our patrons and the public generally to our Fall stock, comprising a full and choice assortment of Overcoats, Suits, style with Trimmings to match, at prices much lower than formerly, while the fit, style and workmanship will be up to date. Look in and see us.

AYER'S Hair Vigor

Restores natural color to the hair, and also prevents it falling out. Mrs. H. W. Fenwick, of Digby, N. S., says: "A little more than two years ago my hair began to turn gray and fall out. After the use of one bottle of Ayer's Hair Vigor my hair was restored to its original color and ceased falling out. An occasional application has since kept the hair in good condition."—Mrs. H. F. FENWICK, Digby, N. S.

Growth of Hair.

"Eight years ago, I had the variety, and lost my hair, which previously was quite abundant. I used a variety of preparations, but without beneficial result, till I began to use it. In a short time, my hair began to appear, and there is now every prospect of as thick a growth of hair as before my hair fell out."—Mrs. A. WEN, Polymia St., New Orleans, La.

Ayer's Hair Vigor

MADE BY ALL DRUGGISTS.

A Relentless Foe.

Mrs. Jinson (whispering)—See that man. He's a lady-killer!

Mrs. Jinson—Huh! He isn't handsome.

Oh, I don't mean that kind. He's a regular killer, a murderer.

Yes. He married a beautiful coquette, who treated him so heartlessly that he has sworn eternal enmity to all women. It's awful!

How does he kill?

He rides about in crowded street cars, and whenever a lady gets in he jumps up and makes a bow and offers her seat, as if he were a gentleman.

Oh, I don't mean that kind. He's a regular killer, a murderer.

Yes. He married a beautiful coquette, who treated him so heartlessly that he has sworn eternal enmity to all women. It's awful!

How does he kill?

He rides about in crowded street cars, and whenever a lady gets in he jumps up and makes a bow and offers her seat, as if he were a gentleman.

Oh, I don't mean that kind. He's a regular killer, a murderer.

Yes. He married a beautiful coquette, who treated him so heartlessly that he has sworn eternal enmity to all women. It's awful!

How does he kill?

LATE PARIS MURDERS.

INSANE PERSONS WHO WENT ABOUT TRYING TO KILL.

The Man Who Cut Off Ears—The Madman Who Demanded a Kiss and the Beautiful Woman Who First Rode a Window.

Paris seems to be a veritable Mecca for madmen these days. The madmen of this city range from those whose shaky brains have been toppled over by the September heuristics and who see in knife, pistol or bomb the only means of gratifying their lust for human destruction, to those whose mental disorders are so slight as to be classed as eccentricities by their friends.

Leon Boulet, who threw the bomb which exploded at the Rue Lafitte where the Rothschilds have their banking-house, will probably be placed in an asylum for the criminal lunatic. An occasional application has since kept the hair in good condition. "Mrs. H. F. FENWICK, Digby, N. S."

With the minute care which is one of their characteristics the Parisian police have traced his history from the time of his birth, and there seems to be plenty of evidence that his feeble brain gave way through much brooding over the wrongs of his class as set forth in the rabidly anarchistic papers. Boulet had one remarkable peculiarity in his mind. He had a little room, high up under the roof of a tall tenement at No. 23 Rue Traversiere—a chamber whose scant furniture he was continually changing about—the detectives noticed when they arrested him, and he refused to leave it. "It was like the room of an old coquette," said one of them. Inquiry disclosed the fact that Boulet would go to a near-by chemist's shop almost every day and buy two soas' worth of hair oil, and then, in his cell-like chamber, would sit the entire afternoon amusing himself by forming all sorts of combinations with his hair. His neighbors frequently complained of the

SICKENING SMELLS which were evolved.

Mazury, the murderer of a "fille galee" (as the French euphemistically call a woman of the streets), had been considered by his employers in the roast-meat shop where he worked as a sober, hard-working fellow of fair intelligence. Yet one night after leaving the shop and climbing the stairs to his room an uncontrollable thirst for blood came over him as he lay on his bed a long, keen dagger and a 32-calibre revolver. He did not remember that he had bought them that very afternoon, yielding to a fierce impulse which had momentarily seized him.

He could not withdraw his gaze from the shining steel, and as he looked at it he thought of the blood which he would plunge the dagger in living flesh, to hold some victim at the point of his sword.

He armed himself and descended to the street. The first woman who accosted him was called to him. He seized her by the neck, and as she struggled he plunged his knife between her white shoulders, and as she fell he turned and ran.

The "affaire" was a mystery, though the police worked hard to find the murderer. The woman who was killed was called Marie, which accused a clerk named Marie Angeline of having committed the deed. A second and more detailed report soon followed the first, and the police at last had hands on Mazury.

THE REAL ASSASSIN.

Mazury had written the letters himself. Among madmen whose mania has not yet reached the homicidal pitch the "cutter of ears" stands easily first. His latest victim was a fifteen-year-old girl, who was resting on a bench in the Boulevard Sebastopol. A handsome Frenchman, dressed in a tuxedo, sat down beside him and commenced a conversation. The girl, who was very beautiful, noticed a purple on the end of the boy's nose, caused by the heat, and once remarked that it was a very bad sign.

"Ah, I see by the red point on your nose that you are suffering from a cancer. Yes, you know the sign well." The girl grew pale with fright for he had heard his father say that his grandmother had died with cancer. The stranger continued: "What causes cancer at the end of the nose is an exaggerated development of the lobes of the ears. I see also that you are on the point of having typhoid fever. An operation on your ears is the only thing that will save you."

The boy, thoroughly frightened, willingly followed the operations of the Jardin des Plantes, where the self-styled doctor, after rubbing his ears vigorously, struck large cures in each of the lobes. He remarked: "If I had 50 francs I would give you a very bad sign. But I am not lost, for you have most hands."

Soon afterwards the "doctor" removed the tacks and bade the boy follow him. The man was dressed in a tuxedo and pushed them into his arms as they went. The boy, who was very beautiful, noticed a purple on the end of the boy's nose, caused by the heat, and once remarked that it was a very bad sign.

THE BOY PAINTED

and when he returned to consciousness found that the lobe of his right ear had been painted with a red line.

The person went about brandishing a dagger, and one day he was arrested by the police.

He was allowed to go on their way.

without further molestation. There were a few strong-minded ladies, however, who took the madman to be some practical joker and told him in English language to go away. They had narrow escapes. The madman was finally captured by means of a heavy coat sack, which was thrown over his head. This incident, he was seized by several people and carried to the police station.

The neighborhood where this occurred was just beginning to assume its accustomed tranquillity, when a fusillade of pistol shots rang out. There was at once a fresh stampede, and that portion of the street, whence the shots came, was soon entirely deserted. When the police and the crowd gathered to the scene, they found a man lying on the ground, and women as they glanced apprehensively back over their shoulders. Some said there were five, others eight, or nine, and yet others asserted there were more than twenty frantic madmen around the corner, all armed to the teeth and

SHOOTING TO KILL.

The police advanced cautiously, and after peering around the corner and seeing no corpses and hearing no more shots, they entered the street. They started to swagger boldly along the deserted thoroughfare, but they had gone scarce a dozen yards when from above their heads a revolver cracked again, and looking up they saw the smoke drifting away from a window on the second floor of an apartment-house. Shelters were thrown, two of the guardians of the peace watched for the reappearance of the lunatic, and two others entered the house.

A moment later a young and handsome woman cautiously showed her face from the open window, and then leaned forth, a pretty gold and silver mousetrap in her hand. She peered up and down the street with the cunning look in her eyes which is a common phase of the madman's madness. She caught sight of the policemen at last, and with a charming smile she held out the mousetrap. Just as she was about to pull the trigger there was a noise behind her and she turned to see a police officer. She did so, and was seized by four brawny arms, and fighting tooth and nail she was carried to the police station. From her ravings it was surmised that she had become crazed by the sight of the police, for she continually shrieked and prayed "Fernande" not to cast her off, and wailed that her heart would break if he left her.

A YEAR'S CONSUMPTION OF BEER.

The Production of the Last Fiscal Year Greater Than That of the Preceding.

The brewing business of the United States pays \$30,000,000 a year in Government taxes. This year's figures are just at hand. The total consumption of beer by the United States for the present fiscal year—figured up to July 1—was 33,669,000 barrels, an increase over the consumption of a year ago of 191,000 barrels. This year's figures, while in excess of those of last year, are less than the total consumption of 1893, which was 38,372,872 barrels. A barrel of beer, in brewer's measure, is about 31.4 gallons. The consumption of larger beer in the United States this year is, therefore, in excess of 1,000,000,000 gallons. These figures put the United States abreast with Germany, which consumes 1,000,000,000 gallons of beer annually.

The consumption of beer throughout the United States varies greatly. It is highest in New York, Pennsylvania, Illinois, and Wisconsin, and least in the Southern and Prohibition States. In Kansas, a prohibition State, the consumption of beer last year was 6,000 barrels, whereas, the total sales in the city of Milwaukee were 2,000,000 barrels.

The 70,000 breweries in the world, of which nearly 30,000 are in Germany, Great Britain follows with 18,000, and the United States with 5,000. It is one of the peculiarities of the brewing business, not found in the mercantile business, that the production and the consumption of beer in each country are substantially the same.

Only one country consumes more beer than it produces: Germany. In the United States the figures are nearly the same, and the difference is due to the importation of German beer, which has been observed during the last five or six years. The production of American beer has been effected somewhat adversely by the Roosevelt Sunday closing law, for ten years past the number of barrels consumed steadily increased, keeping pace in this with the growth of population. This year, however, there is a fall off in the sale of beer. The figures are as follows:—1893 (fiscal year), 4,900,000; 1894, 4,900,000; 1895, 4,900,000.

These figures are for the fiscal and not the calendar year, being regulated, in this respect, by the bookkeeping of the Internal Revenue Bureau of the United States Treasury Department, which begins a fiscal year on July 1, and ends it on June 30.

A Human Finesse.

Rockland (Me.) curiosity lovers are having loads of fun with a museum freak who is stopping there, with apparently invulnerable skin. He is a German, and his name is Peter Woods. He is an old-timer at the circus business, known as Pete Woods. The freak was brought to Rockland and stuck it right through the center of his nose and it remains there for two minutes. He looks about twenty-five and is pushed them into his arms as they went. The boy, who was very beautiful, noticed a purple on the end of the boy's nose, caused by the heat, and once remarked that it was a very bad sign.

SHE IS GOING TO SMASH.

AFFAIRS IN TURKEY ABOUT AS BAD AS POSSIBLE.

Massacres and Anarchy—Panic in the Streets—Confusion Everywhere—Powers Preparing to End It.

A despatch from Constantinople, says:

The massacres and pillage throughout Asia Minor about the attention of everybody to the exclusion of all other matters. The horrible state of affairs existing in Armenia is the topic of conversation in every circle, and disgust and indignation are expressed everywhere, even by Mohammedans, who are not expected to bestow any great degree of sympathy upon Christians. A feeling of disgust and uncertainty prevails throughout the city. The Sultan and his Ministers are now without doubt alarmed at the situation which confronts them. Matters have reached that stage that they are genuinely fearful that the powers may forcibly intervene, a movement which would inevitably lead to the extinction of the Turkish Empire in Europe. Until quite recently it is believed the Porte had no serious notion that the powers would take any action beyond making diplomatic representations which would be staved off or lessened by promises. Later, it was found necessary to make a genuine effort to put an end to the outrages in the disturbed districts, as the powers were becoming imperative in their demands and promises were no longer availing. The Porte wired to the provincial authorities commanding them to see to it that order was restored in the provinces. There have been a time when such orders could have been carried into effect, but that period seems to have passed away. Anyway, the instructions sent failed to have the desired effect, for the latest reports from the provinces show that there is not the slightest abatement of the application of the sword and the torch upon the persons and property of Christians, native and foreign.

Massacres are reported to have occurred in Anatolia, but no details have been received. Enough is known, however, to show that the disturbances are spreading over the entire province as well as the city of Van, and that the number of victims to the fanatical Turks and force Kurds has been very large.

A rumor is in circulation here that Shakh Pasha, who was appointed Imperial High Commissioner to enforce the Armenian reforms, has been recalled from Armenia and will be appointed Grand Vizier. Official dispatches received here show no disposition in the Porte to appoint in certain parts of the empire. A telegram from the authorities at Ararat, Pashalik of Van, dated July 18, says that 1,500 Armenians were massacred by the Kurds and committed many excesses on the Armenians. The Armenians were set on fire to a mosque, the school and the bazaar, using bombs containing some inflammable material to make their work more certain. The Kurds were very startling rapidly, and several stores and houses occupied by Muslims and Christians were destroyed. The Kurds also attacked the Muslim population of Colopoum, and killed many of the Muslims. The Armenians have telegraphed to the Porte, imploring protection. The authorities here are, however, restoring order. Forty bombs were discovered with the Armenians, and the barracks and Government offices.

Five thousand Armenian revolutionaries have been discovered in the city of Adana, and are preparing for aggressive action. The official dispatches charge the Armenians with the perpetration of murder and pillage at Erzinghan, Sivas and Mardinlik.

The Constantinople correspondent says that if the report that French and American missionaries have been injured be confirmed, there is every reason to believe that France and the United States will no longer confine themselves to remonstrances. The correspondent also says that the officials at the Yildiz Palace are much disturbed by Lord Salisbury's declarations, and that the British Government may be summoned. The Sultan and his entourage have been for two days in the city of Constantinople, and the end is near, but the Porte is determined to prosecute him to the end.

SOME QUEER EFFECTS OF SUNLIGHT

Why Will Not Fire burn Brightly When the Sun Shines Upon It?

This question naturally suggests itself whenever we attempt to light a match and watch its combustion in the sunlight. A few moments' consideration of some of the principles which lie at the foundation of modern theories of combustion will enable us to answer this question intelligently.

What is flame? Answer—Flame is burning gas. What is burning? Answer—Burning, or combustion, as it occurs under ordinary conditions, is the rapid union of bodies with oxygen—a phenomenon attended with the evolution of heat and generally also with light. We may have combustion attended with intense heat but with little light, as in the case of burning of carbonaceous substances, as in the case of illuminating gas, etc.

The effect of sunlight upon chemical bodies is a very curious phenomenon, and in the one under consideration, sunlight is without appreciable effect. That is to say, in the combustion of wood sunlight has no effect upon the rapidity or the intensity of the chemical action. It is true, however, that burning wood, when exposed to the sun, appears to burn more brightly than otherwise, but this is wholly due to the fact that the sun does not show themselves by daylight, and even the electric light—unless very intense—cannot show upon the spot where the sun is also shining. So it is with the light from all bodies, which, however, in the same body, is this.

It is very apparent to burn less brightly in the sunshine than in the shade. The actual brilliancy and the rapidity of the combustion are the same both in sunlight and in darkness.

It is very apparent to burn less brightly in the sunshine than in the shade. The actual brilliancy and the rapidity of the combustion are the same both in sunlight and in darkness.

What is CASTORIA?

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency, Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osborn, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing, and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. R. Kitchener, Corby, Ar.

The Centaur Company, 71 Murray Street, New York City.

ISLAND OF ANTICOSTI.

THE INHOSPITABLE ISLE PAINTED IN BRIGHT COLORS.

An Endeavor to induce Frenchmen to settle there—A Result Would Certainly be Disastrous to Canada.

The Island of Anticosti, which has been so frequently exploited in the past by interested parties as a suitable field for French farmers, is now being advertised in France as a perfect Eldorado, where wealth, happiness and prosperity may be secured by all who seek its shores. Needless to say Anticosti has undergone no such metamorphosis as to warrant its settlement by the farmers of sunny France any more than by the agriculturist of fog-ridden Britain, and it will be well for Mr. Fabre, the agent-general of Canada in Paris, to draw public attention to the question, as Frenchmen induced to settle in this bleak island which may well take care to ventilate in Paris by press and by letters to relatives and friends at home, which will eventually be disastrous to Canada, so far as emigration from France is concerned.

The Presse Libre, a Paris organ, publishes the report of Mr. Paul Combes, a French capitalist, who has been exploring the Island of Anticosti by its new owner, a French capitalist. Mr. Combes opens by saying that he has been exploring the Island of Anticosti, the inhospitable. After referring to the island as a "SOL ONE METER DEEP,"

he mentions the forest trees covering nine hundred thousand hectares out of a total area of one million hectares. The trees are of various kinds, and their value is estimated at five millions of francs, as they are good and tall, and some of them thirty meters in height. According to the report the antiquity of the forest is remarkable. The trees are of various kinds, and their value is estimated at five millions of francs, as they are good and tall, and some of them thirty meters in height.

Anticosti to be ranged in the "cold temperate zone." However, the largest portion of Canada belongs to the subarctic zone. Canada, Anticosti and Ontario are the cold regions of Canada. Then, again, vegetation springs up from the fertile soil in places where the forest has been cut out. Where there is no forest, or where the forest has been cut out, the land is covered with meadows producing the best fodder spring up spontaneously. Consequently, the land is very fertile. The soil is of the cold temperate zone is possible on the Island of Anticosti. The sea is full of fish, and not only the fisheries of the Gulf of St. Lawrence come here for codfish, but some fish families have made their permanent home on the shores of the island. Fishing is the principal occupation, but they also do a little farming, and even export potatoes to less favored parts along the Gulf. What is wanted is a good harbor for more of the numerous anchorage places to be found along the coast. Anticosti is a very fertile island, and its soil is very rich. The land is very fertile. Mrs. Wm. Saunders, Thomas street, had very pretty pansies in bloom in her garden during the past week.

The schooner W. T. Greenwood, Capt. Wm. Baird, was wrecked about nine miles west of Charlotte on Tuesday. Loss \$18,000.

Mr. Townsend, of F. S. Rathbun's conservatory, sent a number of his flowers to the great chrysanthemum show held in Toronto this week.

Mrs. Neish left this week for Kingston, Jamaica, having been summoned home by the illness of one of her sons. A great many friends unite in wishing her a pleasant voyage.

David Bradshaw went to Pilton on Saturday to attend the funeral of his brother-in-law, Caleb B. Stickney, a very respected resident of Pilton, who died on the 14th, aged 85 years.

Thos. McIlvenny and J. Topping were returning home on Sunday night along the boundary road when some careless person with a rig crashed into them, upsetting their vehicle and doing much damage.

The post office department have placed a new letter box opposite the Big Store for night service. Letters can be deposited until 11 o'clock p. m. when they will be removed for despatch by the night train. This is a great convenience.

Thanksgiving day was quietly observed. There was no cessation of business. There was service in St. Mark's in the forenoon. In the evening a union service was held in the Methodist church, Rev. W. S. McTavish being the preacher.

At Belleville market last Saturday the prices were as follows: butter 18c, eggs 18 to 19c, chickens 35c to 50c per pair, turkeys 60c to 75c per pair, geese 40c to 60c, apples 60c per bag, and potatoes 35c per bag.

Visitors to the residence of R. M. Jack at that gentleman's excellent likeness with the excellent likeness of A. Osborne. It is pronounced one of the best and most faithful likenesses of the kind to be found in town.

John Johnston, inspector of schools, paid an official visit to the Public school on Tuesday. He found the teachers all doing good work, and that the best of order and attention prevailed in all the rooms. The scholars were neat, clean and attentive.

This period of low water is being utilized by many farmers as an opportunity to reclaim from the bay and lake many low lying marshes by building dykes or deepening ditches. It would be an easy matter to double the area of Foresters' Island Park in this way.

James H. Wilson, formerly of the local branch of the Bank of Montreal, was in Deseronto last Friday on route to Hamilton where he enters the Bank of Montreal agency in that city. Mr. Wilson's friends and The Tribune congratulate him on his recovery from a very severe illness.

The local corps of the Salvation Army are making preparations for the due observance of Self-Denial Week which commences on Nov. 30th. The Deseronto corps has always done its duty and there is every reason to believe that their many kind friends in town will be ready to assist in their meritorious work.

It is said, and with truth, that a large patronage awaits any baker or other qualified person in town who will undertake the sale of cooked food; ham, meats, etc. Many housekeepers find it difficult to obtain good cooks or help and others have not time to do their own cooking. Such a department would therefore fill a long felt want in Deseronto.

A new timetable went into effect on the Grank Trunk on Sunday. The changes do not effect the Central Division in which Deseronto Junction is included. The trains will run all winter between Toronto and Montreal as they do now. The block system will be introduced which will greatly improve the safety of travelling on this great road.

The weather during the greater part of the week has been mild and pleasant, with the mercury in the forties and fifties. On Wednesday the wind veered to the east, and a sudden fall of temperature with light drizzles of snow. On Thursday morning the mercury fell to 10. Yesterday bright and clear.

The driver of the Kingston and Sydenham stage recently brought an action against the Township of Leborough for the expense in removing the snow in certain parts of the road which were blocked, and which he had notified them to have cleared. Judge Wilkinson has just decided that he can recover, and that the defendants are liable for the non-removal, and he gave judgment for the plaintiff.

There was a very large market on Tuesday, the rig flowing over into George and Centre streets. Large quantities of fowl were sold, and there were twenty vendors of cut meats. Potatoes were as low as twenty cents per bag. All the produce was in good condition, farmers generally exercising more care than formerly to have things neat and clean. As a general thing prices of all kinds of produce are very low.

Robert Wiseman arrived home on Saturday after a very pleasant visit of several weeks in Chicago. Mr. Wiseman was greatly impressed by the business energy of the great metropolis of the west. He also visited St. Louis another great business centre. Its large public buildings and magnificent railway station were objects of admiration. Mr. Wiseman profited in many ways by his visit. He will now commence the practice of his profession as an optician in the different towns of this province. He commences at Tweed and we have no doubt of his success.

Parlor Social.

A Parlor social will be held at the residence of Mrs. John Barker, Fourth street, on the evening of Tuesday, Nov. 26th. A good programme will be submitted and all are very cordially invited. Admission, only 10 cents.

Vertical Writing.

We were shown the other day some samples of vertical penmanship executed by pupils of Mr. Luck's department of the public school. The penmanship was a great improvement on former copies of the old style by the same pupils as it was very neat and legible. The change had been effected in the short space of one month.

British Mails.

Mails for Great Britain are despatched from the Deseronto post-office as follows: via New York (if specially marked per N. G. L. Steamer) on Sundays at 6 p. m.; via New York Mondays and Thursdays at 10:40 a. m.; via Halifax (Canadian mail) Thursdays at 8 p. m. Foreign parcels despatched by Canadian mail only.

St. Andrew's Dinner.

A. D. McLennan, R. Masie and D. W. McRae, committee of the St. Andrew's Society met Jas. Mackie, D. Armstrong and W. B. Graham, a special committee of the Sons of Scotland, and the joint conference decided to celebrate the festival of Scotland's patron saint by a dinner to be held at the O'Connor House on the evening of Friday, 29th inst. The fair sex will be invited and it is needless to predict a very happy and successful event.

Fatal Fire at Ormsby.

At an early hour on the morning of the 14th inst., Sliashli's hotel at Ormsby, North Hastings, was destroyed by fire. Two well known and respectable young men perished in the flames. One was Harry Parsons, son of John Parsons, merchant, of Maynooth, and the other John Chapman, of Bancroft. The rest of the inmates only escaped in their night clothes. None of the contents were saved. The barrow adjoining were also destroyed. About \$750 in cash was burned. Miss St. Charles, a school teacher from Madoc, lost a gold watch and other possessions. The fire started about 1:00.

Successful Entertainment.

The entertainment given by the Mission Band of the Church of the Redeemer drew a very large attendance to Union Hall last Friday evening. Mr. Russell presided and introduced the programme which included choruses, duets both vocal and instrumental, dialogues, recitations, etc. The drill by a number of the little ones was exceedingly well executed and the good night drill was also well acquitted. In fine, all the young folks present themselves in a manner very creditable. During an intermission a number of young ladies carrying large baskets filled with candy passed through the aisles and by their winning manner succeeded in disposing of all their luscious wares. Mrs. Denmark presided at the piano and much of the success of the evening was due to her efforts in the way of previous training. The financial results exceeded the most sanguine expectations, about \$35 being realized. The Band desire to thank the public for their generous patronage on the occasion.

More Travelling Accommodation.

The steamer "The Ontario" another steamer being placed on the route between Charlotte and the Thousand Islands via the Bay of Quinte route next year and that the trip will be made tri-weekly. The success of the North King and Alexandria during the past two seasons has shown the possibilities which exist in this direction. A tri-weekly service would, it is thought, be well patronized. In addition to the traffic from ports along the route, it is claimed that a very large proportion of the passenger traffic from the west could easily be diverted from the Niagara route to this service. The boats of the Ontario are generally advertised. All who have made the trip have been charmed by the delightful scenery. It is seldom that rough weather prevails on the lake during the excursion season and once the Bay is reached there is nothing but smooth water for the remainder of the distance. Any company instituting a tri-weekly service would undoubtedly secure a handsome return on their investments.

The Red Barn.

The "Red Barn," as the great stables on the Rathbun Company's farm are locally designated, is now the Mecca of visitors. The cattle being of townfolk and also farmers. Large numbers of townfolk and also farmers are adjoining district may be seen wending their way to the barn to inspect the stock. Mr. Keator has everything in shape for winter operations. There are 85 milch cows and in all about 214 head of stock. The Holsteins and Jerseys are particularly admired and the animals with big records to their credit are sought after and prized.

The quantity of milk given by some of these cows fairly stagger the average. Mr. Keator has shown himself a capable manager and by his new methods of management has demonstrated what can be effected by careful and systematic attention to details. A large number of fat hogs nearly ready for the knife are also centres of attraction. The farm hands are very courteous and always ready to give information to visitors during the hours fixed for their reception.

Just received at The Tribune bookstore a number of Black & White and Christmas numbers of the "Illustrated English" papers arriving daily. Prices very low. Also twenty five thousand envelopes good quality selling at 5 cts. per package of 25.

Norway Pine Syrup heals the lungs.

Union Service.

The Methodist and Presbyterian congregations held a Union Thanksgiving service in the Methodist church last evening. Rev. W. S. McTavish conducted the service taking as his text Ps. 126, 3, "The Lord has done great things for us whereof we are glad," on which he based a very instructive discourse. The Hebrews, he said, were patriotic patriots, Moses, Joshua, the judges, and prophets were all men in whose breasts there burned a love of country. Even the Hebrew women were patriotic—Miriam, Esther and Deborah were examples. Our duty, no matter what the land of our birth, was to take a deep interest in the welfare of our country; we must love the shamrock, rose or thistle which ever we love the maple leaf more. God had given us an splendid heritage. This dominion had an area of 3,500,000 square miles most of it in the north temperate zone. We were "heirs of noble deeds as ever done under all seeing sun." Let us remember that patriotism is not inconsistent with the highest piety. Truly would it be in his victorious march and hope would be in the dust if Christian men separated patriotism and piety.

Visitors always welcome at The Royal Art Studio.—H. A. Osborn, proprietor.

ANOTHER FATAL ACCIDENT.

Mrs. Thos. Blanchard, of Tyendinaga Reserve, was killed last Saturday evening while returning home from Belleville market. When near J. M. Hurley's residence, near the intersection of the main road and the branch road, she was struck by a horse driven by Mr. Blanchard's son. The wheel of the wagon struck her and she was hurled to the ground with great violence to the ground. She was brought to Mr. Hurley's residence but it was found that she was extinct. The accident which was so sudden and so fatal, Belleville stated that death had resulted from a fracture of the neck at the base of the skull. The deceased, who was 52 years of age, was the daughter of James Brant of the Reserve and was held in high esteem. She leaves a husband and one daughter to mourn their great loss. The funeral will be held on Monday at J. Dalton took place on Monday and was very numerous attended nearly one hundred rigs in the procession. Religious services were conducted at Christ Church by Rev. G. A. Anderson, assisted by Rev. T. Godden, and the remains were then placed in the vault of Deseronto cemetery.

The Rev. G. A. Anderson, of Tyendinaga Reserve, Henry Brown, F. Claus, Isaac Powles and Chas. Walker.

ST. MARK'S CHURCH NOTES.

The night of choir practice this week is Friday, after the usual service. A full attendance is requested.

The next meeting of the full meeting of the Brotherhood of St. Andrew on Friday night. Mr. Arthur Morrison presented a carefully prepared and interesting report of the Convention of the Convention, the great emphasis laid on Prayer as an effective means of work was very noteworthy. The most prominent speakers were Bishop Dudley of Kentucky, and our own Canon D. M. in of Toronto, who is at present engaged in a crusade against intemperance.

Next Sunday is the last of the Christian year. The Holy Communion service will be celebrated at 8 a. m., and thereforward the religious services will probably be discontinued for the winter months as usual.

The women of the congregation are displaying their accustomed zeal in good work. The women's auxiliary meets on Saturday afternoon at 3:30, in the Rectory. While this society devotes its attention to the missionary department (and church work), our parishioners receive the consideration of the Church Women's Aid Society. There is a well-founded rumor that this society is preparing to send a delegate to the next meeting of the Deseronto early next month with a novel entertainment replete with features borrowed from the Mikado's land of fun and sunshine.

A THANKSGIVING DAY SPECIAL.

The Farmer's Advocate, of London, Ont., has very appropriately made special reference to Thanksgiving Day in its November 15th issue. As usual, it is full of good, practical and far-seeing suggestions. In fact, it appears to grow better as it grows older. Mr. C. C. James, Deputy Prov. Minister of Agriculture, writes interestingly of "The Hopeful Future of Canadian Farming"; an able paper is given by Thos. McMillan, on "Breeding and Feeding Hogs"; Mr. James J. Macdonald, on "The Advantages of Sheep Raising"; Prof. H. H. Dean deals with that live dairy subject, "The Valuation of Milk for Cheesemaking"; Mr. W. A. Doyle, on "Successful Cultivation"; "Tuberculosis Among Cattle" is discussed by S. J. Thompson, V. S.; "The Care of Farm Implements" is well handled; also, "Mourning Meadows." "The Classification of Grade Cattle at Shows," The Live Stock Trade, and a lot of seasonable topics for dairy farmers, bee-keepers, poultrymen and the like. The illustrated "Helping Hand Department" is a new and useful feature; and the "Home Department" is admirable.

Notice two beautiful engravings—a Manitoba Bonanza Threshing Scene, and the C. P. R. Stock Yards at Winnipeg. We congratulate the publisher on the good service it is rendering the farmer, and do not wonder at its growing popularity.

NEWS OF THE DAY.

A son of the late Lord Randolph Churchill is now a Lieutenant in the Spanish army in Cuba.

Wm. Farr was sentenced to ten years in the penitentiary for attempting to murder his wife at Winnipeg.

The body of James Brown was found in the millpond at Hastings. He disappeared on October 28, and there are suspicions of foul play.

At a National Conservative conference at Brighton a protective duty on grain was advocated by Mr. Rankin, M.P., and other speakers.

The appointment of a Pacific cable commission was arranged for at a meeting of the colonial representatives with Mr. Chamberlain in London.

A Canadian missionary named Martin was terribly beaten and afterwards imprisoned at Fekke, near Hadjin, Turkey, where he was detained sixteen hours before he was released.

PERSONALS.

Miss J. M. Hall and three children were visiting friends in Trenton last week. Jesse Silis was on the sick list for a few days during the past week.

Mr. and Mrs. W. G. Egar were in Belleville on Monday.

F. C. Davy spent Sunday in Belleville. Thos. Topping, of Shannonville, favored us with a call on Monday.

Robert Martin, of Lonsdale, spent Saturday and Sunday in town.

Fred Bell spent Sunday in Nanapan. John Soimes, of the Central Office, paid a flying visit to Ganacque this week.

Mr. & Mrs. Geo. Field spent Wednesday in Kingston.

Wm. Gould, of Lonsdale, was in town on Monday.

Miss Macfarlane, of the Public school, spent last Saturday and Sunday at her home in Melrose.

Miss Sinclair, of the Indiana mission, has been the guest of Mrs. S. Russell, during the past week.

Mr. & Mrs. George Morden have been visiting friends at Sydney crossing.

Miss Alice Hunt is visiting her daughter in Kingston.

W. W. Foster left last week for Regina where he will pass the winter.

Mrs. Pooler and family left this week for Mobile, Alabama, to join Mr. Pooler who is now located at that city. They will visit friends in Saginaw City before going south.

Latest effects in Rembrandt Lighting, neatness and ease in posing at Osborn's.

It is expected that General Manager Hayes will inspect the Grand Trunk about the first of December in order to become acquainted with the ways of conducting the line.

A MISSIONARY VISITOR.

Miss Sinclair, of Madoc, formerly a teacher in the Deseronto school, has been spending the past week in Deseronto. During the past seven years Miss Sinclair has been employed as a missionary in Central India under the direction of the Presbyterian Church in Canada. Her field of labor is Indore, a large and important city with a population of one hundred thousand, in a tributary state of the same name. In this city there is a Presbyterian college for the training of native youth of which Mr. Wilkie, an experienced missionary, is president and which is doing excellent work in the cause of higher education. Miss Sinclair has been in charge of a boarding school in Indore since her arrival, and has been a native Christian girl. The care of this institution, together with the visitation of Zonas and evangelistic work, entails a great deal of constant labor and grave responsibility. It is gratifying to know from the annual reports of the mission council that Miss Sinclair has proved herself capable in every respect and that she is regarded as one of the most efficient agents of the Presbyterian church in India. There are now twenty-six missionaries of the Presbyterian church in India. Sixteen are females, and the work has been crowned with a most encouraging measure of success. Last year there was an average of one hundred and eighty-five native Christians interested in the work were present. In the city of Indore there are twenty-seven Sunday schools in operation, and as the female missionaries have access to the homes of all classes, rich and poor, their influence has exerted no small effect for good. Miss Sinclair has mastered the intricacies of the Hindi, Urdu and Marathi languages, all of which she can speak fluently. She has also traversed the whole country from the Himalayas to Ceylon, visiting the large cities and other places of interest. She is now enjoying a year's furlough and has been kept busy for months addressing the women's missionary societies in different parts of Ontario. Her visit, long anticipated, to Deseronto has afforded great pleasure to all concerned. On Tuesday evening she addressed in the lecture room of the Church of the Redeemer a large meeting of the Golden Rule Mission. Band of that church. Her address was listened to with unflinching interest by the young people. The band, we may here remark, has for some years supported Gazarri one of the girls in the mission boarding school at Indore. On Wednesday evening Miss Sinclair also addressed another large assembly of the Ladies' Missionary Society of the church in the same place. It was with the deepest interest that all heard the exceedingly able, practical and inspiring address of the missionary on the work of the church. Miss Sinclair has a very interesting selection of photographs, coins, costumes, idols and other curios which were on display at the meeting. Her reception was of a most cordial character and her visit to Deseronto cannot but stimulate all to more zeal and faithful effort in the cause of missionary enterprise. Miss Sinclair leaves to-day for her home in Madoc but will write in hoping that she may favor Deseronto with another visit before her departure for India.

DAMON AND PYTHIAS.

The plot of this beautiful play, which is now in rehearsal by the Deseronto Amateur Association is so familiar to all that it is unnecessary for us to recapitulate it here. We are already familiar with the pleasure of the members of this association in bygone years, when they successfully placed on the boards their high class plays as "Lord Bulwer Lytton's," "Lady of Lyons," Tom Taylor's "Payable on Demand," etc., and although many changes have necessarily taken place among the members owing to natural causes, Mr. Bedford still is to the fore, as the leading amateur actor. He will enact the part of "Pythias," the well known dramatic actor and tragedian, Mr. Barry Harvey, appearing in the part of "Damon."

Apart from the fact that the performance given in aid of the funds of the Citizens Band which, as an organization, is entitled to our greatest liberality for the many pleasant parties they have all spent in listening to, we can promise our citizens an intellectual treat that should not be missed by any of us that can possibly attend. When we add that the play will be correctly composed, we but add another fact that will assist the enjoyment of the spectators.

The date of the performance has been fixed for next Tuesday week (3rd December) and the management has assured us that neither going nor expense will be spared to make it one of the events of the season. Plan of all will be open at Taylor's after next Tuesday.

DESERONTO MARKETS.

Deseronto, November 21, 1895.
Wheat, 50 to 60 cents per bushel.

MARRIAGES.

MARAGE—LEWEN—At Christ church, Tyndal, on Wednesday, Nov. 20th, 1895, by the Rev. G. A. Anderson, Minister, Miss Margaret, daughter of the late Thomas Lewen, all of the Reserve.
MARAGE—BAPTIST—At Christ church, Tyndal, on Thursday, Nov. 21st, 1895, by the Rev. G. A. Anderson, Minister, Jacob Marage to Ellen, sister of the late Wm. Baptiste, all of the Reserve.
HOWARD—LUFFMAN—At Napone, on Thursday, Nov. 21st, 1895, by Rev. D. O. Grosley, Murray Howard and Mina Luffman, both of Deseronto.

DEATHS.

BLANCHARD—At Thurlow, on the 16th inst., Lydia, wife of Thos. Blanchard, of Tyndal Reserve, aged 52 years.
FOOTE—At Deseronto, on Nov. 20th, 1895, Lucy May, youngest daughter of Luman Foote, aged one year.

Cardinal Lucien Bonaparte died suddenly in Rome.

The annual and winter meeting of the Ontario Fruit Growers' Association will be held at Woodstock on December 11, 12 and 13. Expert fruit growers from all parts of the Province will be present and deliver addresses.

At a meeting of the colonial agents in London Salisbury submitted a letter received by him from the Sultan, in which His Majesty expresses pain at Lord Salisbury's Guildhall speech, pledges himself to carry out the reforms promised and asked him to look up to make another speech to counteract the effect of the one referred to.

TRY ONE—WHAT?

The Connor Washer—the best, 30 days trial; satisfaction or no sale. Left with Mrs. James Jones, opposite Mr. Woodcock's Grocery, will receive prompt attention.

MILES PLUMLEY.

613 Napone.

A LOCOMOTIVE ENGINEER.

How He Acts in the Cab of an Engine Drawing a Fast Train.

The locomotive engineer is a remarkable placid fellow, with a habit of deliberate precision in his look and motions. He occasionally turns a calm eye to his gauge and then resumes his quiet watch ahead. The three levers which he has to manipulate are inside his hand for instant use, and when they are used it is quietly and in order, as an organist pulls out his stops. The noise in the cab makes conversation difficult, but not as bad as that heard in the car when passing another train, with or without the windows open, and in looking out of the engine cab the objects are approached gradually, not rushed past as when one looks laterally out of a parlor car window. The fact is that the engineer does not look at the engine—he is looking ahead and therefore the speed seems less, as the objects are approached gradually.

Those who have ridden at ninety miles an hour on a locomotive engine will find a good road (and there are many such) the engine is not shaken and swayed in a terrific manner, but is rather comfortable, and the speed is not so apparent as when one is riding in a parlor car, where only a lateral view is had. The engineer can be very comfortable if he is quite sure of his track ahead, and it is only in rounding curves or in approaching crossings that he feels nervous, and it is doubtful if it is any more strain to run a locomotive at high speed than to ride a bicycle through crowded thoroughfares. Judging by the countenances of the bicycle rider and the engineer, the engineer has rather the best of it.

TO RENT.

THE desirable and convenient house forming the south part of the brick crane on Mill street.

MRS. GREATRIX,

PRIVATE SCHOOL.

THERE is still room for a few more pupils in the classes of the Private School recently opened by Miss Wilkie on Maple Avenue. For terms and other information apply to Miss Wilkie, at the residence of Mr. F. H. Sims.

CARD.

I desire, on the part of myself and the members of my family to thank all those who so kindly rendered assistance and manifested their sympathy and good will on the occurrence of the death of my husband. I would also take this opportunity to thank Messrs. Dart and J. M. Smith, undertakers, for their kind help and many acts of disinterested kindness.

MRS. PETER MERRILL.

H. FOWELL, Belleville.

P. S.—3 second-hand Top Buggies and 1 Grain Grinder very cheap. An A.1 Type-rider for sale at \$45. Wood, hay, oats and grain taken in exchange.

MILES OF HAIR.

WONDERFUL GROWTH ON THE TOP OF PADREWSKI'S HEAD.

A Large, Square Head—Length, Strength and Weight, Beautiful and Unique Shades of Hair—Effect on a Beholder—Its Rate of Growth.

Again has Padrewski, the great pianist, come to our city with his wonderful playing and his no less wonderful hair. "But the very hairs of your head are all numbered," says the bible. The Sunday World proposes to explain the task which the recording angel who is assigned to number Mr. Padrewski's hairs finds before him.

A representative of this paper who has devoted much of his time and energy to phenology, physiognomy and allied subjects visited Mr. Padrewski for the purpose of studying his head and his hair. The great pianist is not less amiable than he is gifted. He told his visitor that American audiences are the warmest and most sympathetic he has ever known, and that their enthusiasm encouraged him to things, but he was evidently shrewd. While he spoke the listener observed Mr. Padrewski's crowning glory, calculated its weight, length, quality and quantity.

M. Padrewski will not doubt pardon this attention to a personal detail. Many leaders critics write about his playing, but they will not give serious attention to his hair. It has frequently been the subject of wit, and the Sunday World for the first time treats it in the sober and earnest spirit of a seeker after scientific truth. The women of America have given such enthusiastic appreciation and surprise to him will eagerly welcome this information. That glorious aureole of hair is already enshrined in the memory of all who keep it. Memory fresh by cutting out this article and pasting it in their scrapbooks. To begin with, his hair is unique in color. Nothing at all like what is worn by the writer. The prevailing tint is a light orange yellow but there are many shades. Now and then a few strands of grey catch the eye. You catch glimpses of old gold and of a shade like the color of a tremendously hot fire.

It grows down low over the forehead, and the line where the hair ends is curi-

TABULATED STATISTICS OF PADREWSKI'S HAIR.

Estimated total number of hairs	30,000
Total length of hair placed and to end	1534 miles
Area of head bearing hair	163 square inches
Number of hairs to the square inch	1,840
Average length of hairs	1.90 inches
Longest hairs	2.00 inches
Combined resisting power of hairs	30,000 lbs.
Total weight	2 ounces

ously curved here. The bare skin takes two deep and sudden turns inward over the temple. These bare spaces mark the beginning of baldness in most men. It is therefore possible that Padrewski will some day lose his hair. The thought is desolating but it will be a long time yet. The quantity and arrangement of the hair come next in importance to its color. It sticks straight up from the forehead and bends backward at the top. Every hair has ten or a dozen curves in it. The effect can only be compared to that of a fire, with short, fierce light-colored flames chasing one another in a mad upward way. The greater part of it appears to grow to a length of eight inches and it reaches down the back of his neck to his collar, there it is as long as a man's wrist. As a considerable portion of the hair is always in a state of growth, a reasonable calculation of its average length would be five inches.

Padrewski has a very large square head. The average human head has a hair-bearing surface of 120 square inches. His scalp has an area of 160 inches.

There are 600 hair follicles in a square inch of a dark person's scalp and 700 in a blond person's scalp. The blonde, of course, has finer hair than the other. This would give a total of 80,000 follicles to a blonde with 100 inches of scalp; but as the follicles emit two or more hairs, the total must be greatly increased, and 120,000 is a conservative estimate.

Accepting these calculations, Padrewski, who is a blonde with very fine hair and an unusually large head, would have about 200,000 hairs. That is at the rate of 1,250 to the square inch.

The average length of them is five inches, and their total length, if placed end to end, would be 1,534 miles, or approximately 153 miles.

The weight of Padrewski's hair may be disappointing. A woman's head of hair seldom weighs more than five or six ounces, and three ounces is a liberal allowance for his. The strength of the hair is a most astonishing fact. An eminent doctor informs us that a single hair will bear a strain equivalent to four ounces. Padrewski's 200,000 hairs should therefore be able to withstand a strain of 50,000 pounds.

Padrewski's hair grows at the rate of seven inches a year. It requires ten years' accumulation to stuff a cushion of respectable size, and such a souvenir is hardly to be hoped for.

SEEM TO GROW IN HER.

Needles Have Been Cut Out of Her for Three Years.

From the body of Melvina Morford, a nineteen-year-old girl living at Sharon, Pa., physicians have extracted within the past three years over eight hundred needles and fragments of needles. How many are still imbedded in her flesh they do not pretend to say, but opinion is that many of the sharp pieces of steel are still going on.

This story is true in every detail. The surgeons say it is without precedent for the extraordinary number of needles her body has contained. Still, there are several well-known cases of a woman carrying needles in her body for years, and the needles have been found when they came from her. When, not long ago, the surgeons cut out from twenty to forty needles they thought their task was finished. But it seems not.

If, as some surgeons contend, the case is one of voluntary self-torture, then the patient is a fragile young girl, possessing a wonderful endurance and a stoical indifference to pain which far surpasses that of the New Mexican Indians, who, once a year, in the performance of a religious penance, flagellate themselves with sharp cacti. Still, there are others who contend that she has no idea where they come from. The girl, however, strenuously denies that she fills her skin with needles. She says that she has no idea where they come from. Her parents corroborate her. They have even kept close watch over her movements to detect if possible, whether the physicians' theories are correct, but they say they have learned nothing.

The operation of the removal of the steel pieces are exceedingly painful and cause the girl to writhe under the cut of the surgeon's knife. She is, in fact, unusually sensitive to pain.

This is the story the parents tell: In July, 1891, when the girl was fifteen years of age, she was playing with some companions around the house when she stepped on a paper of needles, a number of which penetrated her flesh. She ran to her mother, who found one of the needles protruding from the foot. This was extracted, and nothing further was thought about the matter. A few weeks later, when the girl began to suffer severe pains in the calf of the right leg.

An examination showed that two needles were working through the skin, and in time they were pulled out without much trouble. The needles were both somewhat rusted. The family agreed that the needles had been there for some time, when the girl began to suffer severe pains in the calf of the right leg.

In the spring of 1892, while the mother and daughter were visiting in Ohio, the girl developed a severe pain in the right side. A physician was called, and to his intense surprise he found what appeared to be a mass of needles under the skin. Seven were taken out before the skin healed over. Since that time the girl has never been free from pain.

In December, 1893, the case was given to Dr. F. L. A. Burrows, of Sharon. He estimates that he has removed from the girl's flesh over eight hundred needles, many of them of large size, and all rusted and corroded, showing that they had been in the girl's body for a long time. The doctor says that the operations have averaged about one a month since he has had charge of the case.

The greater number of needles have been drawn from the girl's right arm, just below the elbow. The arm is scarred from the frequent cutting, and as the needles are often imbedded more than an inch under the surface, it requires considerable force to extract them. They appear in bunches, and their position is such as to seem impossible that they have been forced into the flesh from the outside. The highest number ever removed at one time was fifty-seven needles, and as the physicians of several Sharon physicians and citizens, who were called in to verify what had been previously regarded as an incredible story. The doctors put the girl through a severe examination, hoping to catch her in a falsehood and thus to force a confession from her. They failed, however, to catch her in the least. One of the physicians noticed that the operation had been performed on the right arm and quickly asked the patient whether she was right or left-handed. "Right-handed," was the reply.

The doctor reasoned that a right-handed person would employ that member in the most delicate work, and a sharp instrument through the skin, and the left arm, therefore, would be mutilated. As the left arm was perfectly sound, and as the physicians agreed it would be impossible to get the needles so far into the flesh with the unpractised hand, this theory was abandoned. The next morning the girl was examined through the skin on the right hand, which strengthens the girl's statement that she does not herself push the needles in. The operation the girl does not take an anesthetic, and consequently undergoes what the doctors say is pure torture. She appears to be in normal health and in her father's home. The family are in humble circumstances.

The physicians say that the corroded appearance of some of the needles is an indication that they have been in the body for nine months before being extracted. It seems impossible that the girl deliberately fills her skin with them, as the pain would be too great. She says herself that the operations she undergoes at times require all the fortitude she possesses, and that she would not voluntarily add to the pain by doing anything to increase the work of the surgeons.

Some of the girl's friends attempt to explain the case by saying that she swallows the needles. The physicians say that no one could survive after putting into the stomach one-tenth the number that have already come to the surface at any one operation.

The girl is not morbid. She is apparently as happy and joyous as the average maiden. The family history reveals no cases of mental aberration, and the case, therefore, becomes all the more mysterious. It might have been possible that a few of the needles were introduced by her foot years ago had worked through the flesh, but where did the remaining seven or eight hundred needles come from? In China, it is believed by some to have supernatural powers.

The doctors are still taking large needles from the girl's flesh, and the number bids fair to soon pass the thousand mark.

At a recent wedding in South America there was a gorgeous rug spread in front of the altar. It resembled a superb piece of tapestry, but the whole design was worked out in natural flowers. There were sacred emblems of the church wrought in the center of this wonderful creation, the petals of a thousand flowers contributing their gorgeous colors. The yellow rose and chrysanthemum formed the background, and the whole was interlarded with clusters of violets, and alternates of purple waterlilies and the flowers of the Holy Ghost, all outlined on a fringe of green grass. It gave forth a subtle perfume and was wonderfully beautiful.

New Fall Goods

Our new Fall Goods are almost all in stock and exceed our highest expectations.

We are prepared to offer better value than ever before, and invite all in need of anything in our line to call and see the Bargains we are showing in all departments

We are Agents for Standard Fashion Company and Swiss Steam Laundry of Toronto

DISTRICT ITEMS.

Wm. W. Wales, of Colborne, is dead, aged 50.

Ottawa is to have a new custom house to cost \$200,000.

The Orangetown of Centreville realized \$75 by their concert.

Ald. Walkem has been appointed city solicitor for Kingston.

A Chapman trader is doing a rushing business in Wellington.

T. Garratt, Wellington, has sold his hotel to Geo. Walman, of Diston.

Street loafing is an evil which exists to an undue extent in Gananoque.

Mrs. A. H. Garratt, Wellington, has sold her property to Donald Gillanders.

It is said that the Eaton Company will open a departmental store in Ottawa.

Penobscot men are determined to have what they term the Southern railway.

A number of boarding house sharks are making their rounds in unhappy Belleville.

Fred Ackerman, druggist, Wellington, sustained serious injury to one of his eyes.

The output of sawn lumber for the Ottawa valley during 1895 was 627,000,000 feet.

The Presbyterians of Hay Bay hold a concert at Fredericksburg town hall on the 27th.

Arnprior is getting a new post office from the Dominion government. It will cost \$20,000.

Jacob H. McMeaters and Amanda Beattie, both of Smithfield, were married on the 11th.

It is said that one hundred deer and three bears were brought in over the Central Ontario last Saturday.

Mrs. Edward Hoke, aged 28, died at Plainfield, leaving a husband and two little children to mourn their loss.

The Coe Hill miners have ceased work and paid off their men until the railway is extended to enable them to ship their ore.

All Hunter, of Harrowmuth, killed two Tamworth pig seven months old which, when dressed, tipped the scales at 400 lbs.

Robert N. Baker, a native and former resident of Deseronto, is now one of the leading manufacturers of Syracuse, N. Y.

The Ottawa Railway Company will expend \$5,000 on the beach near the town in order to make it an attractive summer resort.

The new St. Andrew's Presbyterian church, Belleville, was opened last Sunday. The church is one of the finest in the district.

The Intelligence states that during one night nearly 123 mergansers (fish ducks) were caught by one of the bay fishermen in his net.

The work of erecting the Roblin church in the Selby mission of the Church of England is at a stand still owing to local dissensions.

Farmers near Ottawa are going quite extensively into the growing of peaches. They were successfully grown last season at Billings Bridge.

Frank Baker and John Kinch, of Gouverneur, N. Y., and Wm. Keene, of Gananoque, were drowned near Clayton last Friday night by the upsetting of their boat.

The milk supply was the cause of the fever in Watertown this season. Boards of health are remiss in duty when they do not investigate the water supplied to cows of milk vendors.

Under a bed of stones and vines in the Anglican Cathedral, Island, rests the body of Col. Joseph Radcliffe, Legislative Councillor of Canada, interred in 1841. His companions in the soil are three members of the family of Brown and an Italian named Dan. The Rev. Mr. Tighe is taking an interest in having the remains given proper respect, after half a century's neglect.

DOUBLED UP WITH RHEUMATISM.

A NORWICH COUNTESS DRAISES SOUTH AMERICAN RHEUMATIC CURE.

William Pegge, Norwood, Ont.: "Last Christmas I could hardly walk, and was nearly doubled up with rheumatism. I procured three bottles of South American Rheumatic Cure from Wm. Rathbun, druggist, of Norwood, and found it the best and quickest acting medicine I ever saw. The first dose gave relief and the three bottles completely cured me. I have had neither ache nor pain from rheumatism since."

THE LATE HENRY STOUTON.

Henry Stouton died at J. B. Maracle's Indian Reserve, Deseronto, on Thursday last, aged probably 75 years. Not many in town will remember him, but about forty years ago he came to Napawan and engaged as clerk with the late Robert Escon, in a frame store on the site of which stands the store occupied by the Rathbun Co. He afterwards married Miss Escon. Henry Stouton was at that time a promising young man. He was born at Littleton, son of Rev. John Stouton, rector of that parish. His mother was a sister of the late Chief Justice Bagenal. He separated from his wife years ago, and eighteen years ago took up his residence on the Reserve. Mr. Stouton resided in Lindsay a number of years, and in April last, the rumor being brought to Napawan for interment. In his last illness his two maiden sisters, residents of Kingston, went up and nursed him. —Napawan Beaver.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only \$2. Children love it. Sold by W. G. Egan.

CROSSING THE ATLANTIC.

ON BOARD A STEAMSHIP, Nov. 22, 1895.

To The Editor of THE TRIBUNE.

To be one of some six hundred passengers on a great ship, privileged to enjoy without lessening the comfort of others, a well appointed room quite ten feet square, with two good sized windows or port holes with a southerly outlook, comfortably furnished with a stationery sofa that may be used as a bed, a large wardrobe, warmed by steam, lighted by electricity, well ventilated, and in addition to this, a magnificent view of the ocean, one would indeed be hard to satisfy who could not, under such circumstances, find rest, improvement and enjoyment. The Queen or Windsor hotels of Toronto and Montreal, in all their excellence, do not furnish a better table or more attentive service to their guests than is met with on the great ship that crosses the Atlantic.

Little would one think that some four hundred men skilled in the various duties from captain, officers and crew to the two hundred men who day and night, away down in the bottom of the ship, take their turn at shovelling into the furnace quite three hundred tons of coal per day, are all busy employed in the work of propelling this great steamer across the ocean, attending to the wants of passengers and crew, who on this passage number more than a thousand souls, but in a busy atmosphere one never notices it. Everything that the skill of man can devise, clever workmen construct and money provide is given without stint or rest, safe and comfortable for this great ferry service between Europe and America in connection with which more than half a century ago steamers daily leave each shore.

Exactly at three o'clock on the afternoon of Wednesday this steamer Teutonic, the sister ship of the Majestic which exactly four years ago I made my first passage across the Atlantic, quickly moved out from her dock and passed quickly down and out of the great harbor of New York to the great Atlantic ocean. From that hour on during the six days of our journey now passed, for not one second have her great engines stopped or the ponderous propeller wheel under water, and sometimes above, ceased to revolve. It is difficult to comprehend the enormous power requisite to drive this great ship through the water. The Teutonic is 586 feet long, 66 feet beam, reaches down to the sea from the water line 27 to 30 feet and towers into the air to the captain's bridge quite as much more, and measures some 10,000 tons. To attain a speed of twenty miles requires engines of not less than 16,000 horse power, supplied with steam from many huge boilers, fired with 300 tons of fuel per day, constantly in use. Consider for a moment that the engine and boiler power of this one ship is quite six times that used in driving all the industries of Deseronto, and yet new ships have been built and running.

Among our passengers is the head of the great commercial agency of Dunn, Wiman & Co. There is also the renowned scholar Sir Lyon Playfair, and Lady Playfair of West Lothian and kindly manner. Hon. A. Smith-Barry, an Irish member of parliament, is also aboard. He is, I am informed, the originator of the "Irish Land League," accompanied by his graceful wife, Mrs. Barrett, wife of America's greatest actor, is also crossing to Europe. We have also Mr. and Mrs. Underwood, formerly of London, but now residents of New York; Mr. Underwood is a brother of Dr. Underwood the well known missionary to Corea and translator of the Bible into the Korean language. Miss Habersham, of London, an authoress and gifted Bible reader, who has for some months been aiding Mr. Moody in his evangelic work, is returning to England. Mr. Angus, representing vast phosphate and timber interests in Florida, on his way home to return to his family. Col. Alt, a north of Ireland gentleman, president of a railway in Brazil and with large commercial interests in the United States. The house go and come in attending the marriage of his son in Missouri. A very gentlemanly young Japanese merchant is on his way to Japan. Thus with varied interests and objects in view, some with thoughts centered on dear ones left behind, some looking forward to reunions with friends in homes so near, all make this the charming ship's temporary home. In the dining library which from every side overlooks the sea, pacing the deck away above the waters and yet not so high but that huge waves often sweep them, in the luxuriously appointed smoking room, at social games or in the discussion of political or other questions the voyage is made and the great ocean to many unconsciously spanned.

The distances daily traversed by this ship is about equal to that from Montreal to Detroit or from New York to Boston, and the speed of about 400 miles per twenty-four hours is kept up day and night without stoppage of engines from five to seven consecutive days. An excellent tribute to the watchfulness of the engineers, and even more so to the builders' skill and the power of man to overcome the forces of nature, or rather to utilize them in advancing the varied interests of family and social ties and the interests of trade and commerce. I know of no distance that can be traversed by travellers, whether as stagecoaches, intermediate or fast train, at anything like the reasonable cost of crossing America by sea. The more it is recognized and taken advantage of the greater becomes the mutual interests of interests between old world and new.

On Sabbath morning impressive services were held in the dining saloon when fully two hundred joined fervently in the responses, reading and singing of the beautiful services of the Church of England. The cold, damp sea wind we had started with had changed to one from the west, a soft, warm shower alternated with welcome sunshine and beautiful rainbows, followed in the evening by the moon, a lovely scene. The sea was sweeping majestic waves towering far above us now astern and then before, gave to me and to many a feeling of delight, admiration and awe well fitting a Sabbath upon the broad ocean. In the evening the singing of old and familiar hymns, led by Miss Habersham and joined by some fifty or more, appropriately terminated one of the most

pleasant days it has been my privilege to enjoy on ship-board.

But land is not far off. The last observation and reckoning of this voyage has been made by the captain and his officers. Soon the great engines will be at rest, the passengers scattered, the cargo discharged. The great ship will again take on her supply of 3,000 tons of fuel, her hold be filled with freight, her rooms occupied, and thus again her trips across the ocean. I feel and address this and place it in the printer's hands by an evening during the night be transferred by an evening steamer at Quebec, while we proceed on our way to Liverpool, and it may speedily bear to THE TRIBUNE and it readers the warm regards which I cherish for so many in Deseronto.

9 p. m. Last night. All well.

E. W. RATHBUN.

Don't care About Anything. The story which, with telling thousands of other stories on the same utter responsibility of sea-sickness. We hardly know why it is, but it cannot be denied that any man involving the horrors of sea-sickness is bound upon with avidity by the public generally, and with particular gusto by those individuals who have themselves suffered the indescribable wretchedness of that grievous malady.

It was coming from Liverpool upon one of the famous liners, says Elsie, Fetter, and although the sky was clear and the weather warm, a somewhat tempestuous sea had been encountered. The usual amount of sea-sickness among the passengers. As I paced the deck one afternoon I noticed a lady reclining upon one of the benches, and the unearthly look of her face and the languidity of her manner indicated that she had reached that state of collapse which marks the limit of sea-sickness.

Touched by this piteous spectacle I approached the poor creature and in a most compassionate tone I asked: "Madam, can I be of any service to you?"

She did not open her eyes, but I heard her murmur faintly: "Thank you, sir, but there is nothing you can do—nothing at all."

"Alas, madam," said I, tenderly, "permit me to bring you a glass of water."

She moved her head feebly and replied: "No, thank you—nothing at all."

"But your husband, madam," said I, "the gentleman lying there with his head in your lap—shall I not bring something to revive him?"

The lady again moved her head feebly and again murmured faintly between sobs: "Thank you, sir, but he is—not—my husband. I don't—know—who he is!"

Prepared For Death.

In the Petersburg campaign I saw an example of the cool, deliberate courage with which our men were wont to face death. I never saw a better instance. It was on the evening before a fight which we knew was going to be a desperate one, and which would be just as fierce as we had expected it would be. I was going through the camp the night before the battle, and I noticed nearly all the men looking ordinary. I would have thought little of seeing a group of soldiers patching up their army clothes.

In this case, however, pretty much every one was sewing, and all seemed to be performing the same task of sewing some sort of a piece into the breast of their coats. My curiosity was aroused, and I asked one of the men what it was all about.

"'Nothin' much, sir," said the soldier, saluting "only the boys along that we're going to get into the hottest part of the fight are just sewing their names into their coats so that if they go under, as a good many of us will, sir, some one can tell who are. That's all."

"That was all. It may not seem much, but I shall never forget those brave lads, who, laughing, singing and joking, were sewing into their coats their names, so that their dead bodies might be recognized when the killed and wounded were gathered up."

"There was not a man among them who did not know that he was face to face with death, but as I watched them there in the gray of the evening not one of them seemed to think of it despite the grim and suggestive task on which they were engaged."

A School House on Wheels.

In Madison County, Ky., there is a school house built on wheels. With eight comes a pair of mules pulls it to the home of the trustee, and the next morning it is drawn back to its daytime location. The house goes and comes on a schedule time, and if the school be a little slow about dismissing in the afternoon, the whole outfit is used to be given a freeze. A day's supply of water and wood is put aboard by the trustee every morning before the school house sets out upon its journey. The teacher boards with the trustee, and needs no carriage. At night a bull-dog is chained beneath the little frame building, and a bad man armed with a Winchester shoots inside of it. All of this, it is said, came about because some one threatened to burn the school house. Why the trustee did not have the building located in his own yard and save that trouble of hauling it is completely with some legal technicality.

What If She Could Vote?

The development of the modern woman is one of the most interesting features of civilization to-day. But is it not true that the cause of woman's suffrage is to be given a freeze. A day's supply of water and wood is put aboard by the trustee every morning before the school house sets out upon its journey. The teacher boards with the trustee, and needs no carriage. At night a bull-dog is chained beneath the little frame building, and a bad man armed with a Winchester shoots inside of it. All of this, it is said, came about because some one threatened to burn the school house. Why the trustee did not have the building located in his own yard and save that trouble of hauling it is completely with some legal technicality.

BECAUSE

You are not located in Belleville no reason why we should not
do your papering, particularly when we can supply you with so much
better goods than you can get elsewhere.
We have sold WALL PAPER to people all over Canada—and
have customers in Newfoundland.
Everybody is pleased! Last week, for instance, we papered a
church in Watford—one of a number of churches we have decorated
this season, and the congregation is simply delighted.
This is how we know it:—

CONGREGATIONAL PARSONAGE,

Watford, Ont., Nov. 5th, 1895.

Mr. Scantlebury, Belleville,

DEAR SIR:—We have finished the church and it looks very nice. Indeed,
we would like to give you a testimonial to your prompt business
way and excellent taste, with me to send you one.
Believe me, yours truly,
JOHN THOMAS.

Per A. M.

We honestly believe no other WALL PAPER house can give as
good results, dollar for dollar as we can. We want an order from you
no matter how small—just to get acquainted and let you see what we
can do. We are responsible for a large number of beautifully decorated
homes in Canada, and we are proud of some we have papered in your
own town.

Remember our BIG SALE lasts until the 31st of December.
Visit us if possible—if not—write us for samples; mention the room and
about the price you want to pay. Leave the rest to us.

TYENDINAGA RESERVE.

I see by the Belleville Star of the 25th inst.
that your correspondent hurt his foot. As his
feet are crippled it is a sore subject with him
and he does not wish the light of the sun to
shine upon them.
Mrs. Dalmage, of Watertown, N. Y., has
been on a visit to her brother, William Dyer,
of the Reserve.
The Rev. Creggan, of Marysburg, returning
from a visit to Selby and Camden, spent
Friday night at the Parsonage.

BLESSINGTON.

The recent rains were welcomed by one and
all.
Miss R. McGee spent Thanksgiving at her
home in Stirling.
Andrew Denke, Jr., has returned home
having spent a few months at Clinton, N. Y.
W. Cole and wife, of Belleville, spent
Sunday with friends in this neighborhood.
A few from here attended the social at
Behany and report a very pleasant time.
Shooting matches are now the main sport
as the "huking bees" are over.

EMERALD.

J. Roberts is said to have purchased the
Royal Hotel at Stirling.
Miss Rose Gibson, of Kingston, has been
visiting at her father's home.
The weather has been rough and stormy.
The sale of Tuesday did some damage to
barn doors, trees, etc.
People have already commenced to talk
about the approaching municipal elections.
Farmers are getting impatient at low price of
produce and some are much discouraged.
Chas. Fowler is taking a course at the
Kingston business college.
J. Baker, mail carrier, had a close call the
other day, his boat having been upset by a
squall shortly after leaving Bath.
Everyone is making a visit to Kingston be-
fore the steamer discontinues her trips.

ALBERT.

Thanksgiving day was duly observed in this
vicinity. Services were held in Ebenezer
Church conducted by Rev. J. R. Butler
assisted by J. M. White.
Miss Lizzie Jenkins has returned home
from visiting friends in the vicinity of Frank-
ford.
"Chickens are coming home to roost."
W. Bradshaw and his brother have returned
home. Our young ladies will be glad to see
their smiling faces once more.
W. English arrived home on Sunday from the
Northwest.
The young man who says there are no
attractions over the Marsh for him need not
try to bluff like that.
Edward Anderson and his mother were
visiting friends in Demoreville last week.
"Oliver Cromwell paid a flying visit to Bel-
leville on Thursday."

FOXBORO.

Cornelius Davis, one of the oldest residents
of the county, died here on the 22nd, having
reached the patriarchal age of 96. He had
been a resident of the county all his life. He
formerly resided in Sydney but for the past
years has resided here with his son.
The funeral took place on Saturday, Rev. Mr.
Covey, Baptist minister at Belleville, officiating.

W. Davis, of Rochester, has been visiting
friends in this district.
The "at home" given by the Epworth
League of the North church on Thanksgiving
day was a great success. There were visitors
from nearly all the leagues of the district and
all had a happy time.
James Rayner left last week to make his
home with his son at Erie, Pa.
The anniversary of the birth of the south church
will be held next Sunday and some splendid
talent has been secured for both days.
The blow on Tuesday did considerable
damage here.

WESTBROOK.

James Howie returned from Manitoba last
week, and says that in spite of great crops the
people will be no better off than in old Ontario
on account of high wages and low prices of
grain. James is fully convinced of the opinion
that there is no place like home.
James Sprout sold a valuable horse recent-
ly.

The Howie brothers came out ahead at the
provincial ploughing match held on
George's farm, Bath Road, Joseph carrying
off three first prizes.
Mr. Redden will work the Stevens farm
the coming year.
Joseph Purdy has rented M. Sheehan's
farm on Bay shore and has finished ploughing.
The meeting of the Y. P. S. C. E. was
well attended on Wednesday evening.
Mrs. W. Caldwell, after two months visit
with friends in this vicinity, arrived safely at
her home in Riverside, California, after a
delightful journey.

The weather is cold.
The pigs in this neighborhood are getting
out of their sty, being washed and dressed
and into soap pork barrels for the winter.

A REVOLUTIONARY STEP.

LEADING METROPOLITAN WEEKLY REDUCES
ITS PRICE ONE HALF.
The publishers of the Montreal Gazette
have started a new era in the issue of city
weeklies. The price of the edition of the
Gazette has been reduced to Fifty Cents a
Year.
The Weekly Gazette is a large eight page
paper, well printed, well edited, and besides
giving all the news, contains special features
that make it a first class family paper.
To the latter it gives a special illustrated
page, dealing with fashion, changes and other
matters interesting to the general sex.
There is also a literary department, for
which the contributions of some of the ablest
writers in the English language are being
secured. The new story, soon to be started,
is by Sir Walter Besant, Chairman of the
British Authors' Society, and author of many
notable novels.
The markets, especially those for dairy
products, are fully reported for the weekly
edition of the Gazette.
It gives all the news of the week, so that
its readers are kept in touch of all current
happenings of importance.
After subscribing for a good home paper,
no one can do better than send for it to be
a good general weekly paper, to the Gazette
Printing Company, Montreal.

SOLMESVILLE.

The late rains were welcome, for the cisterns
and wells were getting low.
Miss Mason, of the lighthouse, is much
improved in health as she is able to be about
and is preparing to move to Belleville.
We hear that George Palmer intends re-
turning from Illinois to attend the Belleville
business college during the winter. Edward
Spencer starts on Monday for the same
college.
Rev. Mr. Pope preached the annual
missionary sermon last Sabbath.
Miss Clavely, of Sidney, was the guest of
Miss Blanche Dwyer over Sunday. Martin,
believe!

Mrs. Chas. Way is visiting her parents,
Mr. & Mrs. Dempsey, of Ameliasburg.
The Thanksgiving social went off very
pleasantly and the evening was profitably
spent in listening to the excellent music of
the visiting and local talent, and to the
eloquent efforts of Mr. Watts, of Bel-
leville, as the guest of Chief Gordon.
Mrs. Mary Williamson has returned to her
home in Trenton.

Burton Palmer, when visiting friends at
Concession recently, met with an accident, his
horse taking fright and upsetting the rig while
they were returning from church. Fortunate-
ly no serious damage ensued though one of
the ladies and Burton were slightly shaken
up and considerably frightened.

Miss Dora Lyle, of Colborne, is visiting
her aunt, Mrs. D. B. Solmes.

EMPEY HILL.

D. Wilson has returned from the "Evaporator"
looking hale and hearty.
Miss Emma Phipps spent a few days in
town as the guest of Chief Gordon.
B. Demore has been at Marlbank lately.
Misses Armistead have returned to Belleville.
J. Stafford and H. Kimmery spent a few
hours in Deseronto, last Sunday. What is
the attraction boys?
Mrs. T. Wagar has been entertaining her
little niece, Mabel Freeman, for a few days.
A number of our residents spent Monday
in Belleville.

Robert Crawford left Thursday for Nap-
esee on his rounds, reminding some of the
new boy destined, it is said, for the
girls of the second communion, will be of
little use to them this season. Cutters are
now in vogue. Where is the one that entered
your town last Sunday night? Did it ever
return.
Gladstone Tullock is home from Georgian
Bay.
Mr. I. Corbin has returned home to Pawling,
N. Y.
Last Wednesday evening was the scene of
a pretty wedding, at the home of Mr. C.
Kimmery, Miss Annie Berry the pretty
bride, was attended in cream cashmere, and
the wedding, while the lucky groom, Mr.
Bruce Pades of Spencer Hill, went through
the trying ordeal aided by Walter B.
Perry. The bridesmaid was Miss Fairbro,
of Napesee, a cousin of the bride, who did
her duties honorably, and with very becom-
ingly attired. The happy couple have the
best wishes of all the community.
The wedding feast was served on Tuesday
night, by the Rev. G. S. White. A
large crowd should greet the learned lecturer
who will please as well as instruct.

SHANNONVILLE.

Miss Bessie Creeper, who spent the
summer at Halloway, has returned home.
Mr. E. C. Clark, of Belleville, was visit-
ing friends in this place last week.
Harry Earle, Belleville, spent Thank-
sgiving at home.
Mr. Jas. McQuay and Master Len, of
Pickering, were the guests of her brother Dr.
G. Whiteman last week.
Miss Florence Lavier, Belleville, is the
guest of Mrs. C. Kimmery.
Lou Vivian, Belleville, spent Sunday in
the village.
Geo. H. Pagan, Deseronto, spent Saturday
and Sunday at home.
Geo. Reed, has moved into the residence
of J. Wilson, Wilsons having moved to
Michigan.
Mr. T. F. Morden and son Percy, who have
been very ill with typhoid fever, are
recovering.

Mrs. A. Randall, who has been confined
to her room for six weeks through illness, is
improving.

Rev. E. N. Baker, Belleville, delivered a
very interesting lecture in the Methodist
Church on Thanksgiving, his subject being
"Modern Rome."
Sacramental Service was held in the
Presbyterian Church on Sunday last and was
quite largely attended. We believe several
united with the church at that service.
Trinity Church has been undergoing ex-
tensive repairs since your correspondent
wrote last, and is greatly improved. The
opening services took place on Sunday the
17th inst.

Anniversary services will be held in the
Methodist Church in a few weeks of which
particulars as to date, &c., will be given
later.

As Farmers at Crofton, Prince Edward, have
been hauling their grain to Hillier, Pictou
and Belleville, each eleven miles from the
shipments, it is thought that the millers
so low as to prevent vessels loading there.

Mr. John Grange, of Napesee, died last
Sunday night, aged 53. His maiden name
was Mrs. Mary Grange and she is survived by
her husband, four daughters and two sons.
Her mother, aged 84, is still quite active.

PRAIRIE FIRES IN THE NORTHWEST.

Not for years has this western country
suffered such desolation from prairie fires as it
has suffered this season. In the heart of
the grain country fires have raged with un-
wonted violence for weeks, while further
west in the stock country they are still
burning. Where districts were formerly a
scene of plenty in Manitoba, a picture of
farm houses with yellow fields and stacks of
grain, the flames have left a scene of ashes
as far as the eye can see. These disastrous
torches have certainly brought a doomday
to the region over which they have blown
their devouring breath. Human life has
even fallen victim to the scourge.

These fires originate in various ways.
Very little rain falls after the first of
August and the grass soon begins to cure or
dry up retaining its nutritive qualities, sim-
ilar to hay which has been cut and allowed
to cure in Ontario. The early autumn
autumn winds blowing from the west, the
stable, and soon the heavy undergrowth
provides a ready ladder both for the spread
of the flames. The dead dry grass is as com-
bustible as gunpowder, ignites readily
and burns rapidly. Not uncommonly light-
ning strikes the ground and a fire immedi-
ately springs up, or a party of inexperienced
settlers leave a smouldering camp fire;
it may be kept burning in a threshing
engine or passing locomotive, or in many
cases a match from some hunkers pipe; no
matter what the cause, if applied, an in-
stant only is required when aided by the
wind, it spreads its flames and rushes over
the ground furiously, the prairie quickly
becomes a sea of fire which is subdued
only when a stream is encountered or when
there is nothing more to be consumed. Un-
fortunate, indeed, is the ranchman who
finds himself in the pathway of one of
these fires, he can save his stock either by
driving it around one end of the fire or by
applying the torch and saving the prairie
ahead of it, in either case his range is bur-
ied over and his stock left without pasturage
for the winter.

I well remember a fire that occurred here
in the autumn of 1887. It was late in
October and the agricultural fair was being
held; the weather was fine, and with few
exceptions the people were all in town.
Early in the forenoon the wind began blow-
ing and by noon it was blowing a gale; soon
afterwards a match from a hunkers pipe
of dust were noticed rising in the west and
soon appeared at all that it was smoke,
and the smell of the burning grass in the air
was so strong that the people began to
could be seen starting for home, and within
an hour the town was deserted. Upon reach-
ing home many of them found that houses
and stacks of grain were all in smoke, others
were able to save a part of their crops or
building while a few escaped loss. The skies
were reddened for days, and the nights
were lit up with the burning of the prairie
fires. Before it was subdued the people
living in town were obliged to turn out and
fight desperately to save their homes.
The total sum of loss of settlers' effects
and property caused by these fires is enor-
mous; yet this loss is unimportant in com-
parison with the loss sustained by the coun-
try through the destruction of thousands
of acres of pasturage. The injury done
the soil when the first smoulders for
months as they often do, actually convert-
ing vast tracts of fertile land into deserts.

Until this year the settlers have been left
to fight this relentless adversary alone but
early in the fall the Pacific Rail-
way Company no doubt realizing that they
were responsible for not a few of the fires,
and to work the fireguards most of the
road was through the grazing country.
Much remains to be done, however, and
many are of the opinion that while the pro-
vincial government has done much land in
Manitoba, and the federal authorities con-
tinue to hold the greater portion in the
territories, they should assume more respon-
sibility. Certain it is that the prevention
of these fires is one of the most important
problems in the settlement of the West,
with which the people and government of
Canada have to deal. A. H.
Moore Jan. Nov. 20th, 1895.

Latest effects in Robmanti light ing, neatness and ease in posing at Osborne's.

A GREAT HOME PAPER.

Toronto turns out some excellent home
and general newspapers, but none that is
superior in any respect to the Weekly Globe.
The Globe is a paper of high quality, and
its reliability as a medium of information
has always been its proud distinction. No
Canadian paper has more space devoted
purely to Canadian topics, nor deals with
Canadian affairs more fairly nor more
thoroughly. Every Canadian home is the
better for the weekly visits of this great
paper.

THE DECEMBER NUMBER OF THE DELINEATOR.

Is called The Christmas Number and is
filled with holiday good things. The ex-
position of Winter styles is complete, and
the Season's Millinery is attractively pre-
sented. The paper is a special holiday article
on Novels and their Dressing, and another
on Dolls and Home-Made Christmas Gifts,
a home plan for the Christmas tree, the con-
clusion of Tillie Rose Little's account of
how to make Caper Brownies, and by
a chatty glimpse at the new novelties in
Around The Tea Table. Mrs. Roger A.
Pryor delightfully chaperones her readers
to Society Breakfasts and Luncheons and
Suppers. The practical advice given in the
Christmas Dinner has an exposition all its own,
while the Christmas Turkey illustrates an
amazing amount of Culin Life in the
South, by Lucia M. Robbins. Henry C.
Wood tells how some bright young people
of the Blue Grass Region celebrated Christ-
mas by "Happy Yule" and a helpful
article on Carving completes the tribute to
the day. Henry C. Lake, of the New Eng-
land Conservatory of Music, gives experi-
enced advice on Piano Tuning as an Occupation
for Women. Harriet Keith Fobes treats
of the Christmas Uproar. Emily White
Miller Kirby concludes the present series of
papers on Kindergarten Work, the great
success of which has caused the complemen-
tary series of three to be arranged for Floral
Work for the Month, a look into the Newest
Books and a review of novelties in Knitting
Textiles, Lace, Making, and among the
other features. On sale at THE THEATRE
office Book Store.

DOUGLAS' EGYPTIAN LINIMENT.

FEVER SORES CURED WITHOUT A
DOUBT.
Douglas Bros. & Co., Napesee, Ont.
Sirs,—Your Egyptian Liniment has
strayed to the part of the world, and has
performed some remarkable cures, notably
one of Mr. H. H. Hyde, of some bad Fever Sores,
and he says they were cured by your remedy
alone. He got it while on a visit to Canada.
Would be pleased to have your figures, etc.,
for control of sales in the section west of
you.
Yours truly, H. D. DENISON,
Howard City, Mich., 8th Dec, 1894.

TAKING THE VEIL.

On Tuesday, 19th inst., a most interesting
ceremony took place in the Hotel Dieu,
Kingston. Miss Estelle McDonald, of Yar-
brooke, was the bride. The bridegroom, Sister
St. Aloysius, took the white veil. The
beautiful chapel in the Hotel Dieu was
gorgeously decorated with lights and flowers.
The altar was given by his Grace Archbishop
Cleary, assisted by Vicar-General Kelly,
Fathers Hartigan, Neville, Collins and
Brien. The church was crowded with
friends of Miss McDonald and many who
came to witness the interesting ceremony.

TRICKS THAT ARE VAIN.

In vain is the net spread in sight of any
bird, and in vain do unscrupulous dealers
offer a high price label with a poor wine in-
side the bottle. The Borden's Claret Co.,
are not concerned about a label. They have
put before the public a generous, old, re-
fined wine at a price which has absolutely
paralyzed the high priced people. Even
those who like well enough to get wine at
half price have almost been afraid to believe
the new price. The new price for Claret
and Burgundies are \$3 and \$4 per dozen
quarts. Bottled from the wood imported
direct from the vineyards of France,
Adams-Borden Claret Co., 30 English
Street, Montreal.

"LET ME SEE YOUR SHOES!"

Was the remark of an old lady to the
obliging clerk in a certain shoe store. The
gentle salesman, with ready wit, quickly
turned her his enormous pair of No. 12's.
"Let me see your shoes," she said.
"Laws sake; it's not your shoes I want,
it's my own." When you come to Napesee
or Belleville ask to see OUR shoes. You
will see styles, quality, and right prices.
HAINES & LOCKETT.

A PROSPEROUS SEASON.

Mr. John McGrath has just returned
from Campbellford, the Rathbun Com-
pany's mill having closed down there on
Friday after the most prosperous season
ever experienced in Campbellford. Sawing
commenced about the middle of May and
continued six months without interruption
and the production is the best the Company
is able to record.

The interior of the mill is now being dis-
mantled in connection with the saw
and everything is being placed in readiness
for next spring. A man is at work cleaning
the machinery and sweeping the place from
the mill to the saw, each of both ends, com-
ing about twenty piles each twelve feet
high and containing from ten to fifteen
thousand feet.

The grounds south of the mill where the
lumber is piled, have also been put in good
order. The lumber is being piled in neat
rows, each pile being covered with a
sheet of canvas, and the piles are so
packed that the wind cannot get in. The
lumber is piled in neat rows, each pile
being covered with a sheet of canvas, and
the piles are so packed that the wind cannot
get in. The lumber is piled in neat rows,
each pile being covered with a sheet of
canvas, and the piles are so packed that
the wind cannot get in. The lumber is
piled in neat rows, each pile being covered
with a sheet of canvas, and the piles are
so packed that the wind cannot get in.

UNABLE TO WORK.

GENTS.—I was troubled with Liver Com-
plaint so much that I was unable to work
because of the pain and it caused me
to lose my appetite and in my mind was
very severe. I am glad to say that
this bottle of Burdock Blood Purifier
has done me good and I am now in per-
fect health. E. DAGENAIS,
Ste. Rose de Laval, Que.

Visitors always welcome at The Royal Art Studio.—H. A. Osborne, proprietor.

Shiloh's Cure is sold on a guarantee. It
cures incipient consumption. It is the best
Cough Cure. Only one bottle, 25 cents,
50 cents, and \$1.00. W. G. EGAR.

Rape. Millet. Hungarian.

Do not let your fallow lay idle. Sow Rape, and you will have a crop of excellent fodder for Sheep and young Stock. No better soiling crop grown.

CORN.

Fodder for Planting. Full lines still in stock, and anything you want in late Vegetable and Turnip Seeds.

FLOUR.

Our Brands still retain their lead. Always Good at close prices. Bran, Shorts and all kinds of ground Feed always in stock.

Oil Cake. Linseed Meal.

FRIDAY, NOVEMBER 29, 1895.

DISTRICT ITEMS.

Renfrew has formed a dramatic club.

A month organ band has been formed in

Ottawa.

There was 135 applications for a vacancy

in Coling school.

A home for the aged and infirm has been

opened at Colong.

Hay has been selling for twenty dollars a

ton at Vennacher.

Dr. D. H. D. of Oshawa, had two crops of

potatoes this year.

Almonte is to have a cooking school

taught by an Ottawa lady.

James Findlay, formerly of Cataract,

lived at Colong, aged 78.

Queen's College defeated Napanee at

football on Thanksgiving day.

The Trenton Water Co. sells its system of

water works to R. Weddell.

J. Leslie, jeweler, the oldest business man

in Ottawa, died recently aged 78.

Dr. A. R. Reid and Miss Harten were

married at Toronto last week.

The county of Carleton was organized in

1850 out of the old Halton district.

J. C. Hamilton, for eleven years principal

of Smith's Falls Public school, has resigned.

Wm. Hannah, of Ernestown, and Rachel

Joyce, of Kingston, were recently married.

B. G. Gilroy, of Wollaston, and Mary A.

Tripp, of Tyndings, were married, Nov.

29.

Vance Bros, of Thurlow, will start a

shingle mill at Pauldack Creek, near Bar-

reton.

There is an agitation in Smith's Falls to

have the taxes paid in half yearly instal-

ments.

A cargo of apples were loaded into cars

on board the transfer Ostris at Bogart's

wharf.

The Ironville, Bancroft & Ottawa railway

has been completed within nine miles from

Bancroft.

Agriology board of education have voted

\$170 to purchase apparatus for the teaching

of physics.

Stuart Bell and Everett Vanlue have

both moved into their handsome new homes

at Monro.

It is thought that coal oil has been dis-

covered on G. L. Perry's farm near Ernest-

own station.

Fred Hamm, of Ernestown, and Mary

Elizabeth Link, of Napanee, were married

on the 10th.

Kingston papers think that the G. T. R.

is preparing to run its main line directly

through the city.

The Presbyterianism of Napanee gave a

thanking offering of over \$100 on

Thanksgiving day.

At the Whistly assizes Nellie Clyde was

awarded \$1,000 in her breach of promise

case against Jas. Hodgins.

The body of Jas. Brown who disappeared

from Hastings on Oct. 28th was found in the

river near that village.

Colony ratepayers by a majority of 118

decided that the town should form part of

the county for municipal purposes.

Belleville has a deficit of \$40, for every

man, woman, child and infant in the town

is liable to pay.

Wm. Stephens, clerk in the Bank of

Montreal at Brockville, had his arm broken

and was otherwise injured in a runaway.

A Pictou citizen states that over 100,000

bushels of apples have been shipped from

that town and district to Great Britain this

fall.

Sam Nesbitt, of Brighton, is said to have

the largest apple store house on the contin-

ent. He has 31,000 barrels stored there

now.

There is a great rush for the position of

inspector of public schools in Northumber-

land, the position being vacated by the death

of E. Scarratt.

John Macdonald, of Scotch Corners,

Dalhousie township, aged sixty, had been

drinking and set out for home. His body

was found in a creek in shallow water.

Father Dowdall, of Eganville, was presented

with fifty-three steers by the farmers of the

surrounding district. The cattle were sold

and the proceeds devoted to the building

fund of the church.

At Bowen Perry's farm, Hay Bay, George

Shane, aged 22, had one hand fearfully

mutilated by the explosion of an old broken

gun, one barrel of which had been broken

some months before.

The book containing the consolidated by-

laws of Kingston, signed by the Mayor and

aldermen, and known as the original copy

cannot be found. It is thought that the late

city solicitor put it away for safe keeping.

Mrs. Farris, teacher at Croydon, after school

drove to Sydenham a distance of 27

miles, covered three miles up the lake, caught

354 mudcats with a hook and line and re-

turned to Croydon in time for school next

morning.

The twelve-month-old child of A. D. Clark,

of Black River, near Watertown, was

sitting in a high chair in front of a hot stove

when it leaped forward and the chair was

tipped on the stove and the child held there.

Checks, lips and hands were terribly burned,

but it may recover.

COULD HARDLY SPEAK.

SIR—Last winter my father had such a

cold that he could hardly speak. He was

persuaded to try Hagar's Cough Cure. He

was cured, and was completely cured by half

of one bottle.

MISS A. M. CRITTENDEN,

Baldwin, Ont.

PAISED BY PRESS AND PEOPLE.

As a cure for Dyspepsia, Constipation,

Biliousness, Sick Headache, Kidney

Troubles, and all diseases of the stomach,

liver, bowels and blood, Burdock differs

is praised by press and public alike. The

reason is that it actually does all that is

claimed for it.

Yellow Oil used internally and externally

cures asthma, croup, coughs, sore throats,

bronchitis, and similar conditions. Exter-

nally it cures rheumatism, lumbago,

sprains, bruises, cuts, chilblains, foot bites,

and sprains and aches of every kind.

TOMS.

THIRTIETH, P. E. I., May 30th, 1895.

To the Editor of *The Tribune*:

Dear Sir,—I enclose your paper the names of the men who have been benefited by the use of Dr. Williams' Pink Pills. I feel that I ought to let my case be known as I am sure that many women might be benefited as I have been. For a number of years I have been almost an invalid. I did not know the nature of my malady. I had a tired feeling, being exhausted at the least exertion, and no appetite and was very pale. Sometimes felt lying down would be to rise. A dizzy feeling would sometimes come over me to drop like a lead over me. During these spells I was unable to do any work.

A physician wrote me, "You are a nervous woman. I had a running sore of my disease. I took medical treatment but found no relief. My husband and father both gave me attention many articles which appeared from time to time in your paper concerning the cure wrought by Dr. Williams' Pink Pills. At first I was not at all inclined to believe in the value of the medicine, but I had not taken them long before I felt an improvement and have revived. I ordered more and continued taking the pills for three months and I feel that to-day I am as well and stronger as ever and my many ailments which I had are completely cured. I attribute my complete recovery to the use of Dr. Williams' Pink Pills and by telling you this that others may be benefited by them.

MRS. WILLIAM PERRY.
After reading the above letter we sent a report to the editor of the *Queen's Journal*. He reported that she had already sent in her letter. Her husband, William Perry, and her father, Mr. J. H. Lunder, J. P., and a Baber, were corroborated her statements.

Dr. Williams' Pink Pills for Pale People make pure, rich blood, restore shattered nerves and drive out disease. They cure all when other medicines fail and are beyond all question the greatest life saving medicine ever discovered. Sold by all dealers, but in imitation and should be avoided. They bear the full trade mark "Dr. Williams' Pink Pills for Pale People." Pills offered in lower form, by the hundred of course, are imitations and should be avoided. They are worthless and perhaps dangerous.

A SERIES OF MISHAPS.

LONDON, Nov. 23.—The old stories are revived of the failing health of the queen. It is reported that she shows an excessive tendency to depression, and that she needs constant watching. Visitors at Windsor castle, on the contrary, say that she is active. She constantly goes out driving, no matter what the condition of the weather may be. An unusual series of incidents occurred during the queen's recent journey from Windsor to London. Castle. First, her majesty's favorite collie dog was killed on the railway. As the princess Louise was boarding the train at Aberdeen, she missed the steps of the coach and fell, and crawled into the carriage on her hands and knees. Next the pilot engine which always precedes the royal train, was in some manner thrown from the rails and this accident caused delay. After arriving at Windsor castle her majesty went out driving and came near running over a bicyclist. The latter, in a manner common to riders on a wheel, was not looking where he was going and jammed his machine into the wheels of the queen's carriage. The bicyclist was slightly injured.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagar's Cough Cure.

IN SPRING AND FALL.

GENTS—I have taken Burdock Blood Purifiers every spring and fall as a blood purifier for several years and find it does great good. Looking up my system and making me feel like a new man. My doctor has taken it for nervous debility and weakness, receiving great benefit from doctors' medicine seemed to do no good.

RUFUS AVERY,

North Augusta, Oct.

CRO'S IN THE STATES.

KELSO, Ohio, Nov. 23.—This week C. A. Kropf & Co. have received replies from 338 reliable dealers and generally covering the eight states which generally raised wheat during the winter wheat crop of the United States; of these 2,236 are from the important wheat countries, and 1,983 from the minor ones. The crop of wheat also produces and use most of the clover seed crop. The winter wheat crop is backward. It has improved greatly since the recent rains. The condition now in Ohio, Indiana, Illinois, Michigan, Kansas, Missouri, Kentucky and Pennsylvania is various but little in the different states. The crop is more susceptible to a severe frost than usual. Average sown was a trifle smaller than the amount harvested from last summer. Stocks in local mills and warehouses average about two-thirds as much as a year ago. The clover seed crop is a trifle larger than was expected earlier in the season. The domestic demand promises to be larger than in recent years. Clover seed last year was destroyed in many sections by the drought.

CHAS. E. & L. PILLS CURE DYSPEPSIA.

For the last eight years I have been a sufferer from constipation and dyspepsia—I tried dozens of different medicines, but none did me any good. I used Dr. Williams' Cough-Liver Pills which cured me.

BELLEVILLE.

THE TRIBUNE, DESERONTO, ONT. NOVEMBER 29, 1895.

Some of the tin roofing was blown off the roof of Cole Bros' shop in the great gale of Tuesday.

Mayor Rathbone was laid up from a very severe cold for several days after his arrival in England.

The Rathbone Companies are sending out large quantities of dressed lumber both by rail and boat.

For something very nice in confectionery call at Wilbert Woodcock's grocery opposite the Queen's hotel, Main street.

Farmers, buyers, everyone in fact should read W. B. Stafford's change of advertisement this week. Prices are always right at Stafford's.

M. Bessett, of the Big stable, is receiving many car loads of pressed hay brought in by rail from Ernesworth and other points down the line.

The Ella Ross, Capt. Christie, is still on her route. On Tuesday she came in on time notwithstanding the fierce gale in which she proved as steady as a church.

Capt. Baird while out on a hunting expedition on the upper waters of the Trent shot a fine deer and bagged a number of partridge and other small game.

Passengers on the Ella Ross on Monday found an arrival at Belleville that the electric system had broken down. One car was running and that over only a section of the road.

A coal oil lamp exploded in Carter's boot and shoe store last Friday evening. The proprietor was equal to the emergency and by prompt energy prevented a conflagration.

Bogart Bros. are preparing for Christmas. Their stock of groceries is large, varied and up to date. In crockery and chinaware they have selections which cannot fail to please.

Wm. Stoddart, Deseronto's popular tailor, is making special discounts on all suits ordered during the holiday season. He has all the latest cuttings and guarantees the best of workmanship.

The steamer Deseronto started out for Pictou in the middle of the great blow on Tuesday, but her life boat was torn off by the high wind, the strong iron davits being broken. The trip was cancelled.

Rev. I. O. Mallory, formerly pastor of the Deseronto Methodist church, still holds the position of chaplain of the Illinois state reformatory at Pontiac and fills it to the greatest satisfaction of all concerned.

Conductor Whiting of the B. & Q. Railway, was off duty for some days having been summoned to Harroworth by the illness and subsequent death of his mother-in-law, Sydney Kitchen filled his place during his absence.

The sch. Loretta Rooney, Capt. Frank Barnhart, went on shore the other day while trying to make Belleville harbor. She was in the ordinary course but the water was lower even than usual. Suckley also sustained no damage.

Mrs. Dewitt, of Solmesville, lost some money yesterday between Barnett's grocery and the market, or between the market and the Tribune office. It was found in a handkerchief. The finder will oblige by leaving it at THE TRIBUNE office.

At Belleville police court on Monday Mrs. Peter Gould was charged with deteriorating milk and sending it to the Gould factory at Emory Hill, the offence having been committed on the 1st and 2nd of October. She was fined \$5 for each offence on her own evidence. Mrs. Gould is owner and Mr. Gould is maker at the factory.

The North Star of Parry Sound comes to us greatly improved in appearance. It has entered upon the twenty first year of publication and celebrates its majority by coming out in a new dress of type. A new Campbell power press has been placed in the office. Mr. Ireland has conducted the Star with marked ability and is to be congratulated on the changes which his enterprise has effected.

Residents of Tyndimaga complain of the inefficiency of the board of health of that township in not placing some houses in which there was sickness and death caused by diphtheria, and that people were allowed to go in and out thus spreading the disease. They also complain of the dilatoriness of the authorities of the township in the appointment of a health officer after the death of Dr. Redner.

The Perth Courier is responsible for this statement that John Robertson, of Darling township in the county of Lanark, is probably the oldest man in the province, having resided the three decades in St. Aspley lodge No. 90, Scotland, in 1829, and received his certificate on the 9th of December of that year—sixty-six years ago. Although an old man now, he still enjoys good health, and his fresh appearance shows a well preserved constitution. He came to this country from Scotland in 1839.

On this date last year the Ella Ross made her last trip to Belleville, the bay being frozen up at that point. On the 30th she made her last trip to Pictou. Boys were skating about the wharf. The Ella Ross was laid up last year on Dec. 7th. There was lightning on Dec. 9th and three inches of snow on the 11th, which disappeared in the evening. The bay from Northport to Pictou continued open until Dec. 23rd. The sch. Two Brothers cleared for Brighton on Dec. 20th and Capt. Mrs. Master with his wife, Ann, last sailing on from Charlotte on the 21st, the last sailing of that season. The Deseronto made her last trip of the season on Dec. 23rd. People crossed at Peterson's ferry about on the 23th.

The Dominion parliament meets for business on Jan. 2nd.

The driving park fence suffered grievously in the great blow of Tuesday.

The steamers Resolute and Reliance continue their trips to Oswego.

The sch. Annapolis, Capt. McMaster, cleared for Oswego last evening.

Commissioner Harvey has cleared market square of a deep coating of mud.

Geo. E. Derecho was presented to the Law Society of Toronto and sworn in as a barrister.

Municipal nominations will be held on Monday Dec. 30th, and elections on Monday Jan. 7.

Messrs. Irvine, McGaughey and Richardson are the retiring members of the public school board this year.

The remains of the late Mrs. James Howell were removed from the vault of the Deseronto cemetery yesterday for interment at Shannonville.

Deseronto Branch, C. M. B. A., will elect their officers on the evening of Wednesday, Dec. 11th. A large attendance of the membership should be present.

S. Hampton Miller, formerly of Deseronto, ordering his Springfield, states that he is now settled in Springfield, Mass. He likes Springfield which, he says, is a very busy and beautiful city with a population of 65,000.

On Wednesday Allen Smith while clearing up in the Big mill fell through a hole in the floor, breaking three ribs and sustaining other injuries of a painful character. He was removed home where Dr. Simpson attended him.

B. G. Gilroy, of Vallowan township, and Mary A. Trippe, of Tyndimaga, were united in marriage by Rev. E. Roberts, at the Tabernacle parsonage, Belleville, on Wednesday, Nov. 20th. The happy couple left the same evening for Brighton.

Chas. A. Millener, at present in London, England, on business, recently paid a visit to Salisbury with its ancient cathedral and historic surroundings. He saw the remains of the Roman occupation and also visited Stonehenge famous as a seat of the Druidic mysteries.

There has been an outbreak of diphtheria of a malignant type at Lonsdale. Robert Martin is home the school having been closed, several of the scholars being victims of the disease. Late accounts show that the progress of the disease had been arrested. Dr. Youx has done excellent work in coping with the disease.

G. E. Snider asks the attention of all our readers to his announcement in another column, Mr. Snider has made most extensive preparations for the holiday trade. All the latest novelties in jewellery, etc., can be found in his handsome cases. He has the largest stock between Toronto and Kingston. Visitors welcome at all hours.

Hall Caine, the distinguished litterateur, who is in Canada in connection with the vexed question of copyright, was to have visited "The Pines" this week as the guest of Dr. and Mrs. Oronhyatekha. He was, however, detained at Ottawa having been taken seriously ill, and has postponed his visit until next week. Dr. Oronhyatekha came down from Toronto and is at "The Pines."

Timothy Caulhoun has returned home after spending the summer working on the Atlantic & Superior Railway and also on the Montreal street railway system. Mr. Caulhoun is considered one of the best railway men of the province, having had many years' experience with many leading contractors. While working at Cote Des Neiges, near Montreal, he picked up a medal in the excavation where the navies were working. It was about fifteen inches below the surface of the ground. It now looks as bright as when it was mined, although it bears the date of 1694. It has on one side a representation of one of the oldest churches in Quebec. It is a curious work preserving. Two cannon balls were turned up near the same spot at which the medal was found.

George D. Smith returned home on Monday after spending three months working in Manitoba. The scene of his operations on the Northern Pacific Railway, was Rock Lake County, about 136 miles west of Winnipeg. It is a great wheat district and the crops he says were enormous. In one day he saw 2,816 bushels of wheat threshed by one machine and 1,292 was the least turned out by the machine. He considers the Carman district the best wheat section in Manitoba. He met a great many former friends who are now settled in the prairie province and nearly all doing well.

At Balmer he saw Matthew Scmidt, a justice of the peace and Sunday school superintendent and leading citizen. He met George Mark, B. and Geo. B. Sexsmith, Chas. Kennedy, Frank Bessett, the McCulloughs, Saml. Kennedy and several others from this neighborhood; Luke Bell, formerly of Tamworth, Mr. Griffith, late of Erinville and Harroworth, and many others.

Progressive.

D. W. Dart is busy preparing for the holiday trade and to that end is importing a number of novelties in the line of furniture, etc., suitable for Christmas presents. He offers special bargains in all lines during the coming month, and invites inspection by the public generally. He is sole agent for the well known Karp pianos and organs which have become so popular of late years. He has also a large stock of cutlery and utensils manufactured by the Gananuco carriage company, which he has brought to this country at a good price.

On visiting a good article at a reasonable figure to give him a call. Mr. Dart has recently received a large order for a line of goods from a Toronto firm which will keep his factory busy the greater part of the winter. The undertaking department is now second to none in the district.

Division Court.

Division court will be held in Shannonville next Tuesday, Dec. 3rd, and at Deseronto, Wednesday, Dec. 4th.

Notice.

There are a few accounts for advertising and printing at this office still unsettled. Will those concerned please oblige us in these matters without further delay?

Reserved Seats.

Reserved seats can be secured for "Damon and Pythias" at Naylor's where a plan of the opera house can also be found. The seats are filling up rapidly. Reserve your seats without further delay.

Successful.

John W. Kitchin, of Deseronto Junction, went to Montreal recently, and having passed a successful examination in telegraphy, was appointed night operator at Lonsdale station of the Grand Trunk Railway.

Chosen Friends.

All the members of Deseronto Council, No. 141, C. O. C. F., are requested to attend the next regular meeting which will be held on the evening of Wednesday, Dec. 4th. Nomination of Officers and other special business will be transacted.

The Big Mill.

The Big Mill closed down for the season last Saturday night. Last year it will be remembered it ran until Dec. 24th, the latest date on record. The mill has had a very successful season. There were but very few accidents and none of a serious character.

West End Mission.

The services of the West End Mission are attended by large numbers. The hall could not accommodate all who wished to be present last Sunday evening. Mr. Day conducted the service. The teachers and pupils of the Sunday school are preparing for a Christmas entertainment.

Children's Jubilee.

A Children's Jubilee will be held at the Salvation Army barracks on Tuesday, evening, Dec. 3rd, commencing at eight o'clock. The children have been training for some time and a very pleasing programme of recitations, dialogues, singing, etc., will be presented. Admission, only 5c. The proceeds will be devoted to the children's department of the Self-Denial effort.

Japanese Entertainment.

An entertainment on the Japanese plan will be given by the ladies of St. Mark's Church in Naylor's Opera House, Friday, December 6th. Japanese tea in the afternoon, Japanese songs, Japanese drill, Japanese men and women, Japanese boys and girls, Japanese works of art and Japanese tableaux. You will be admitted to this wonderful entertainment for 10 cents. See our advertisement next week.

Hymenaeal.

A very pretty wedding occurred on Monday, 25th inst., when James McKicker, son of Daniel McKicker, of Shannonville, and Miss Annie Callaghan, daughter of Mrs. Daniel Callaghan, of Melrose, were united in holy matrimony. The ceremony was performed at St. Mary's church, Marysville, by Rev. Father Quinn. The bride was attended by Miss Mary Callaghan and Patrick McKicker performed the duties of best man. A large circle of friends follow the couple with best wishes.

Obituary.

Mrs. Chas. P. Hinchey died on Saturday evening, 23rd inst., after an illness of only a few days. The end intelligence was heard with deep regret by a large circle of friends. Deceased, who was only twenty-three years of age, was the daughter of Mrs. Wm. Robeson, of Athens, Co. Leeds. She was also the sister of Lester Robeson of Deseronto. The funeral took place on Tuesday afternoon and despite very unfavorable weather was numerously attended. Religious services were conducted at St. Mark's Church by Rev. J. H. Coleman, after which the remains were interred in the Deseronto cemetery. The bereaved husband has the sympathy of all in his great bereavement.

The Red Barn.

We have been requested to state that in consequence of an increase in the Rathbone Company's herd of cattle, the hours for visitors to the Red Barn, Boundary road, will in future be from 1 to 3:15 p. m. daily. This is to insure absolute quietness during milking hours, no one being allowed in the barn then except the caretakers. We are also asked to say that the management insist on visitors asking the foreman Mr. Goodman to show them the stock as he will neglect to close the door of a pen in which there were some valuable calves and the animals caught cold thus causing much unnecessary annoyance. Ask for Mr. Goodman; he will always be found at his post willing and happy to accommodate all visitors.

The Banner Cow.

The readers of THE TRIBUNE have been much interested in noting the yields of milk of some of the Rathbone Company's herd which have been published from time to time. Here is the record of the banner cow. During the period from Feb. 9th, 1895, to Nov. 24th, 1895, both dates included, she gave 11,185 lbs. of milk. If the five milk vendors who supply Deseronto give the correct average of their daily sales this cow would have supplied our town for 15 days so far as their routes are concerned. Suppose her milk had been sold at three cents per quart wholesale, it would have brought \$111.60. Estimating her feed at thirty dollars for the period mentioned, and allowing the value of manure to be eight dollars, there is a net profit of \$89. This cow is six years old and has only been fed a developing ration with a view of testing her full capacity during the coming season. It must be admitted that 5 tons 1185 lbs. is a magnificent record.

PERSONALS.

Mr. & Mrs. J. A. Chapman and daughter, of Twoed, spent Thanksgiving day at J. Chapman's, Dundas street, Deseronto.

Misses Goffredo and Ethel Brown spent a few days last week with friends at T. Woodcock and Marlbank.

Mr. & Mrs. L. Brown have been visiting friends at Big Creek, Fredrickburg.

Miss E. Cole, of Adolphstown, spent Sunday in Deseronto.

Miss Northcott, of Belleville, spent a few days in town as the guest of Mrs. S. Russell.

Mrs. H. A. Dean and Master Reggie Dean were visiting in Deseronto on Monday.

Joseph Carwell has been on the sick list for the past two weeks.

Mr. & Mrs. H. B. Rathbone and Master Hugo B. Rathbone, of Belleville, were in town last Friday.

Mrs. Alton left for her home in Owen Sound last Friday afternoon.

W. W. Carter, of Fessenden, spent a few days in town during the past week. Mr. Carter has had a busy and prosperous season. Thos. Lowe has returned home from Colborne where he passed the summer months.

Mrs. Groat, Miss Sanderson and Miss Groat were visiting friends in Thurloir for a few days during the past week.

W. C. B. Rathbone spent a few days in town during the week.

Mr. and Mrs. James Cole have been enjoying a pleasant visit with friends in Shannonville.

L. Wight, of Albert College, spent Thanksgiving Day in town.

Mrs. W. H. Abernethy, of Brockville, arrived by train on Saturday evening being summoned here by the illness of her sister, Mrs. Hinchey.

Mrs. John Hauff returned home to Waterloo last Saturday after a pleasant visit to friends in town.

John Tait left this week for Watertown N. Y.

E. J. Sallabury, agent for the Dominion Express Company, was in town on Tuesday. P. McAlpine, of Marysville, was in town yesterday.

John McCullough paid a business visit to Napanee yesterday.

Hubert Naimith arrived home yesterday from a week's visit with his brothers in Toronto.

Mrs. Clarkson, who has been the guest of Mrs. E. W. Rathbone for some weeks, has returned home to Toronto.

Mrs. M. J. Hynde returned home last week from Toronto where she had been visiting her mother who was seriously ill.

Rev. F. D. Woodcock and his son Edward, of Camden East, were in town yesterday.

Alfred Turner left for Toronto last Saturday.

Robt. Hetherington, of Napanee, was in town on Saturday.

Miss L. M. Caverly, of Wallbridge, is the guest of Miss Vandervoort, George street, Councillor Gracey and G. J. Carter were registered at the Anglo American in Belleville last Saturday.

J. C. Kimmerly, of Lonsdale, gave us a pleasant call yesterday.

Mrs. P. O'Connor, of Toronto, spent a few days in town during the week.

Mrs. D. Dulmage has returned home from a visit to her parents in Colborne.

A. S. Vallance was in Belleville on Wednesday last Friday.

Thos. Kincaid, of Hungerford, was robbed of \$100 in Belleville while on a spree. Alexander Jose was suspected and was arrested at Niagara Falls.

R. N. Irvine, town clerk, who has been suffering from an old trouble, was so far recovered as to be able to attend the meeting of council last night.

On Wednesday, Robert Jones, a mason, dropped dead in Brockville. He was fifty-one years of age and belonged to the Canadian Order of Foresters.

Mrs. Robert Anderson was in Brantford during the past week attending the meeting of the Loyal Protestant Women of Canada as a delegate from Deseronto council. Mrs. Anderson was elected vice-president of the supreme council, and Mrs. G. A. Parnham was elected a member of the board of directors.

[Mr. Knox and his staff have had a busy time during the past two weeks looking after the leak in the gas main. They succeeded yesterday in locating it at the southeast corner of Mill and Main streets, where a section of the main was found to be broken in two. The escaping gas followed the sewers and caused much annoyance to merchants and residents on St. George and Main streets.

Citizens' Band.

There are now four new pupils in the band and they are making excellent progress. There is one vacant cornet, and if there are any more intelligent young men who wish to take up the clarinet they will please hand in their names to the secretary or manager of the band. This is an excellent opportunity to get a thorough training in music.

The Weather.

The weather during the past week has been in the most capricious mood. On Friday over two inches of snow fell accompanied by sleet. Saturday there was more sleet and snow and sleighs were brought out. Sunday was clear and cool. Monday set in with a howling snow storm from the south, east which turned to sleet and subsequently to a heavy rain which continued until Tuesday morning.

On Tuesday the temperature on Tuesday rose to 50 and people thought of summer. The wind veered to the west and blew a hurricane into the middle of the afternoon. The bay was lashed into foam. Wednesday fair and Thursday was like Indian summer with temperature 45° in the shade.

Norway Pine Syrup cures bronchitis.

DESERONTO MARKETS.

A. C. BARNETT

Has just returned from Montreal, where he made some heavy purchases in

Boots, Shoes, Rubbers,
Gloves, Mitts, Mocassins, &c.

After visiting about fifteen different Boot and Shoe establishments, I succeeded in buying them cheap, very cheap, and I am placing them before the people of Deseronto and surrounding country at fully 10 per cent cheaper than they can be bought anywhere else in this district.

Call and be convinced by examining the Goods that my statements are correct.

—MY—

GROCERY DEPARTMENT

—is complete in every line, such as—

Flour, Sugar, Cheese, Meat, Can Goods,
Starch and Soaps, Teas, Coffees, etc., etc.

My Tea is imported direct from China by myself, thus saving all middlemen's profits; and I believe I have the best 25c. Tea in this district.

A CALL SOLICITED.

A. C. Barnett,

TERMS CASH.

St. George Street.

MONT BLANC'S OBSERVATORY.

All the Delicate Astronomical Instruments

The highest permanent astronomical observatory in the world—on the summit of Mont Blanc—was at last completed and fully equipped with instruments a few days ago. There has been a temporary interruption for some years, but the instruments have been small and of little power compared with those now in place. The establishment of this observatory was a task which at one time seemed impossible, and the obstacles which M. Janssen, who headed the quartet of French astronomers, had to overcome, were unparallelled. Mont Blanc is nearly 15,000 feet high, and its ascent, even under the most favorable conditions, is during the summer months, is difficult as well as dangerous. The transportation of many heavy and delicate instruments to the top of this loftiest mountain of the Alps was therefore a labor so great as to seem beyond the range of possibility, yet it was accomplished without the loss of a single life. The telescope and the other instruments had to be taken to pieces before being carried up the precipitous mountain sides, even some of the packages weighed a hundred pounds, and most of them about

One of the guides who assisted in the work holds the record of having made the ascent more than a dozen times since the beginning of this professional career, and it was he who found recently the bodies of the Austrian professor and his two guides who lost their lives not long ago.

In place of being entirely movable about a pivot, like ordinary telescopes, the telescope on Mont Blanc is fixed and directed towards the polar star. A movable mirror on the pedestal of the telescope enables the observer to study whatever star he wishes, its image being thrown upon the glass. This makes necessary a protective cupola of comparatively small dimensions.

The particular advantage to astronomers in having an observatory at such high altitudes as this one lies in the transparency and purity of the atmosphere. The study of the stars, however, will not be the sole task of the observers, for some of them will devote themselves especially to meteorology as on the summit of Mont Blanc, says Prof. Janssen, they will be the very origin of atmospheric phenomena.

A Bicycle That Fits in a Valve.

A Frenchman has invented a bicycle that can be taken apart and packed in a valve and carried, it is claimed, with ease and comfort whenever the wheelman is traveling. The machine is broken down on the road the rider can unscrew the parts and carry it slung over his shoulder. The machine is not built for fast riding, but the sole task of the inventor, that a single man is 11½ inches in diameter, the toothed wheel which communicates the power from the pedals being nearly as large as the horizontal bar is a comparatively low price, and the replacing of the tire is much less expensive than in the case of a larger wheel.

Origin of Pumice-Stone.

Pumice stone is the theme of Mr. Norman Douglas' report transmitted to the foreign office by our ambassador at Rome, and this important item in the Italian export furnishes some interesting details, says the London Daily News. Pumice, as is well known, is of volcanic origin, being a trachytic lava which has been rendered light by the escape of gases in a molten state. It is found in most of the shores of the Tyrrhenian Sea and elsewhere, but the most important source is obtained from the little island of Lipari. Most of the volcanoes of Lipari have ejected pumiceous rock, but the best stone for the purpose of this movement is excavated from an area of three square miles. It has been calculated that about 1,000 hands are engaged in this industry, 600 of whom are employed in extracting the mineral. Pumice is brought to the surface in large blocks or in baskets and is carried thus either to the neighboring village, or to the seashore, to be taken thence in boats. The supply is said to be practically inexhaustible.

The Trolley in Politics.

Politicians have discovered that one of the most effective canvassers ever depended upon for bringing votes to the polls is the trolley car. To swell the audience at the political mass meeting in Newark, N. J., last week the Democrats engaged two cars to run all day throughout the city and advertise their meeting by huge signs which announced the speakers. Each car had drums and flags on board, and at night they brought up the Democratic sympathizers to the meeting hall. Seeing the success of this move, the Republicans, who had been content with advertising their meeting on a furniture van covered with painted canvas signs, hired a car, nearly filled it with a big brass band, and dispatched it triumphantly around the town. At night political clubs from all parts of Newark and the Outings were carried in illuminated trolley cars to the places of meeting, and the demand for street car accommodation was so brisk that every special car of the company was in use.

A Statue Invention.

The newest market novelty is the tomato sausage. It is made in a domestic way at Portland, is a delicate pinkish white, and tastes of sage and ripe tomatoes. It has made quite a hit in that city and surrounding towns.

Wanted to Know.

He—You don't believe in marrying for money, do you, Miss Oldgirl?
 She—I don't know; how much have you got?

BIRTHS.

PEARL—At Deseronto, on the 22nd inst., the wife of Alexander Pear, of a son.

MARRIAGES.

GILROY—TRIPP—At Belleville, on Nov. 28th, 1895, by Rev. E. Roberts, B. G. Gilroy, of Wollaston township, and Mary A. Tripp, of Tyndinaga.

O'BRIEN—REDMOND—At St. Gregory's church, Pictou, on the 25th inst., by Rev. J. H. McDonald, Capt. George O'Brien, of the steamer Empress of India, and Miss Minnie Redmond, both of Pictou.

EMERY—MEAGHER—At St. Patrick's church, Napesee, on the 25th inst., by Rev. Father Hogan, Thomas Emery and Miss Nora Meagher, daughter of James Meagher, all of Deseronto.

MCVICKER—CALLAGHAN—At St. Mary's Church, Tyndinaga, on Monday, Nov. 25th, 1895, by Rev. Father Quinn, James son of Daniel MCVICKER, of Shannanville, and Annie, daughter of Mr. Daniel Callaghan, of Melrose.

DEATHS.

CARNAHAN—At Northbrook, township of Kildara, on Nov. 24th, 1895, Leitch Roy, only child of Aaron E. and Jessie Carnahan, of Deseronto, aged 4 years, 11 months, and 18 days.

HINCHY—At Deseronto, on the 23rd inst., Emma, wife of Chas. P. Hinchy, aged 23 years, 3 months and 21 days.

CHILD WIFE SEES DIVORCE.

Mrs. Emma Butch, Deseronto, Ont., has begun an action for the annulment of the marriage of her daughter Maud, to Andrew Kuglar, claiming that Maud at the time of her marriage in Napesee, to Kuglar, Nov. 2nd, 1894, lacked a few days of being fifteen. There is something of a romance connected with this action. "Maudie," as she signified herself in an affidavit, now lives in this city, and was deserted by her husband eight months ago. As Kuglar is not now a resident of this state, on affidavits of the plaintiff and the child wife, Judge Emerson to-day issued an order of service of summons by publication. It is claimed that Kuglar lives in Deseronto.—Watertown Times.

D. W. Dart has received a commission of very fine Cutlery from the Cananoque Carriage Company, which he is offering very cheap.

DAMON AND PYTHIAS.

This play will be performed next Tuesday night by the Deseronto Dramatic Association, assisted by the well known tragedian Mr. Harry Harvey. The play has been thoroughly rehearsed and the public may expect the Association to give one of their old time first class performances. The principal characters will be taken by Messrs. Harvey, Murray and Bedford. Mrs. Harry Harvey and Miss Isabelle Bowen, whose many well known amateurs including Messrs. Naylor, Howland, etc., take just as important parts though in minor roles. The costumes, which we may say are particularly handsome, have arrived from New York City and are all new. Some of them having been used before and are to a great extent made entirely for the performance. As the performance is to be given on the fund the band will provide a very strong orchestra and have given much time and trouble to furnish as good music as they possibly can. The music to be played during the performance will be on the programmes and the baton will be wielded by Prof. Denmark. Altogether we expect a treat and hope that the great trouble the ladies and gentlemen in connection with the performance have taken will be appreciated by our citizens in the most satisfactory way they can, and that will be by giving the company a "bummer" house.

Umbrella Missing.

ON THE NIGHT OF F. GENEUX'S wedding some party by mistake carried off a double-ribbed Umbrella from the opera house. The owner will be obliged if it is left at THE TRIBUNE Office.

HOUSE TO RENT.

THAT DESIRABLE HOUSE FORMING the south part of the Brick terrace on MUEL Street. The house has been repaired and papered throughout, and is in excellent condition. Terms moderate.—Apply to

MRS. GRUBBIE.

LOST.

BETWEEN JOSEPH MCGURN'S residence and Marysville, a valuable Woolen Shawl, almost black in color. This article was lost about the last of January or the first of February of this year. The finder will be rewarded leaving it at George Anderson's, Marysville, or J. Callaghan's, Deseronto.

MRS. P. McALPINE.

Tired but Sleepless

Is a condition which gradually wears away the strength. Let the blood be purified and enriched by Hood's Sarsaparilla and this condition will cease. For two or three years I was subject to poor spells. I always felt tired, could not sleep at night and the little I could eat did not do me any good. I read about Hood's Sarsaparilla and decided to try it. Before I had finished two bottles I began to feel better and in a short time I felt all right and had gained 21 pounds in weight. I am stronger and healthier than I have ever been in my life. JOHN W. COUGHLIN, Wallaceburg, Ontario.

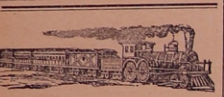

Hood's Sarsaparilla

Is the Only

True Blood Purifier

Prominently in the public eye today. Be sure to get Hood's and only Hood's. Do not be induced to buy any other.

Hood's Pills cure all liver ills, biliousness, headache, etc.

DISTRICT ITEMS.

W. H. Reeve has left Eganville for South Africa.

Mrs. Domes, South Bay, died on the 15th, aged 68.

A good deal of building is in progress at Wellington.

The first steamer in Canada was built in Bath in 1816.

Nelson Johnson died at Gananoque, on the 21st, aged 56.

A new opera house will be built on Bank street, Ottawa.

The Mohawk name for Kingston in old days was Goudo-qui.

W. N. Rogers is a candidate for the majority of Gananoque.

Peggy Dulmage, of Plover, died at Buffalo on the 16th, aged 49.

There has been a marked diminution in crime in Kingston for the last three years.

The estate of the late George W. Bleeker, of Marmora, is put at \$6,465.

A Swede named Johnston was killed at Cobden by the accidental discharge of his gun.

It will take six months to wind up the business of Donald Fraser, banker, Kingston.

John Dunbar, formerly of Pembroke, has purchased the Exchange Hotel, Renfrew, for \$7,000.

A bell weighing 300 lbs. and costing \$115 will be purchased for the Gananoque high school.

S. B. Williams, railway agent at Athens, and Amelia Kincaid, of that village, were married.

B. W. Folger, of Kingston, is right when he advocates the abolition of all fees in all law suits.

The first public school was organized in Upper Canada in 1785 at Fredericksburg, N. York.

Ogdensburg police are closing houses of ill fame in that city and the occupants have left the city.

George McCarthy, Grindstone Island, has purchased the Burton Garney farm of 85 acres for \$1,825.

John Brennan, railway contractor has purchased the old McDonnell homestead at Sand Point for \$4,000.

Albert McDonald is a candidate for reeve, and Robert Cunningham, for deputy reeve for Hallowell township.

Alva E. Grimmon, of Black Creek, shipped a crate of 100 salmon to Toronto, and to Omaha, Nebraska.

Mease Couch and F. Morris have leased the old brush factory, Napanea, and will convert it into a furniture factory.

John Satchell, proprietor of the Lankford Hotel, and Minnie Kinch, of Lanark township, were married on the 21st.

Mrs. Dolor, Napanea, died last Saturday. She leaves two sons, Sidney and Morley, and one daughter Mrs. Dr. Leonard.

Wildor Joy and Frank H. Perry, Napanea have entered into partnership in the grocery business long carried on by Rankin & Joy.

The home of Albert Watson, near Lombardy, his three-year-old boy dropped head first into a can of milk and was drowned.

In 1812 the only public libraries in Upper Canada were located in Kingston and in Bath. In 1821 another was opened at Hallowell.

John Robertson, of Darling township, is a candidate for the county Free School trustees, having received the three degrees in Scotland in 1829.

Pembroke's rate of taxation for the coming year is 22 mills for public school purposes, 24 for separate school purposes. There is a deficit this year of over \$2,300.

Father Charles in 1720 found Garden Island overrun with hogs from a small stock landed there by early voyagers. He named the place, Isle des Porcs.

The estate of Benjamin West, Yorker, was sold to H. West, for \$7,152; a new brick house, with a lot of 12 acres, was sold and proceeded to manufacture where.

On the night of the 21st, Wm. Potter, aged 21, only son of Orlando Potter, Grindstone Island, was drowned. With his cousin he left Kingston in a sailboat but he could not cope with the waves.

A sad drowning accident occurred at Ameliasburg last Saturday. Tracy, son of Leslie, was drowned, one of the town's milkgirls when it gave way and before assistance could reach him he was drowned.

At Christ Church, Gananoque, on a recent Sunday, the congregation amounting to 315, were placed in a box in the vestry in the evening when the money was to be taken out and counted it had disappeared.

Alexander Thompson, Richmond township, died last Saturday, aged 80. He was born on the farm on which he died. He leaves two children, Manchester Thompson, on the farm, and Mrs. J. A. Joyce, of Richmond township. Another daughter died sixteen years ago. He was a Methodist and Reformer.

FATAL ACCIDENT AT TATMORTW.

On Monday, 18th inst., R. J. Milligan of Tatmorth, while engaged on a bench at the mill, was killed by a falling log. The log, which was being cut by a saw, fell from the mill and struck him on the head. He was taken to the hospital but died on the 21st. He was a well-known farmer and a member of the Methodist church.

HERE'S YOUR OPPORTUNITY!

WE'VE bought a lot of Fine Ulsters and Overcoats from a needy manufacturer who had to have the money. When we buy goods sold us under pressure, we generally get the long end of the lever in our hands. We have it this time, sure, and are using it to turn over these goods in fine shape. Fancy! 500 Ulsters and Overcoats at less than the cloth and trimmings cost. We ask inspection of these goods. To see them is to buy them.

FIRE IN CHICAGO.

CHICAGO, November 22. A fire, disastrous to life and property, swept through the Dry Goods and Woollen Exchange building, this morning. Five firemen, in the active discharge of their duty, and totally unmindful of danger, were carried through the floor and buried under tons of wreckage from the five floors above. Four of the men died, but the fifth was not seriously injured. One girl fell from a window, and received injuries from which she died. A dozen other men, women and girls were hurt or overcome by smoke, and many were rescued from imminent death. The property lost to the building, which was located at 215 217 Van Buren street, and 276-278 Franklin street, and its contents, is estimated at \$400,000.

PATRICK J. O'DONNELL, lieutenant of Engine Company No. 2.

THOMAS J. PRENDERGAST, pipeman.

MARTIN SHERRICK, pipeman.

JOHN DOWNS, pipeman.

KATE LANDRAT, employed by A. Stern & Co., garter factory.

Among the injured: Daniel McNally, pipeman, sprained leg and bruised; Olga Keller, leg and arm injured; Harry O'Neil, arm broken and back injured; Tilly Turner, fell from fourth story and seriously hurt; John Bruenheimer, badly injured by falling from fourth story, while assisting girls to escape. The others who were injured were girls and spectators who saved them, all being overcome by smoke, but they soon recovered after medical aid at the hospital or their homes. All the dead and injured men were members of Engine Company No. 2.

Their Captain, Lewis Fienes, escaped the awful plagues of death only by hanging to the sill of the window on the second floor, until released from his perilous position by firemen on a ladder.

The owners of the burned building are Khun, Nathan & Fischer, a clothing firm, whose factory is at Van Buren and Franklin street, opposite the scene of death and destruction.

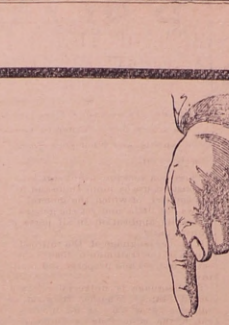

The fire started at 9:15 o'clock on the fourth floor of the seven-story building, in the street at the corner of Van Buren and Franklin street.

Many girls were at work. They ran screaming and fainting, to the windows of the Van Buren street side of the building. All was excitement and confusion in a moment, and the rapidly increasing crowds of spectators stood gazing upwards at what seemed the impending doom of scores of working girls.

Engines, hose carts and ladders came to the rescue with brave firemen, who in a twinkling effected a double escape, or put the extension ladders in position to bring the panic stricken people to the ground. The frantic girls were determined, in their half crazed mental condition, to hurl themselves to the stone flagging, but were partly restrained by the shouts of the citizens on the street as the quick work of the firemen.

One small extension ladder was run up under where the girls were standing in fear of a double death. A frenzied mounted policeman, when he saw the girls in peril, but when his feet touched the rungs of the second section either his weight or some defect in the ladder caused it to slip back to its original position bringing its top four or five feet below the sill of the fourth story window.

Frenzied crowds of people behind or beside the ladder, and the sight of the girl and Harry O'Neill made a wild attempt to lower themselves so that they had to toss the top rung of the ladder to the ground. The foolishly one slipped and fell headlong to the pavement. Capt. Hermann tried to grasp the dress of Kitty Land-

A dozen other men, women and girls were hurt or overcome by smoke, and many were rescued from imminent death. The property lost to the building, which was located at 215 217 Van Buren street, and 276-278 Franklin street, and its contents, is estimated at \$400,000.

PATRICK J. O'DONNELL, lieutenant of Engine Company No. 2.

THOMAS J. PRENDERGAST, pipeman.

MARTIN SHERRICK, pipeman.

JOHN DOWNS, pipeman.

KATE LANDRAT, employed by A. Stern & Co., garter factory.

Among the injured: Daniel McNally, pipeman, sprained leg and bruised; Olga Keller, leg and arm injured; Harry O'Neil, arm broken and back injured; Tilly Turner, fell from fourth story and seriously hurt; John Bruenheimer, badly injured by falling from fourth story, while assisting girls to escape. The others who were injured were girls and spectators who saved them, all being overcome by smoke, but they soon recovered after medical aid at the hospital or their homes. All the dead and injured men were members of Engine Company No. 2.

Their Captain, Lewis Fienes, escaped the awful plagues of death only by hanging to the sill of the window on the second floor, until released from his perilous position by firemen on a ladder.

The owners of the burned building are Khun, Nathan & Fischer, a clothing firm, whose factory is at Van Buren and Franklin street, opposite the scene of death and destruction.

The fire started at 9:15 o'clock on the fourth floor of the seven-story building, in the street at the corner of Van Buren and Franklin street.

Many girls were at work. They ran screaming and fainting, to the windows of the Van Buren street side of the building. All was excitement and confusion in a moment, and the rapidly increasing crowds of spectators stood gazing upwards at what seemed the impending doom of scores of working girls.

Engines, hose carts and ladders came to the rescue with brave firemen, who in a twinkling effected a double escape, or put the extension ladders in position to bring the panic stricken people to the ground. The frantic girls were determined, in their half crazed mental condition, to hurl themselves to the stone flagging, but were partly restrained by the shouts of the citizens on the street as the quick work of the firemen.

One small extension ladder was run up under where the girls were standing in fear of a double death. A frenzied mounted policeman, when he saw the girls in peril, but when his feet touched the rungs of the second section either his weight or some defect in the ladder caused it to slip back to its original position bringing its top four or five feet below the sill of the fourth story window.

Frenzied crowds of people behind or beside the ladder, and the sight of the girl and Harry O'Neill made a wild attempt to lower themselves so that they had to toss the top rung of the ladder to the ground. The foolishly one slipped and fell headlong to the pavement. Capt. Hermann tried to grasp the dress of Kitty Land-

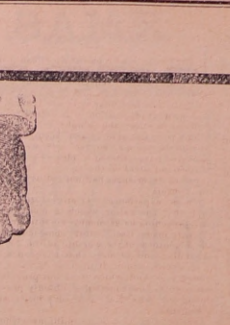

OF INTEREST TO RUPTURED PERSONS.

Those of our readers who may be ruptured, or parents having children so afflicted, will do well to be glad to learn that Dr. J. Y. Egan, of Toronto, the specialist, will visit Deseronto shortly. For dates, etc., see advertisement on another page, headed "Rupture."

This gentleman has the reputation of being the most competent in his profession in this country, and the instrument he uses for the relief and cure of rupture, being a home design and manufacture, and pronounced altogether superior to anything of the kind ever produced, and is the result of over twenty-two years of improvement. Those of our readers who are ruptured, should not let this opportunity pass without consulting him. He rarely travels, his services being in constant demand at the home office, examination and advice cost nothing and this visit is in response to an invitation from physicians and patients, who cannot conveniently go to Toronto for treatment. His office is of an exceptionally high character, as to the ability and skill of the specialist.

Norway Pine Syrup cures Coughs, Colds, Hoarseness, Sore Throat, Asthma, Bronchitis, etc.

Norway Pine Syrup cures Coughs.

HERE'S YOUR OPPORTUNITY!

WE'VE bought a lot of Fine Ulsters and Overcoats from a needy manufacturer who had to have the money. When we buy goods sold us under pressure, we generally get the long end of the lever in our hands. We have it this time, sure, and are using it to turn over these goods in fine shape. Fancy! 500 Ulsters and Overcoats at less than the cloth and trimmings cost. We ask inspection of these goods. To see them is to buy them.

COUGH, The Big

318 and 320 Front Street, Belleville.

BRIGNALL & THOMPSON'S OLD STAND.

FIRE IN CHICAGO.

CHICAGO, November 22. A fire, disastrous to life and property, swept through the Dry Goods and Woollen Exchange building, this morning. Five firemen, in the active discharge of their duty, and totally unmindful of danger, were carried through the floor and buried under tons of wreckage from the five floors above. Four of the men died, but the fifth was not seriously injured. One girl fell from a window, and received injuries from which she died. A dozen other men, women and girls were hurt or overcome by smoke, and many were rescued from imminent death. The property lost to the building, which was located at 215 217 Van Buren street, and 276-278 Franklin street, and its contents, is estimated at \$400,000.

PATRICK J. O'DONNELL, lieutenant of Engine Company No. 2.

Could not get insured.

Rejected by Straight Line and Mutual Companies.

But now insured in both.

"Should I die while I am in a position to pay my insurance premiums, my family will owe their support to Scott's Sarsaparilla. Two years ago I applied to two companies for insurance, \$1000 in each. My face was a mass of pimples and blotches and my urine did not stand the test. One doctor in examining me said I could not pass, but that my trouble was curable. He advised an energetic course of Scott's Sarsaparilla. Both companies rejected me, but four months later, after I had taken five bottles of your remedy I am thankful to say both accepted me as a risk—one being a stock company, the other a mutual. The examiner who previously examined me, remarked 'I never saw such a change in any man.' This is endorsed by J. T. Todd, the popular druggist, corner Queen and Crawford Streets, Toronto.

Scott's Sarsaparilla builds up debilitated constitutions, imparts strength, vigor and vitality, clears and purifies the blood. It cures skin diseases, rheumatism, gout, indigestion and all complaints arising from poor or poisoned blood. Of all druggists, \$1 per bottle.

These Steamers sail regularly twice weekly Deseronto to Oswego.

For further particulars apply to G. A. BOWNE, Gen. Traffic Agent, Deseronto, Ont.

Subject to change.

For Sale.

At The Tyndal's Stock Farm, Road P. O., four grand Shorthorn Bull Calves of the best milking strains. Shropshire Down sheep and lambs. Barred Plymouth Rock fowls, and one young Berkshire boar. Terms and prices right. First class Berkshire and Poland China hogs kept for service.

J. C. HANLEY.

THE BEST MOUTH TONIC IN THE WORLD.

Colorema.

PERFECT TONIC. IT LEAVES THE MOUTH IN A MOST DELICIOUS AND FRESHNESS. S. J. HANLEY, 25 St. J.

FOR OVER FIFTY YEARS.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth, send at once and get a bottle of Winslow's Soothing Syrup for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, and reduces the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for Mrs. Winslow's Soothing Syrup.

A PROMINENT LONDONER.

Chase's Ointment is an invaluable remedy for Itching Piles and in my own case I would pay \$50 per box for it if it could not be otherwise had.

JOHN PEDDIE, 100 Sydney St.

400,000 FREE SAMPLES GIVEN AWAY IN KIGHT MONTHS.

Chase's Kidney-Liver Pills are the only kidney pills known with sufficient merit to guarantee the proprietors in giving away hundreds of thousands of sample packages free. Ask your druggist for a sample if your kidney or liver is deranged.

THE PEARL OF GREAT PRICE.

To woman is beauty. Beauty, the key that unlocks every door, commands deference, inspires honor. But beauty is deficient unless adorned with the additional graces of health, adds its charm. Fine teeth, sweet breath, rippling laughter, florid complexion, always go together. Iovian imparts dazzling whiteness to the nose, removes discoloration and tartar from the teeth, and renders the breath as fragrant as flowers.

Burdock Pills do not grip or sicken. They cure Constipation and Sick Headache.

Probably every body who has over ridden on a railroad train has seen brakemen go

through those motions time and again and yet not one person in a thousand knows what they mean.

The significance of colors is another part of a railroad man's education to which a great deal of importance is attached. Red means danger, and is a signal to stop. Green signifies caution, and is a signal to go slowly. White stands for safety, and is a signal to go on. When blue is shown it means that workmen are employed upon the car or track and must not be interfered with.

The explosion of one torpedo is a signal to stop immediately. When two torpedoes are exploded it means to reduce speed and look out for danger.

The code of steam whistle signals is an extensive one. It is almost as long as the telegraph alphabet, and is employed by the engineer when the train is approaching stations, crossings, etc. One short blast means "down brakes" and stop. Two long blasts, three or four times. Two short blasts are given in answer to signals. Three short blasts indicate that the train will back or run back. A succession of short blasts is to alarm people or cattle on the track.

There are a great many more whistle signals but they are not of public interest. Whenever a signal is imperfectly displayed or no signal appears where one should be, engineers are warranted to consider it as an indication of danger.

The engine bell is always rung before starting a train, for a quarter of a mile before a grade crossing, and all the while when in tunnels or going through the streets of cities and villages.

There is one rule of railroads that is vigorously enforced upon the minds of all employees, and that is that when in doubt run no risks, but take the safest course, regardless of regulations.

Discovery of Lithography.

Next year a century will have elapsed since the discovery of the art of lithography. The story goes that the originator of the art, one Senefelder, was a young actor of Munich, who, having written on two comedies, and not having the means to publish them, was trying various methods of engraving his works, by etching them on copper plates, with a view to becoming his own printer. But, as his writings had to be executed backward on the plate in order to read forward when printed in printing, he was obliged to practise his back engraving on some cheap or substance than copper plates.

Accordingly he produced some pieces of smooth, soft stone, which he found to be a suitable material for his purposes. In his etching experiments he made use of an oleaginous, ink compound, capable of resisting the acid in the etching process. On one occasion he was desirous by his mother to make a list of articles about to go to the laundry, and, as his most convenient writing materials were one of his stone slabs and his etching ink, the list was duly made out upon stone. When the time came to rub it off, it occurred to him that by etching away with acid the parts of the stone uncovered by the writing ink, he might be able to print from it. This he succeeded in doing.

Improvement followed discovery, and, having devoted considerable attention to the perfection of a press and suitable printing appliances, Senefelder got a partner with some means to help him, and in 1796 published his first lithographs—some pieces of music.

Excavations at Pompeii.

Excavations at Pompeii have, for many years past, been progressing slowly under the superintendence of the Italian Government. Some 80 men are now at work clearing away the debris from the ruins on the side of the town nearest Mount Vesuvius. Quite recently the workmen unearthed a house, not perhaps remarkable for its size, but containing objects of great interest and beauty. Eighteen fluted columns supported the roof of the great central hall and all are little worse for their long repose in the dust and ashes. Seven of them are now quite perfect, though it is evident they have been restored to some extent.

The walls are decorated with frescos similar to those with which all visitors to Pompeii are familiar. Their great charm is their freedom from the drabness and richness of color. One little painting of a cock-fight is especially interesting, as giving a hint at the sporting proclivities of the owner. Some pictures, representing fruit, fish and game, are surrounded with festoons of flowers. Fresh as these paintings are, a few months' exposure to the air will probably do them more damage than their centuries of burial.

Don't leave your Xmas photos till the day you want to send them to your friends. Osborne's work is finer than ever.

DIAMOND DYES

Made expressly for home use.

Diamond Dyes are precious helps in city and town homes. To the farmer's wife and daughters they are invaluable goods for wool, cotton, mixed goods, silk and feathers. They are easy to use, and give color that neither sun nor chemicals will fade. Beware of imitations; ask for the "Diamond," and see that you get them; all dealers sell them.

Direction Book and sample of colored cloth

For 2 cents

WELLS & RICHARDSON Co., Montreal, P.Q.

STOP.

Go ahead—Raise and lower the hand vertically.

Back—Swing the hand vertically in a circle.

Train passed—Swing the hand in a circle over the head at the full length of the arm.

Track clear, go ahead—Extend both arms at full length above the head.

Turn air on the brakes—Hold the arm down and move the hand in a circle from the wrist.

Probably every body who has over ridden on a railroad train has seen brakemen go

through those motions time and again and yet not one person in a thousand knows what they mean.

HOUSEHOLD.

How They Named the Baby.

They talked of Medora, Aurora and Flora.
Of Mabel and Marcia and Mildred and
Debated the question of Helen, Honora,
Cecilia, Camilla, and Phyllis and
They thought of Marcella, Estella, and
Bella.
Considered Cecelia, Jeannette and
Alicia, Adella, Annetta, Arabella,
Suzanne and Eunice, Hortense and
Irene.
One liked Angel and another Lenora;
Some thought for Edith and some for
Elsie.
For Madeline, Adelino, Lily and Lora
And then after they decided on
Jane.

Good Coffee.

A truly can it be said of coffee that it is a "cup which cheers but not inebriates." As a stimulant nothing surpasses a cup of fresh coffee, provided it is well and carefully made. It is indeed a tonic, and when properly and suitably served, thus making of it the most cherished beverage. As a rule the housekeeper is busy enough with taking the additional labor of roasting her own coffee, and so, in the least satisfaction in doing so than can ever be found in buying it ready for the coffee-pot. Where one has room—cool, dry place—the best way is to buy a pound of green coffee and roast just enough for the day's use. It should then be placed in an air-tight can that none of its delicious aroma may escape.

It may be best to grind the coffee quite coarser than the sugar, and more is required for a cup. Even one buys the coffee already roasted it is best to grind it at home, just the quantity required each time. It is always pays to procure the best if one can afford it, and the best is the best. The coffee generally preferred, and the most likely to suit the average taste, is two parts of the best of the third Mocha. Many like a little Bira and have equal parts of each. The coffee-pot is two parts of clean, hot water must be boiling and the coffee ground fine, then we can proceed to roast it. It is best to roast the coffee with variety of taste and opinion about the quantity it would be better with a little good coffee, and one which suits most people, is to use a heaping tablespoonful of ground coffee to each cupful of water. The coffee is thoroughly roasted when it is a rich brown color and the required amount of water is added. It may have to be stirred once or twice, and when it is ready to jump. Permit it to boil a few seconds and allow it to remain standing for a few minutes. When it is white. Of course, this may not be strong enough to suit everyone's taste, but double with equal coffee can be used. Use thick cream, or if not, Every farmer has cows, so let us get the cream, and mix it with the coffee with blue milk. It is mistaken economy.

There is another way to make coffee—old-fashioned and a good recipe. Scald the tin coffee-boiler and put in one cup of coffee, and one cup of ground coffee mixed with the yolks white, and broken shell of one egg; add a little salt, and a little sugar, and boiling water; place on the front of the range and allow it to boil fast for five minutes, then add a little of a cup of cold water and remove gently to the side of the range. After this add about three points of cream, which it is to go to the table, having first scalded the pot thoroughly. Coffee made in this way is particularly good, and cream and sugar is particularly good.

After each time used, the coffee-pot should be washed with soap and suds and thoroughly rinsed, care being taken that it is perfectly dry before it is put away. As a cover would prefer to have but one cup of good coffee a day, rather than two poor ones.

There is a very many excellent methods of making it, coffee is so often found to be the most agreeable of all drinks. Take a little time to exercise a little care in making it, and it more dainty, and more agreeable, than with your coffee but that it is delicious.
